NIGER - Project to Strengthen Drinking Water Supply and Sanitation and Improve Resilience in Zinder, Mirriah and Surrounding Villages (PREPAAR -ZMVE)

NIGER - Project to Strengthen Drinking Water Supply and Sanitation and Improve Resilience in Zinder, Mirriah and Surrounding Villages (PREPAAR-ZMVE)

Quick Facts

Countries	Niger
Specific Location	Zinder, Mirriah and Surrounding Villages
Financial Institutions	African Development Bank (AFDB)
Status	Approved
Bank Risk Rating	A
Voting Date	2025-11-05
Borrower	Government of Niger
Sectors	Climate and Environment, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	$ 165.50 million

Project Description

According to bank provided information, the objective of the project is to improve access to sustainable and climate-resilient drinking water and sanitation services for the population in the project area, thereby significantly enhancing living conditions, public health and resilience to environmental and socio-economic stressors. The project will develop new water supply infrastructure, including boreholes, storage facilities and distribution networks, and construct sanitation facilities, while promoting behaviour change and capacity building to ensure proper use and management of the new services. By doing so, it seeks to reduce the prevalence of untreated water use, low sanitation coverage and chronic public health risks, and to support long-term sustainable development in the target communities.

The Project to Strengthen Drinking Water Supply and Sanitation and Improve Resilience in Zinder, Mirriah and Surrounding Villages is a priority initiative in Niger aimed at addressing critical water and sanitation challenges and strengthening community resilience in the face of poverty, climate change and health risks. The African Development Bank’s Board of Directors approved a USD 165.5 million concessional loan from the African Development Fund (ADF) to finance the project, which will be implemented over a period of five years in the cities of Zinder and Mirriah and the surrounding villages, complementing the Government of Niger’s strategies and national development plans. The financing from the Bank is aligned with the Government’s priority programmes and contributes to multiple Sustainable Development Goals, including universal access to clean water and sanitation, climate resilience and improved health outcomes.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.afdb.org/en/disclosure-and-access-to-information/request-for-documents. Under the AfDBÕs Disclosure and Access to Information policy, if you feel the Bank has omitted to publish information or your request for information is unreasonably denied, you can file an appeal at https://www.afdb.org/en/disclosure-and-access-to-information/appeals-process.

ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing crmuinfo@afdb.org, b.kargougou@afdb.org, b.fall@afdb.org, and/or s.toure@afdb.org. You can learn more about the IRM and how to file a complaint at: https://www.afdb.org/en/independent-review-mechanism/
