Project Description

According to the Bank’s website, the knowledge and support technical assistance (KSTA) will support Operational Priority 1 of Strategy 2030 by improving care for noncommunicable diseases (NCDs), which will contribute to reduced morbidity, mortality, and out-of-pocket expenses related to healthcare; hence reducing impoverishment and increasing productivity. The TA will be conducted regionally, with a focus on developing member countries with a high burden of NCDs. It will increase knowledge and best practices and capacity to formulate and implement policies, stimulate capacity increase, and improve uptake of innovative technologies, all for increased NCD management at primary care level in underserved areas, contributing to universal health coverage.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
