Project Description

According to bank's website, the approved technical assistance initiative will support Turkmenistan in advancing a greener, more competitive, and more inclusive growth model by strengthening institutional capacity, enhancing policy and analytical foundations, and developing a pipeline of strategic investment opportunities. Fully aligned with ADB's Country Partnership Strategy 20242028, Asian Development Bank Strategy 2030, and Turkmenistan's national development priorities under the National Program for the Socio-Economic Development of Turkmenistan for 20222052 and the Socio-Economic Development Program for 20222028, the TA provides a flexible and responsive mechanism to address structural challenges such as heavy dependence on hydrocarbons, limited private sector development, and gaps in project readiness. Through upstream policy advice, targeted analytical and knowledge support, capacity-building activities, and early-stage project preparation across priority sectors, the initiative will help the government translate long-term strategic objectives into practical, investment-ready initiatives that promote economic diversification, climate resilience, digital transformation, modernization, and sustainable growth.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
