Project Description

As stated by the EBRD, the project consists of the provision of a guaranteed facility of up to EUR 10 million to support the construction of the electrical interconnection facility for a 100 MW / 200 MWh battery energy storage system (BESS) located in the Bukhara region of Uzbekistan. Artemisya BESS FE LLC, a special purpose vehicle established in Uzbekistan, will be the Borrower. Voltalia S.A. will act as the Sponsor for the project.

The project is expected to add 100 MW / 200 MWh of battery storage capacity to Uzbekistan's power system, providing ancillary services and enhancing grid stability, which is critical for the reliable integration of intermittent renewable energy. The successful implementation of the project will pave the way for broader implementation of renewable projects in line with Uzbekistan's renewable energy targets.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at: http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html
