TECHEU SCALE UP - ROHLIK II (IEU FT)

EIB-20250601

Quick Facts

Countries	Czech Republic
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	C
Voting Date	2026-05-14
Borrower	ROHLIK GROUP AS
Sectors	Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	$ 34.99 million
Project Cost (USD)	$ 76.97 million

Project Description

According to the Bank’s website, the project pertains to the development and deployment of a standalone end-to-end fulfilment solution specifically designed for online grocery. The aim is to support research, development and innovation (RDI) investments and other growth-enabling activities aiming to further automate the fulfilment and logistics processes.

The Project contributes to the Innovation, Digital and Human Capital (IDHC) Public Policy Goal, Competitive Industries - RDI objective and to the EIB's core strategic priority "Digitalisation and Technological Innovation" (TechEU). The financing of this Project supports the development and deployment of innovative activities, which generate positive knowledge and technology externalities through the creation of innovative processes, products or services, and through skills development and upgrading.

It addresses the market failure of imperfect competition, as it contributes to expanding the competitive space for new product technologies and helps mitigate the competitive disadvantage of companies with outdated digital technologies, which require transformation. In addition, the Project will promote the diffusion of knowledge through collaboration with the fulfilment and logistics automation ecosystem, foster internal innovation initiatives and support the creation of innovative businesses.

The Company is a scale-up with significant growth-related financing needs. The EIB's venture debt would support this growth through a flexible, covenant-light structure with long maturity, while diversifying funding sources of the Company. The project would not have been carried out (to the same extent) by the EIB without the InvestEU support.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, based on the environmental, climate and social information and based on the review of the likely significant environmental, climate and social risks and impacts and the mitigation measures and management systems in place, the Project is deemed to have low residual environmental, climate and social risks and impacts.

The related activities will be performed in existing buildings with no relevant environmental impacts expected. The project has minimal impact in terms of climate risk.

The project does not carry any significant labour risks and risk to health and safety is minimal with the overall social risk being low.

Investment Description

Private Actors Description

Founded in 2014 in the Czech Republic, *Rohlik Group* is a leading European online grocery delivery service, active in the Czech Republic, Hungary, Austria, Germany and Romania. The company attains annual revenues of EUR 750m. Deploying world-leading technology & logistics, Rohlik can deliver a huge range of quality products (17 000 SKUs+) within 60 minutes and within 15-minute same-day time windows. By owning its end-to-end operations, including having all technology in-house, customers are provided with delivery of fresh food from local farmers and artisans, as well as a broad supermarket selection and its own private label brands.

You can submit an information request for project information at: https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
