Support to National Planning and to the National Statistics and Information System and National Plan

Project Description

The main objective of this program is to strengthen the Strategic Management of State (GEE) of El Salvador, with emphasis on the generation of reliable and timely information for use in planning, monitoring and evaluation of public policy information. Its specific objectives are: (i) improve the timeliness and reliability of the production of statistical information to support the GEE; (Ii) improve the targeting of public policies based on socio-demographic information; and (iii) improve planning in order to capture and better articulate the challenges of development in national, sectoral, territorial and institutional dimensions.

Investment Description

- Inter-American Development Bank (IADB)

The proposed project cost is US$50 million, US$45 million of which would be financed by an investment loan from the IADB, and US$5 million of which would be country counterpart financing.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
