

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

Level 2 Results Framework Indicators (Outputs and Outcomes)		
No.	Targets	Methods / Comments
Not applicable	Not applicable	<p>The Infrastructure Sustainability Support Program (the program) is designed to support the government's agenda on sustainable infrastructure provision as articulated in the Armenia Development Strategy 2014-2025.¹</p> <p>As a policy-based loan, it makes an indirect contribution (attribution) to Level 2 Results Framework Indicators and ADB's Strategy 2020 through better public financial and results-based management of the road transport and drinking water supply sectors. The impact level road and water sector indicators that will be monitored to ensure the program's indirect contribution to the ADB Results Framework are: (i) at least 50% of the road network (interstate, republican, and local roads in kilometers) is satisfactory or above in riding quality (as measured by an international roughness index less than or equal to 4) by 2020, compared to the baseline of 41% in 2012; and (ii) 65% of households have access to 24-hour water supply in 2020, from the baseline of 59% in 2012.</p>
