

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

No.	Level 2 Results Framework Indicators (Outputs and Outcomes)	Targets	Methods / Comments
1	Finance		
1.1	Microfinance accounts opened and end borrowers reached	Not available ^a	Village community members reached by microfinance lending. Specific target will be established after all subprojects are appraised in detail.
2	Water		
2.1	Number of households served with water supply	Not available ^b	Specific target will be established after all subprojects are appraised in detail.
2.2	Number of households served with sanitation	Not available ^b	Specific target will be established after all subprojects are appraised in detail.

^a The community coral reef management institutions supported by the project will be provided microfinance assistance for microenterprises which will eventually stimulate future microfinance accounts under the project.

^b Water supply and sanitation systems are part of the menu of infrastructure activities under the project and will be included in future subproject design and implementation through a community-driven consultation process.
