Description	The TA will build on earlier work to help CCDMF prepare for the launch of a FoF for climate change that emphasizes private sector participation. The TA will also initiate preparations of additional financial innovations that will leverage private financing and support outreach on the actions of the CCDMF.				
Project Rationale and Linkage to Country/Regional Strategy					
Impact	More diversified and sustainable financing for climate change				

Project Outcome

Description of Outcome	Consideration by decision makers of innovative models for climate change financing
Progress Toward Outcome	The TA is completed.

Implementation Progress

Description of Project Outputs	Detailed design of an FOF for climate change and supporting operating procedures Assessment of the commercial viability of an FOF for climate change Preliminary design of additional innovative models for change financing Targeted, widely accessible knowledge products
Status of Implementation Progress (Outputs, Activities, and Issues)	Regular review missions fielded. After the delay in consultant recruitment due to the change of recruitment method, a team of individual consultants are now mobilized. The inception meeting was held in September 2015 and further recruiting of international consultant was agreed based on the original TOR. The first workshop will be held in Beijing in the last week of October. All TA activities completed. CTL is processing the closing of the TA account.

Stakeholder Communication, Participation, and Consultation

During Project Design	The China Clean Development Mechanism Fund was actively engaged in the design of the TA project.
During Project Implementation	Consultation with the China Clean Development Mechanism is ongoing.

Business Opportunities

Consulting Services	The TA will engage one international consultant for a total of 2 person-months, and six national consultants for a total of 16 person-months. No single firm can be expected to provide well-qualified consultants for the full range of diverse skills required for the TA, so more than one firm will be engaged. A firm will be engaged to deliver outputs 1 and 2, and a separate firm will be engaged to deliver output 3. Output 4 will require a national consultant for 2 person-months. Given the small input, this consultant will be hired individually.
