Description	<p>The Lao Road Sector Governance and Maintenance Project will improve the delivery of public service in road asset management. It will cultivate sustainable and efficient road asset management practices by strengthening governance and capacity in planning, financing, and implementing routine and periodic road maintenance. The project will rehabilitate and maintain a total of 327 kilometers (km) of national and local roads in the provinces of Salavan, Xekong and Attapu. It will contribute to the achievement of the government's goal of improving road asset management. The expected impact of the project will be delivery of public services in road asset management improved. The outcome will be sustainable road maintenance implemented in the provinces of Salavan, Xekong and Attapu. The project will consist of three outputs, (1) governance and practice for road asset management improved; (2) institutional capacity for road asset management strengthened; and (3) road asset rehabilitation and maintenance completed.</p>	
Project Rationale and Linkage to Country/Regional Strategy	<p>The project is consistent with ADB's Lao PDR country partnership strategy for 2012- 2016 and the Lao PDR's Seventh National Socioeconomic Development Plan 2011- 2015, both of which have the overarching objective of promoting inclusive and sustainable economic growth and poverty reduction. ADB's 2011 Transport Sector Assessment, Strategy, and Road Map (ASR) for Lao PDR recognize the need to support road maintenance as a key component of ADB's future assistance to the Lao PDR transport sector. The project also captures the essence of ADB's Sustainable Transport Initiative which defines a transport system that is accessible, safe, environment-friendly, and affordable.</p>
