Stakeholder Communication, Participation, and Consultation

During Project Design	Consultations with stakeholders were conducted and this shall continue throughout the project cycle. The farmers will participate in rehabilitation and construction of tertiary and on-farm canals. Training programs for irrigation management and higher value agriculture will be provided to the farmers.
During Project Implementation	The main stakeholders which are the farmers in project areas and the government officials, will be involved in subproject planning, designing irrigation system, construction works and operation and maintenance (O&M).

Business Opportunities

Consulting Services	A total of 94.0 person-months (pm) of consulting services (consisting of 24.0 pm of international and 70.0 pm of national input) are required for project preparation. The consulting services will be recruited from a firm selected using QCBS method at a ratio of 80:20 based on a full technical proposal. The consultants will be recruited in accordance with ADB's Guidelines on the Use of Consultants (2013, as amended from time to time).
