

Regional: Supporting the Operationalization of Community-Driven Development in Developing Member Countries

Project Name	Supporting the Operationalization of Community-Driven Development in Developing Member Countries	
Project Number	47156-001	
Country	Regional	
Project Status	Closed	
Project Type / Modality of Assistance	Technical Assistance	
Source of Funding / Amount	TA 8589-REG: Supporting the Operationalization of Community-Driven Development in Developing Member Countries	
	Technical Assistance Special Fund	US\$ 200,000.00
	Republic of Korea e-Asia and Knowledge Partnership Fund	US\$ 500,000.00
Strategic Agendas	Inclusive economic growth	
Drivers of Change	Governance and capacity development Partnerships	
Sector / Subsector	Agriculture, natural resources and rural development - Agricultural drainage - Irrigation - Rural water supply services Education - Pre-primary and primary Information and communication technology - ICT infrastructure Public sector management - Public administration	
Gender Equity and Mainstreaming		
Description	<p>Building on the results of the two previous CDD technical assistance projects, and to sustain the momentum of initiatives that have been undertaken, this technical assistance project will address the following issues: (i) weak coordination among sector agencies to effectively deliver basic services in response to local development needs; (ii) limited knowledge of DMC officials on how to design CDD projects/programs appropriate to the country context; and (iii) lack of ICT infrastructure that can improve the basic service delivery at the local level. In response to growing DMC demand for CDD knowledge solutions, this technical assistance project will produce analytical work on the CDD approach to support the inclusive growth agenda; conduct cross-country learning exchanges on CDD approach to contribute in the long run to building the capacity of selected DMCs; and identify ICT initiatives to improve the basic service delivery at the local level. Component 1 will analyze the local mechanism of converging pro-poor programs that will provide as inputs to the DMCs that are interested to start up or scale up CDD approach. More specifically, the analytical work of component 1 will feed into component 2 as reference for those selected DMCs that will be assisted with the design of the CDD approach. Participating DMCs for component 2 will also receive technical inputs from DMC representatives of Indonesia and the Philippines through cross-country learning exchanges to operationalize the CDD approach. The selected DMCs from components 1 and 2 will receive further assistance to identify ICT tools that can improve access to basic services delivery that will complement the CDD project implementation.</p> <p>The knowledge generated and outputs produced through this technical assistance project will be distilled during the regional conference in the latter part of implementation, and more regularly shared through the CDD Network established under R-CDTA 7543. The proposed technical assistance project will directly support ADB's regional departments in increasing the demand from the DMCs for knowledge solutions to operationalize CDD initiatives, which can be further accelerated with the introduction of ICT applications that can increase access to basic service delivery. Proposed DMCs to be covered by each component will be finalized jointly with the regional departments prior to the fact-finding mission scheduled in Q3 2013. The selection of the DMCs will be based on the relevance of the applicability of the technical assistance activities to ongoing or planned ADB projects. The DMCs included for analytical work in component 1 are Indonesia and the Philippines. Two or three DMCs for conducting cross-country learning exchanges in component 2 will be selected based on discussions with the regional departments; and two or three DMCs for ICT initiative in component 3 will be selected from the DMCs that will be involved in either component 1 or 2.</p>	

Project Rationale and
Linkage to
Country/Regional Strategy

Impact Increased demand for application of CDD approaches in selected DMCs

Project Outcome

Description of Outcome Increased knowledge and capacity of participating DMCs to operationalize the CDD approach

Progress Toward Outcome

Implementation Progress

Description of Project Outputs Analytical work on CDD approach produced
Cross-country learning exchanges promote CDD approach
ICT initiatives identified complement the CDD approach

Status of Implementation Progress (Outputs, Activities, and Issues)

Geographical Location

Summary of Environmental and Social Aspects

Environmental Aspects

Involuntary Resettlement

Indigenous Peoples

Stakeholder Communication, Participation, and Consultation

During Project Design

During Project Implementation

Responsible Staff

Responsible ADB Officer Ito, Yukiko

Responsible ADB Department Sustainable Development and Climate Change Department

Responsible ADB Division SDSC-TRA

Executing Agencies *Asian Development Bank
6 ADB Avenue,
Mandaluyong City 1550, Philippines*
