Subject: ADB Loan-3055 IND, UEAP (R&B) Re-Submission of revised Due Diligence Reports (DDRs) of Almora, Nainital, Pithoragarh and Bageshwar Districts for ADB's approval.

Madam,

Reference to the subject matter kindly find enclosed revised Due Diligence Reports (DDRs) of Almora, Nainital, Pithoragarh and Bageshwar Districts for the following subprojects for ADB's approval.

S.No.	Subproject No.	Subproject Name												
1-10	UEAP/PWD/C-2	Almora-Bageshwar Motor Road												
		Ranikhet-Mohan Motor Road												
		NTD Kafarkhan- Dhaulchinna Motor Road												
		Jalikhana-Nobara Motor Road												
		Kosi-Daulaghat Motor Road (Km 1 to 36)												
		Dwarhat-Binta Someshwer Motor Road (Km 17 to 32)												
		Bhatrojkhana Bhikiyasain Chokhutiya Motor Road (Km 26 to 45)												
		Bhikiyasain Deghat Bungidhar Bachuwaban Mehalchori Chaukhutia Motor Road (Km 36 to 43)												
		Ganai-Jorasi Motor Road (Km 1 to 24)												
		Artola Jageshwer Naini Motor Road (Km 6 to 20)												
1-9	UEAP/PWD/C-1	Khairna Ranikhet Motor Road (Km 1 to 26)												
		Marchula-Saraikhet-Bajjro-Pokhra-Satpuli Motor Road (Km 41 to 72)												
		Protection/Treatment work on Chronic land slide zone on Khairna-Ranikhet Motor Road (1km from Khairna Bridge												
		Kaladhungi- Kotabagh-Belpadav Road												
		Nainital-Kaladhungi- Bajpur Doraha Road												
		Betalghat-Bhatrojkhana												
		Nathuwakhana-Suyalbari												
		Ratighat-Betalghat Motor Road (Km 1 & 16 to 33)												
		Ranibag-Bhimtal-Khutani-Padampuri-Motiyapathar-Lohaghat Motor Road (Km. 7 & 12 to 61)												
		Reconstruction of Ramnagar-Kaladungi-Haldwani-Kathgodam-Chorgaliya-Sitarganj-Bijti Motor Road (km 5.00 to 14.00)												
1-9	UEAP/PWD/C-3	Reconstruction of Ramnagar-Kaladungi-Haldwani-Kathgodam-Chorgaliya-Sitarganj-Bijti Motor Road (km 18.00 to 24.00 & km 29												
		Reconstruction of Ramnagar-Kaladungi-Haldwani-Kathgodam-Chorgaliya-Sitarganj-Bijti Motor Road (km 66.00 to 76.00)												
		Reconstruction of Ramnagar-Kaladungi-Haldwani-Kathgodam-Chorgaliya-Sitarganj-Bijti Motor Road (km 77.00 to 87.30.00												
		(Protection/Treatment work on Chronic land slide zone on Nainital-Bhowali Motor Road km 1.00)

I. Introduction

A. Background

1. The State of Uttarakhand suffered from major cloud bursts, incessant rains and major floods in the upper valleys during 15-17 June 2013 that resulted in severe damages in several parts of Uttarakhand. The districts of Chamoli, Rudraprayag and Pauri were directly affected by this disaster. These regions are among the country's most important pilgrimage centres and the calamity occurred during the peak pilgrimage season. Several roads and bridges have been washed away by the unprecedented flash floods and landslides. A large number of houses, public buildings, roads and bridges, urban and rural infrastructure has been damaged. To restore and rebuild the damaged infrastructures, especially the road connectivity network in the state, the Uttarakhand Emergency Assistance Project (UEAP) has been taken up which envisages rehabilitation and reconstruction of state roads and bridges, tourism infrastructure (including construction of helipads and trekking routes), urban roads and buildings.

2. Through the implementation of the UEAP the expected outcome is economic and social recovery from the disaster in Uttarakhand State.

3. Broadly, the works in Kumaun region comprise restoration of the road to its original shape with the clearance of slip and construction of retaining and breast walls, drains, crash barriers and improvement of riding surface by resurfacing through cement concrete and BM/SDBC. These will be constructed as per Ministry of Road Transport and Highways (MORD/ MoRT&H) Specifications and as per the Indian Road Congress (IRC) guidelines. The Program will improve road connectivity and will improve the quality of life of the poor in the project influenced areas. The strengthening and rehabilitation of road will be restricted to affected lengths and alignments of proposed subprojects.

B. Need of the Sub-project

4. The subprojects of Pithoragarh district under consideration has been taken up for restoring the damaged road network within the rural as well urban limits of Pithoragarh district. This road subproject provides connectivity to internal areas of Pithoragarh district. After its restoration local people from various parts of the district will be well connected with the mainstream.

5. Pithoragarh district is the easternmost Himalayan district in the state of Uttarakhand, India. It is naturally landscaped with high Himalayan mountains, snow-capped peaks, passes, valleys, alpine meadows, forests, waterfalls, perennial rivers, glaciers, and springs. The flora and fauna of the area have rich ecological diversity. The geographical area of the district is 7,110 km² (2,750 sq. mi). As per 2011 census, the total population of the district was 485,993.

6. Restoration and reconstruction of affected roads is the need of people of Pithoragarh district where people and tourist can safely move. Restoration and reconstruction also help in restoring livelihood of local people, especially road side small and medium businessmen and vendors and squatters.

C. Location of the Sub-projects

7. The subproject roads passes majorly through human settlements with a varying formation width (see Figure 1). The subproject roads also passes through hilly terrain where landslide and slip occurs especially during monsoon season.

Figure 1: Pithoragarh District Subproject maps

SatsilingThal Motor Road, UEAP/PWD/C-12

Fig. 3.2: Location Map of road

Reconstruction of internal road of Nagar Panchayat Munsiyari, UEAP/PWD/C-75

D. Objective of the Project

8. The main objectives of the project are as follows:

- Economic and Social recovery from the disaster in Uttarakhand;
- Restoration of the road to its original shape with the clearance of slip;
- Construction of Retaining & Breast Wall, Drains, Crash Barriers and improvement of riding surface;
- To avoid involuntary resettlement wherever possible by means of adopting an appropriate technical design, which leads to minimization of the resettlement impact;
- Provide opportunities for women to access employment and livelihood through rehabilitation of roads and bridges;
- Address gender concerns and other social vulnerabilities through the project.

E. Impact and Outcome

9. The impact of the project is improved economic and social condition in Uttarakhand after 2013 disaster. The outcome of the project is basic public and social infrastructure restored disaster preparedness, project management and institutional effectiveness improved. The design and construction standards for the physical infrastructure have been raised to an appropriate level and the focus is given to build back the same or better. The revised high flood levels of the rivers, natural streams and drainage channels is also considered, while designing facilities, Geotechnical studies have been undertaken and slope stabilization measures considered for slide zones, wherever applicable.

F. Measures to Minimize Impact

10. Minimization of resettlement impact was achieved mainly by reducing the corridor of impact. Based on the availability of Right of Way (RoW) and likely improvement strategy, it was agreed in consultation with Public Works Department (PWD) to reduce the corridor of impact in habitation and market areas.

11. In Uttarakhand, almost all the road side shops and vendors close their business before 6 pm, except major cities. People from nearby settlements return back to their settlements before dark after shopping, Considering this scenario, it was decided to allow civil work activity in market area or population density area between 6 pm to 10 pm to avoid temporary disruption of livelihood of road side vendors. A circular has been issued by Chief Engineer, PIU (R&B), dated Sept 8, 2015 regarding timing of civil work activities in market / heavily populated areas. The decided timing is between 6.00pm to 10.00pm to avoid temporary disruption of livelihood as well as environmental impact (Annexure A: Circular of Performing of Construction Work in the night shift in congested area of town and cities). With reference to provisions in the ADB approved Environmental Management and Monitoring Plan (EMMP, serial number C.4.3.1), another circular dated Jan. 27, 2016 was issued to ensure that the construction activity will be done once shops are closed in the market area and not continued beyond 10.00pm. (Annexure B: Minimization of Involuntary Resettlement (IR) and Indigenous People (IP) impacts).

G. Scope of the Sub-project

12. The ADB funded UEAP project covers the scope of reconstruction of internal roads of Pithoragarh district considered as Sub-project UEAP/PWD/C-12, 46, and 75. The restoration of the affected 97.25 km is to be done within the existing ROW.

13. The scope of this subproject includes restoration of the roads with WBM (G3), profile correction by BM, resurfacing by SDBC in heavily damaged blacktop portion of the roads,

Due Diligence Report of Pithoragarh District of Uttarakhand, 2016, DSC-3, PIU (R&B), Uttarakhand Emergency Assistance Project (UEAP) GOU.

Road side drainage system, and restoration of traffic signs, markings and appurtenances. All these need to be carried out under MORT&H/MORD specifications.

14. The salient features of the sub projects are given bellow table 1

Table 1: Salient features of sub projects of Pithoragarh District

Sr. No	Sub – Project No	Sub – Project Name	Affected Length (km)
1	PWD/UEAP/C-12	SatsilingThal Motor Road	49.00
2	PWD/UEAP/C-46	Seraghat-Udiyribend (Km 61.375- 104.464)	42.00
3	UEAP/PWD/C-75	Reconstruction of internal road of Nagar Panchayat Munsiyari	6.25
Total			97.25

H. Objectives of Due Diligence Report

15. Objectives of this due diligence report is to: (i) determine whether the section of the subproject road is free of any resettlement impacts, e.g., land acquisition, displacement, adverse impacts on income and livelihood of both titled, non-titled Displaced Persons (DPs); and (ii) review the present field situation of this subproject in accordance with ADBs Safeguard Policy Statement (SPS) 2009.

I. Requirement of Due Diligence Report

16. Existing ROW was used for the purpose of restoration and reconstruction of roads affected due to disaster in 2013. In this project there is no involuntary resettlement involved and hence the preparation of Resettlement Plan (RP) for this project is not required.

17. The subproject does not entail any permanent land acquisition and resettlement. Site re-assessment of the entire proposed roads was undertaken. During re-assessment, it was observed that there is no expected impacts on private/public land, private properties like housing, shops, commercial buildings, religious and community infrastructure and temporary loss of income during civil work activity. No negative impact on livelihood of road side vendors is envisaged. Construction activity in these subprojects is partly completed.

J. Indigenous People

18. There is no permanent or temporary impact on any asset of Indigenous people. This subproject is definitely supporting economic growth of local communities including Tribes.

K. Scope of Land Acquisition and Resettlement

19. As mentioned earlier, no additional land is require for restoration and reconstruction of any subproject mentioned in table 1, as all proposed work is to be executed on existing ROW. Cut-Off-Date for this sub project is June 2014. After this date, any person or group of persons construct any structure will not be included in the list of Affected Persons.

L. Grievance Redress Mechanism

20. The project (UEAP), funded by Asian Development Bank has established Centralized GRC for all Sectors at PMU Level and in five worst affected districts (Rudraprayag, Uttarkashi, Chamoli, Bageshwar and Pithoragarh) out of 13 districts of Uttarakhand. The DDMOs have been deputed in all the 13 districts as Nodal officers for Grievance Redress Mechanism, a dedicated toll free phone number for the grievances and complaints from any stakeholders or individuals. There is a well-organized grievance Redressal mechanism. The toll free number is **0135-2708376** and email address is grievancepmu@gmail.com.

M. Gender Issues

21. There is no women headed household affected due to restoration and reconstruction of sub projects. Awareness programs and IEC programs on Gender awareness and HIV/AIDS prevention have been planned and implemented in this sub project to mainstream women.

N. Public Consultation

22. At the initial stage public consultation was carried out by the concerned Department (PIU) and DSC-1 technical team to disseminate project information and awareness creation about the project among the road users and local communities. During initial stage, Public Consultations were carried out by CREDA along with Awareness Program in which respective DSC-1 field staff was also participated.

23. Validation and confirmation of impact during civil work activity was arranged in the month of May 2016 in subprojects of Pithoragarh district by DSC-3 technical team along with Social Expert. Public Consultations was arranged to reconfirm that there is no permanent or temporary impact on private/public land, private properties like housing, shops, commercial buildings, religious and community infrastructures. No negative impacts on livelihood of road side vendors.

24. During Public Constlation, people expressed their satisfaction towards the quality of civil work and progress of work (Annexure C: Photographs and Attendance Sheet of Public Consultation).

O. Conclusion

25. The results of this Due Diligence report confirms that there would be no impact on any titled or non-titled holders like squatters or encroachers in the sub project. No land acquisition is involved and there is no requirement of payment of compensation or assistance to any titled or non-titled holders, on account of sub – projects.

26. In case any claims or complaints are submitted during the remaining project implementation period, an effective and efficient Grievance Redress Mechanism, being already in place, will enhance provision of timely hearings and facilitate solutions to address the issues raised. Also these impacts, if any will be captured in the Semi Annual Social Monitoring Reports (SASMRs) as well as new Involuntary Resettlement Due Diligence Reports (IR DDRs) or Resettlement Plan (RP) will be prepared as required.

Subject: ADB Loan 3055 IND- UEAP (R&B) Performing of Construction Work in the night shift in congested areas of towns and cities.

Dear Sir,

It has been observed that the construction work in Urban Roads/Population Density Area/Market area during the daytime would hamper the flow of traffic. Many schools and offices, both private and Government, which are connected by the roads would be affected during the construction period. As accessibility to shops and movable vendors, which are settled on both side of the road, would be limited during the construction period may resultant in loss of livelihood. Hence, it is requested to shift the construction hours after 5:00 PM and during the night to minimize the impact on the flow of traffic and livelihood of shops and kiosks.

In view of the above circumstances, it has been decided and instructed to the Contractors and the DSCs for performing the construction work in the congested areas during the night shift for all the concerned packages.

You are directed to reschedule the construction accordingly as per the requirement of sub projects.
