Social Monitoring Report

1st Internal Monitoring Report (N-70 - Qila Saifullah-Loralai-Waigum Rud Road Project) (Jan – March 2017)

PAK: National Highway Development Network in Balochistan

Prepared by National Highways Authority for the Asian Development Bank.

NOTES

- (i) The fiscal year (FY) of the Government of the Islamic Republic of Pakistan and its agencies ends on 30 June.
- (ii) In this report, "\$" refers to US dollars.

This social monitoring report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

NATIONAL HIGHWAY AUTHORITY

Qila Saifullah - Loralai - WaigumRud (120 km)

Road Project

Internal Monitoring Report

Of RP Implementation

05th April 2017

1st Quarterly Report (January – March, 2017)

Quarterly Internal Monitoring Report of Qila Saifullah - Loralai - WaigumRud Section (N-70)

1. Introduction

1. Through ADB financial support, National Highway Authority (NHA), Pakistan is upgrading Qila Saifullah-Loralai-WaigumRud Section of N-70 under National Highway Network Development in Baluchistan Project (NHNDP) through loan Pak 3134. The designated NHA owned ROW of project road section is 110 feet in urban areas and 220 feet in rural areas and project did not entail acquisition of land. However, to address the resettlement issues in sections wherever ROW was encroached near settlements and agricultural land along the project road, NHA endorsed updated resettlement plan was cleared by ADB in January 2017. Immediate after clearance of updated resettlement plan, implementation activities were started for compensating impacted before clearing the encroached sections of ROW and to ensure implementation of project is consistent with ADB's IR requirements. The RP implementation require day to day monitoring of implementation progress and compile quarterly monitoring reports for ADB's review and acceptance. Accordingly this first monitoring report is prepared that covers the implementation progress achieved between January to March 2017.

1.1. Objectives of the IMR

- 2. The objective of this internal monitoring report is to:
 - Review and assess progress on payment of compensation for assets and entitled allowances to the DPs;
 - Review progress on efforts implemented and coordination activities/actions performed to outreach affected communities for information dissemination and facilitate them in compensation processing and payment.
 - Consultations, recording, tracking and handling of grievances at local and GRC levels.
 - Recommend actions for improved RP implementation and execution of project works.

1.2. MONITORING METHODOLOGY

3. Methodolgy for this monitoring report includes a review of LARP implementation progress data and consultations with key informants and the displaced persons. The monitoring instruments included review of progress on the a) institutional set-up placed for RP implementation, b) RP dislosure and community outreach efforts implementd, c) compensation payment progress achieved for impacted assets, d) consultations progress and meeting proceedings by DPC and project GRC etc. Based on the review the results are summarized in the sections below explaining the achieved progress and actions required to improve the progress.

2. Updated Resettlement Plan and RP implementation process.

2.1. Project Description

- 4. Existing Qila Saifullah-Loralai-WaigumRud section of N-70 is single lane carriageway that is located in territorial jurisdiction of two districts i.e district Qila Saifullah and district Loralai of Balochistan. In District Qila Saifullah area the road section traverses through barren hilly tract and rolling landscape with no settlements along the road corridor, while in District Loralai the landscape is mostly even with scattered settlements and agricultural land along the road. The designated ROW of project road section is 110 feet in urban areas and 220 feet in rural areas.
- 5. The Project road sections are the part of the National Highway N-70 in Northern Baluchistan and it starts at Qila Saifullah on N-50, and terminates at WaigumRud with a total length of 120 km. For rehabilitation and improvement works the project road has been divided into two sections: Lot-I is from RD 0+000 to RD 67+900 (before entering into Loralai city), and Lot-II starts after crossing Loralai city at RD 78+500 to RD 128+375.
- 6. The project works include rehabilitation and upgrading of existing single lane Qila Saifullah-Loralai-WaigumRud Section of N-70 road into 7.3 meter wide carriageway with 2.5 meter shoulders on each side. As per design the total pavement width of the road is13.3 meters (44 ft.). The National Highway Authority is the Executing Agency (EA) for the project. The Project will rehabilitate and improve project section of National Highway N-70 to provide a dependable road network for local communities and interprovincial connectivity with reduced transportation time and costs.

2.2. Updated Resettlement Plan

- 7. During detailed design and subsequent design review efforts are ensured to avoid and minimize the adverse impacts on privately owned land and properties along the road. Accordingly, the road alignment is adjusted within the available ROW limits to avoid land acquisition and by adjustments in vertical and horizontal alignment resettlement impacts on the private assets encroached in the ROW limits have been minimized to the best possible extent. The draft Resettlement Plan (RP) for Qila Saifullah-Loralai-WaigumRud Section of N-70 project was prepared based on the detailed design of 2011 which is updated in 2016 as final RP after design review by the Design and Construction supervision consultants.
- 8. NHA endorsed draft resettlement plan was updated after completing design review in 2016 which is cleared by ADB in January 2017. The project resettlement impacts were scattered in small portions of the road, hence to facilitate implementation of project works, ADB allowed the works in LAR free areas based on due diligence reports cleared in October 2016 and the identified LAR section were kept on hold to update the RP in parallel. Nonetheless, the project works will not be allowed until confirmation of full implementation of ADB cleared updated resettlement plan. As per updated RP a summary of DPs entitled for compensation by category of impact due to clearance of COI is presented in table 2.1 below.

Table 2.1 Impact type with number of displaced households

S#	Assets to be compensated as per updated RP	Entitled Displaced Persons
1	Agricultural infrastructure (farm boundary walls, main hole, water ponds/channels, gate pillars, pipelines (Concrete & Plastic), water tanks, well, dry well, service station)	125
2	Shops and veranda	24
3	Other miscellaneous structures (kiosks, huts, cabins, electric pole sign board and dispensing units of petrol pumps requiring shifting	29

S#	Assets to be compensated as per updated RP	Entitled Displaced Persons
4	Rental business operators	23
5	Trees	177
6	Community structures/mosques	3
7	Public / government structures	14
9	Households facing loss of rented in commercial structures	23
	Total Displaced Households/DPs	294*

^{*} Seven Public/government Institutions facing loss of assets located at different locations and 3 community structures (mosques) are not counted in total. The DHs lose different categories of assets. Total entitled Households/DPs to be paid for different loss types is 294 (without double-counting).

9. In total 294 DPs will face loss of their assets and livelihood source established within the ROW limits in different LAR sections of the project road. The number of DPs entitled for compensation in withheld LAR sections on both contract packages (Lot-1 and Lot-2) are presented in table 2.2 below.

Table 2.2 LAR sections as of updated RP with number of DPs.

(Contract Package Lot-1 69+200) LAR sec		to	Con	tract Package Lot-2 RD LAR section		128+375)

10	53+450 to 65+200	11.7 km	4	-	-	-	-
11	66+150 to 69+200	3.0 km	3	-	-	-	-
	Total in Lot - 1	24.1 km	92		Total in Lot - 2	28.82 km	202

2.3. RP costs and availability of Funds

10. Based on draft RP budget, a demand for release and deposit of funds (as per draft RP budget) in project account was processed by the PMU on which NHA HQ released draft RP

cost partially and an amount of Rs. 39.74 Million was deposited in project account to start implementation of updated resettlement plan as and when it is updated. However, as per updated RP total RP cost is Rs. 109.39 million which include Rs.-98.356 million for delivery of compensation costs against affected assets and entitled allowances and Rs.11.036 million as RP implementation support cost. Upon ADB's clearance of updated RP, the RP implementation process was started with available funds and a request for release of remaining RP cost Rs.66.65 million was tendered to NHA HQ in March 2017 and it is expected that the requested LAR cost can be released by 30 April 2017.

2.4. LAR institutional Set-up and RP implementation process.

- 11. The LAR unit including Resettlement Specialist mobilized by the DCSC is established and project grievance redress committee is operationalized during the monitoring period. Besides, a team of two social mobilizers (one male and one female) is engaged through RP implementation support costs to assist the Resettlement Specialist and LARU in community coordination and consultations. The project grievance redress committee is notified and operational and the GRM is functioning to record and redress the grievances timely and the DPs have been explained on the GRM system available. For improved coordination, consultations and DPs participation in the GRM, 06 Displaced Persons Committees are constituted and functional at village level. Through DPC meetings, the DPs representatives and local notables are being coordinate and engaged in the grievance redress process.
- 12. The updated RP provisions are disclosed to the DPs and a scheduled action plan has been prepared to ensure timely disbursement of compensation. During the reporting months, disclosure efforts were continued by serving notices for compensation claims and DPs were facilitated to approach the project team for timely delivery of their compensation. A solution for small compensation amounts, like making payment through cross cheques in the name of DPs nominated Special Attorney were worked out and the DPs were informed about the process and documents to be prepared and submitted for nominating Special Attorney to collect their compensation accordingly.

3. RP Implementation Progress

- 9. During the reporting months, considering available RP cost (39.47 million) in the project account, instead of processing compensation claims for all 294 DPs, the payment process was started in selected sections of both contract packages (Lot-1 and Lot-2). The staggered implementation facilitated to ensure full payment of compensation in selected sections with available LAR costs and to clear these sections for construction activity.
- 10. A weekly plan was prepared to disburse compensation to DPs in selected LAR sections of Lot-I and Lot-II and the compensation payment was processed in two batches to ensure full implementation of RP in a speedy manner and keep a track of implementation progress and make adjustments if required. The DPs were informed accordingly through Notices to submit their claims and receive their compensation amount. The DPs who were served with notices were contacted and assisted to prepare and submit their claims and receive the compensation amount. After due scrutiny, the compensation claims were processed in two batches i.e in batch one the compensation cases of 105 DPs in Lot –II were processed while in batch-2 compensation cases for 29 DPs in Lot-1 were processed. The paras below reflect compensation payment progress achieved so far and subsequent section show DP wise payment status for each section in selected reaches.
- 11. Out of total 294 DPs compensation cases were processed for 134 DPs in two batches for selected sections. Accordingly 98 compensation cheques for an amount of **Rs. 18,588,401**/ were issued on 16.02.2017 to compensate **105** DPs in lot-2, whereas in Lot-I, 27 cheques for compensating **29** DPs were issued for an amount of **Rs. 14,010,188**/- on 28.02.2017. By end of monitoring period (March-2017) the cheques were distributed to the 126 DPs at their door step and the DPs were advised to remove their impacted assets and take the salvage. While the compensation cheques amounting to Rs 2,042,348/- for 8 entitled DPs remained undelivered due to unavailability of DPs in project area and some other administrative issues. The efforts are in progress to ensure the DPs having administrative issues are those went out of project area are paid in April or as and when they are available to receive compensation.
- 12. By close of monitoring period (March 2017), total cumulative amount of **Rs. 32,598,589**/- has been disbursed in persons and through attorneys to **134** DPs out of 294 DPs in the selected LAR section. On payment of compensation the DPs were advised to clear the ROW by removing their assets to facilitate execution of project works. The lists of compensation disbursement of Batch 1 and 2 having signatures and thumb impressions of DPs and Pictures are attached as **Annex I**. The breakup of payment disbursement detail is shown in table 3.1 below.

Table 3.1 Compensation Payment Status

S #	Batches	Date	Total # of DPs	No of Paid DPs	Unpaid DPs	Total Amount Rs.	Disbursed Amount Rs.	Remaining Amount Rs.
1	Batch # 1	16.02.17	294	105	189	39,740,810	18,588,401	21,152,409
2	Batch #	28.02.17	189	29	160	21,152,409	14,010,188	7,142,221
	Total l	Jp till Nov	V	134		43. 3 %	32,598,589	Awaiting for Remaining Amount

13. Implementation of RP and delivery of compensation in other LAR sections will continue when additional funds are available for which the NHA HQ is being coordinated closely to release and deposit demanded RP cost Rs.69,650,450/- in project account. Nonetheless, the LAR sections where compensation is not paid will remain at hold until the LARP implementation is confirmed after delivery of compensation. The compensation payment process for remaining 160 DPs in left over LAR sections will be started immediate after release and deposit of demanded RP cost Rs. 69,650,450/- by NHA Head Quarter in N–70 Project Resettlement Account. The sections below represent the LAR areas where compensation is fully paid and those LAR areas where compensation is yet to be paid.

3.1. Sections where Compensation is fully paid:

14. Based on available LAR funds, instead of starting delivery of compensation in all LAR sections throughout project corridor, a structured payment plan was devised to limit the payment process in selected sections in both contract packages (Lot-1 and Lot-2) for ensuring full implementation of RP is achieved to that extent and sections where RP implementation is confirmed could be cleared for construction activity. The table below represents the sections for which LAR implementation is achieved satisfactorily and 126 DPs have been paid their entitled compensation and allowances while the efforts are in progress to outreach and deliver compensation cheques to 8 DPs. The issues that restricted payment to 8 DPs by close of monitoring period included unavailability of DPs in the project area (6 DPs) and DPs having internal disputes (2 DPs). The relatives of the DPs living in project area and local notables are being coordinated to approach and deliver the compensation cheques to unpaid DPs. The Sections where RP implementation is completed are shown in linear plans attached as **Annexure** – II.

Table. 3.2: Shows below the Area Cleared by Cheques.

LOT - 1 LOT - 2

S	Compensation	IZMa	DPs	Status	S#	Compensation	l/ma	DPs	Status

					12	121+175 - 121+225	0.05	7	Nil
					13	122+100 - 122+150	0.05	5	Nil
	Total	15.6 Km	29			Total	21 Km	105	

15. As the RP has been implemented in 15.6 Km and 21 km of withheld LAR sections as mentioned in table above for both contract packages (Lot-1 and Lot-2) and could be considered to allow construction activity. Based on achieved progress a linear plan is attached as Annex-II showing sections where LAR implementation is completed (green), the sections where RP implementation is still ongoing (red) LAR free sections (white) where project works were

allowed and progressing. The ADB may consider to allow construction in 15.56 KM in Lot-1 and 21 KM in Lot-2 (areas shown in green in attached linear plan) so the said sections could be handed over to contractor for construction.

3.2. Sections where Compensation Payment is under process:

16. Based on achieved progress for payment of compensation in selected sections in both contract packages (Lot-1 and Lot-2) as presented above, the remaining sections with LAR impacts where compensation is still ongoing were reviewed and reassessed in both contract packages. The identified areas where RP implementation is still ongoing and the sections (9.38 km in (Lot-1) and 14.9 km in (Lot-2)) which are not clear yet for construction are presented in table below and shown as red in linear plan attached to the report as Annex-II. Although efforts are in progress to deliver notices for submission of compensation claims and DPs are being coordinated for facilitating them in preparation and submission of claims, however, the payment process will start immediate after receipt of requested LAR funds (Rs 66.65 million) from NHA, HQ. The Finance wing in NHA, HQ is being coordinated on daily bases for early release of funds and it is expected that the funds could be made available by close of April and accordingly disbursement of compensation to the DPs could start in May 2017 and will be completed by the time next monitoring period is due.

4. RP disclosure, Consultations, and Grievance Redress.

17. Immediate after clearance of RP by ADB, the DPs were coordinated to disclose RP provisions and compensation claim notices (Annex-III) were delivered at their door steps. Meanwhile, the DPs were clarified on compensation payment mechanism, grievance redress system available to them and were mobilized and supported to submit their compensation claims. For effective coordination the DPS were guided and supported to constitute the displaced persons committee by nominate their representatives. Accordingly the 06 DPCs were constituted (Annex-IV) and notified by the PMU during the monitoring period for improved consultations, coordination and participation of DPs in the RP implementation and grievance redress processes. Efforts were ensured to constitute a DPC for each moza, however, in cases where number of DPs was less a DPC for two mozas is notified throughout project area to promote public interest and involvement for problem identification regarding resettlement. The Sections below explain community consultations and grievance redress progress achieved through participation of the DPCs.

4.1. Public Consultations/Meetings

18. Besides approaching DPs individually to deliver notices for claiming compensation, structured public consultations were arranged through the DPCs at different locations of the project to ensure the involvement and participation of project DPs. During the consultation process, resettlement specialist and his team discussed the issues by community and documented the same and provided information to the DPs regarding resettlement impacts, compensation payment process and mechanism for recording and redress of grievances and explained them the ADB social safeguard policy. During consultation process in reported period, 4 meetings of male DPCs has been conducted (2 in Lot-I and 2 in Lot-II) and 2 meetings of female DPCs were conducted (1 in Lot-1 and 1 in Lot-2). Minutes of DPC meetings were recorded and are attached as **Annex VI.**

4.2. Grievance Recording and Redress

- 19. Immediate after start of RP implementation, the DPs started approaching the project GRM for raising their concerns about impacts assessment, compensation payment and construction related issues. During the reporting months, 67 applications were received to GRC regarding assessment of irrigation pipelines, shops, tube wells, trees and land etc. All applications were properly registered in Grievance register. Out of total 67 applications, 5 were related to construction and pertained to PD office and 10 were related to land compensation, while the remaining were about assessment of affected assets. The GRC reviewed the complaints/applications and conducted consultations with the complainants and the local notables to address the concerns raised by the aggrieved DPs. The GRC proceedings and consultation meetings were recorded. In land compensation cases, the DPs has been informed that 110 ft ROW is available with NHA as per decision of Government of Balochistan and confirmed by Commissioner Zhob division and SMBR. Whereas 6 complaints about payment of compensation were disposed of by making the payment as per RP entitlements.
- 20. Thus during reporting period, 16 applications (10 related to land compensation and 6 related to compensation of LAR) were disposed of through two GRC meetings and 5 application related to construction issues were referred to the project construction office for redressal of their grievances. The remaining 46 applications are still under scrutiny and process of verification in GRC for which the concerned DPs are being coordinated through Resettlement Specialist and Social mobilizers. Tables below shows the overall status of grievances recorded and redressed during the reporting months. Copies of Minutes of GRC meetings are attached as **Annex-V**.

5. Conclusion and Recommendations

Based on achieved progress it is concluded that the RP implementation with partially released RP budget progressed smoothly in selected LAR sections and the LAR implementation in left over sections can start immediate after release of funds by NHA HQ and could be completed by next quarterly monitoring report. In total compensation payment process for 130 DPs were started to clear selected LAR section presented in Table 3.2 out of which full compensation amount through crossed cheques has been paid to 122 DPs, whereas, the for 8 DPs compensation could not be disbursed because the DPs have some administrative impediments including temporarily moved outside of project area for their needs or some other domestic issues. DPs are participating in consultations and grievance redress mechanism regularly and are clarified on the RP provisions and compensation entitlements. Based on RP implementation progress achieved actions are recommended for consideration by NHA and ADB.

- The NHA HQ should immediately release the required 69.65 million rupees for payment of compensation to leftover DPs for Unpaid LAR sections presented in table 3.3 under section 3.2 of the report.
- The DPs who did not have their bank accounts or those who could not approach the
 project team in person for processing and payment of compensation should be facilitated
 to receive compensation in the name of their nominated attorneys after fulfilling proper
 documentation including special power of attorney on Stamp Paper of Rs.100/- duly
 attested by the Tehsildar, Advocate or Notary Public.
- Reported ROW reaches in table 3.2 of section 3.1 and highlighted green in linear plan (Annex-II) with the report, in which RP implementation is reported as completed and construction limits are cleared by DPs after receipt of compensation, should be considered for allowing the constructions activity. While the unpaid LAR reaches presented in in table 3.3 of Section 3.2 and shown as red on linear plan (Annex-II) in the report will remain on hold till RP implementation is confirmed.
- It is therefore, suggested to approach the ADB for allowing the construction activity requested in bullet above after conducting required due diligence in this regards so the construction work in cleared section could start.

Batch No. I (Lot - 2) Qila Saifullah - Loralai - Waigum Rud Section
