Description	The proposed project loan will finance priority water and sanitation investments of Metropolitan Waterworks and Sewerage System (MWSS) and will contribute to improving the living and health conditions in the National Capital Region (NCR), which accounts for 33% of the nation's GDP. The Project will also provide institutional capacity strengthening to MWSS, including for regulatory oversight, financial planning, and asset and water security management. The proposed project preparatory technical assistance will also assess the suitability of establishing a partnership between the Asian Development Bank (ADB) and MWSS through a multitranches financing facility (MFF). Management approval will be sought once the government requests for an MFF.				
Project Rationale and Linkage to Country/Regional Strategy	The provision of water supply and sanitation in the NCR is the responsibility of the MWSS. In 1997, MWSS granted concessions for water distribution and sewerage, a privatization that is generally considered successful; MWSS retained responsibility for bulk water supply.
