Description	Prolonged heavy rainfall on 3_5 April 2014 associated with a tropical depression, which later became Tropical Cyclone Ita, has caused severe flooding in Solomon Islands. The worst affected area is the capital city of Honiara, after the Mataniko River burst its banks on 3 April 2014. The damage is widespread across the entire Guadalcanal province and considerable damage has also been reported in Malaita and Isabel provinces. Major infrastructure, including the sewerage system, water supplies, roads, and bridges, has been badly damaged or destroyed.	
Project Rationale and Linkage to Country/Regional Strategy	Immediate financial assistance from ADB would help alleviate resource constraints faced by the Government. Based on the identified urgent needs, the proposed emergency funds may be used for (i) provision of medical kits, food and drinking water, (ii) provision of personal hygiene kits, (iii) debris sifting, (iv) site clearance, and (v) safe disposal of useless rubble, etc.
