

CLIENT INFORMATION

A. Jarcon Proprietary Limited

1. Jarcon Pty Limited is one of the co-borrowers for the project. Jarcon is a family-owned Australian company that trades in Australia as Harelec Services. The company has 20 years of experience in the Australian solar and electricity industry. In the past 7 years, Jarcon has installed approximately 10 megawatts of solar systems for commercial and residential customers in Australia. Typically, the residential systems have ranged from 1.5 kilowatts (kW) to 10 kW of capacity, while the commercial and industrial systems have ranged from 50 kW to 500 kW.
