Description			
Objectives and Scope	The project entails the construction and operation of a 2,500 megawatt natural gas power project in Chonburi province, Thailand. The project will provide significant generating capacity that is reliable, efficient, and cost-effective. The project will be one of the largest power plants in Thailand and will help meet the projected growth and industrial transformation plans under the Eastern Economic Corridor program. The project will utilize natural gas and will be the first to employ a new high-efficiency technology that reduces pollutants and emissions, providing cleaner air quality and lower carbon footprint.
