

Mongolia: Ulaanbaatar Pro-Poor Urban Redevelopment Support System for Ger Areas

Project Name	Ulaanbaatar Pro-Poor Urban Redevelopment Support System for Ger Areas	
Project Number	51270-001	
Country	Mongolia	
Project Status	Approved	
Project Type / Modality of Assistance	Technical Assistance	
Source of Funding / Amount	TA 9421-MON: Ulaanbaatar Pro-Poor Urban Redevelopment Support System for Ger Areas Republic of Korea e-Asia and Knowledge Partnership Fund US\$ 500,000.00	
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth	
Drivers of Change	Governance and capacity development Knowledge solutions Partnerships Private sector development	
Sector / Subsector	Industry and trade - Small and medium enterprise development Information and communication technology - ICT industries and ICT-enabled services - ICT infrastructure Water and other urban infrastructure and services - Urban policy, institutional and capacity development - Urban slum development	
Gender Equity and Mainstreaming	Effective gender mainstreaming	
Description	The TA will support the application of ICT tools to ger area redevelopment in (i) enhancing municipality-level urban and redevelopment planning with mapping and monitoring indicators (output 1); (ii) supporting inclusive community engagement and access to economic opportunities in ger areas, (outputs 2 and 3); and (iii) strengthening redevelopment monitoring and coordination capacity (output 4).	
Project Rationale and Linkage to Country/Regional Strategy	<p>Learning from international urban upgrading and redevelopment projects, the Municipality of Ulaanbaatar (MUB) is seeking to pilot appropriate ICT innovations in promoting redevelopment of Ulaanbaatar's ger areas at a small scale, before replicating success to all ger areas. Tranche 1 of the Ulaanbaatar Urban Services and Ger Areas Development Investment Program provides an ideal environment to pilot ICT applications for urban redevelopment in ger areas, thanks to the extensive preparation work carried out in urban planning, community engagement, as well as economic and infrastructure development. These existing works have laid down a foundation of reliable data, rich content and strong capacity to facilitate ICT applications. But ICT applications will also contribute to enhance the development objectives of Tranche 1. The customized ICT tools piloted under this TA will introduce innovative ways to carry out existing tasks and hopefully enhance efficiency and effectiveness of the Tranche 1 interventions.</p> <p>This TA is aligned with the Mongolian Government's Adjustments to the Ulaanbaatar City Urban Development Master Plan 2020 and Development Directions 2030 (approved in February 2013).</p>

Business Opportunities

Consulting Services International and national specialists will be recruited to deliver a total of 44 person-months of consulting inputs (11 person-months of international and 33 person-months of national inputs) for the three outputs. A consulting firm will be engaged for a total of 38 person-months of consulting inputs (5 person-months of international and 33 person-months of national inputs), and an international individual consultant will be engaged for a total of 6 person-months. ADB will engage the consulting firm and individual consultant in accordance with the ADB Procurement Policy (2017, as amended from time to time) and the associated project administration instructions and/or TA staff instructions. The quality- and cost-based selection method will be used in recruiting the firm, with a 90:10 quality cost ratio, using simplified technical proposal procedures. The firm must demonstrate international expertise and local experience in Mongolia. The individual expert will be engaged using the individual consultant selection method.
