

PROCUREMENT PLAN

1. The knowledge and support technical assistance (TA) will support the preparation of an Integrated Water Master Plan for Astana, Republic of Kazakhstan to ensure water security for Astana’s sustainable economic development and increasing demand resulted from rapid urbanization and population growth. The TA will produce three main outputs: (i) GIS-based data and information system on water management established, (ii) Astana integrated water master plan developed, and (iii) investment plans and/or projects assessed and prioritized.

2. The TA will procure office equipment such as computers and software for geographic information system. The method of procurement will be “shopping,” with price quotations obtained from a minimum of three suppliers in accordance with the ADB Procurement Policy (2017, as amended from time to time) and Procurement Regulations for ADB Borrowers (2017, as amended from time to time). The Consultants will purchase the goods after reaching agreement with the executing agency and ADB.

Table 1. Procurement Method

Procurement Method	Threshold	Comments
Shopping	Less than 100,000
