Afghanistan: Kandahar Solar Power Project

Project Name		Kandahar Solar Power Project
Project Number		52229-001
Borrower/Company		77 CCT Group Conso. Barakat Kandahar Solar Energy
Country		Afghanistan
Location		Nation-wide
Approval Number		
Type of ADB Assistance / An	mount	
Strategic Agendas		Environmentally sustainable growth Inclusive economic growth
Drivers of Change		Gender Equity and Mainstreaming Partnerships Private sector development
Sector / Subsector		Energy - Renewable energy generation - solar
Gender Equity and Mainstre	eaming	Some gender elements
Responsible ADB Departme	ent	Private Sector Operations Department
Responsible ADB Division		Infrastructure Finance Division 1
Responsible ADB Officer		Hashimi, Mohammed Azim
Project Sponsor(s)		
Description		The proposed project will include development, construction, commissioning and operation of a 15.1 MW solar power plant in Kandahar, Afghanistan.
Objectives and Scope		The project is expected provide further impetus to the objective set by the Government of Afghanistan to achieve 40% RE power by 2032. Successful implementation of the Project will lead to lower import fuel bill, decreased reliance on energy imports from neighboring countries and will provide the basis for Afghanistan to scale up its RE potential.
