Drivers of Change	Governance and capacity development Knowledge solutions Private sector development		
Sector / Subsector	Health - Health sector development and reform - Health system development		
Gender Equity and Mainstreaming	Some gender elements		
Description	The proposed project will support Xiangyang Municipality in Hubei Province of the People's Republic of China (PRC) to demonstrate a model of three-tiered elderly care services and management. It will address demographic and economic challenges of increasing care needs of the rapidly aging population. This is the first project, financed by international financial institutions, to support Xiangyang Municipality to develop a three-tiered elderly care system. It will help the Xiangyang Municipal Government (XMG) to establish a model to deliver adequate care services to the elderly people who need care.		
Project Rationale and Linkage to Country/Regional Strategy			
Impact	A three-tiered elderly care service system established in Xiangyang		
Outcome	Utilization of elderly care services in Xiangyang increased
