

INDICATIVE SDG IMPACT MONITORING FRAMEWORK

1. This project preparation technical assistance will design the Asian Development Bank (ADB) Ventures impact monitoring system to track the impact of direct investments by the ADB Ventures Facility. The impact monitoring system will be aligned to the corporate goals of the ADB’s Strategy 2030 and the United Nations Sustainable Development Goals (SDGs). The “traffic light” color scheme in table 1 illustrates how far an ADB developing member country is from achieving a particular goal. ADB may take a differentiated approach in each country based on their relative progress towards the SDG goals.
