Objectives and Scope		The knowledge and support technical assistance (TA) will support governments of Asian Development Bank's (ADB) developing member countries (DMCs) to promote evidence-based policy design on small and medium-sized enterprise (SME) development through: (i) provision of a country and regional index prepared by using a multivariate analytical approach which will be accessed by the DMCs: and (ii) provision of a comparative country data platform which will cover financial and nonfinancial aspects of SME development in DMCs and will be updated periodically. The proposed TA will also help ADB operations formulate new ideas for SME projects with use of innovative approaches through pilot project proposals that will be discussed in an ADB planned annual issuance called the Asia Small and Medium Enterprise Monitor (ASM).
