

## Kyrgyz Republic: Enhancing Knowledge and Capacity for Project Management in the Kyrgyz Republic

Project Name					
		acity for Project Management in the Kyrgyz Republic			
Project Number	53408-001				
Country	Kyrgyz Republic				
Project Status	Active				
Project Type / Modality of Assistance	Technical Assistance				
Source of Funding / Amount	TA 9934-KGZ: Enhancing Know	vledge and Capacity for Project Management in the Kyrgyz Republic			
	Technical Assistance Special F	und	US\$ 225,000.00		
Strategic Agendas	Inclusive economic growth				
Drivers of Change	Governance and capacity devel Knowledge solutions Partnerships	opment			
Sector / Subsector	Public sector management - Pub	blic administration			
Gender Equity and Mainstreaming	No gender elements				
Description	The small-scale knowledge and support technical assistance (SSTA) will provide hands-on support for project management and implementatio provide capacity building and training in ADB's operations, and facilitate knowledge sharing and policy dialogue with the government of the Kyrgyz Republic.				
Project Rationale and Linkage to Country/Regional Strategy	portfolio remains poor. Continuous staff turnover is a major issue at executing agencies, implementing agencies, and project implementing units (PIUs) which necessitates continuous capacity building and training on procurement, project management, financial management and monitoring. Many executing and implementing agencies and their PIUs lack the capacity and skills to effectively plan, prepare, implement and manage public investments and the local market for qualified national consultants is limited. Addressing the capacity and skills deficit quickly is not always possible using loan-or grant-financed project budgets due to the lengthy procedures for such consultant selections. In addition, the types of project financed by ADB are becoming more complex. The first results-based loan and small expenditure financing facility for the types of project in the expensive of the project financed with the overall low capacity for implementation and contract management, will necessitate ADB to quickly mobilize consultants to address problems quickly and prevent implementation and contract management, will necessitate ADB to quickly mobilize consultants to address problems quickly and prevent implementation delays.  The government and ADB should conduct a strategic review of the key sectors in which ADB provides support in the Kyrgyz Republic and identify areas where additional knowledge and best practices should be applied to solve emerging problems, such as lack of human resources, preparing sector development plans and priorities, addressing corruption risks, reforming the government's approach to managing investment projects. The proposed SSTA will support sector reviews to identify capacity constraints, knowledge and capacity building needs in the sectors in which ADB operates and enable the Kyrgyz Republic Resident Mission (KYRM) to follow up these needs assessments with workshops, outreach and capacity building events to improve the performance of the ADB portfolio in increase responsiveness and relevance of ADB
