| Project Name | Disaster Resilience Improvement Program | |
| Project Number | 54117-001 | |
| Country | Indonesia | |
| Project Status | Proposed | |
| Project Type / Modality of Assistance | Loan | |
| Source of Funding / Amount | Loan: Disaster Resilience Improvement Program | |
| | Ordinary capital resources | US\$ 500.00 million |
| Strategic Agendas | Environmentally sustainable growth Inclusive economic growth Regional integration | |
| Drivers of Change | Governance and capacity development | |
| Sector / Subsector | Finance - Insurance and contractual savings Health - Disease control of communicable disease Public sector management - Decentralization - Public administration | |
| Gender Equity and Mainstreaming | Effective gender mainstreaming | |
| Description | This proposed program is an integral part of Asian Development Bank's (ADB) support to the government's focus on enhancing environmental sustainability, disaster and climate resilience, human capital development, including health and advancing gender equality. It is aligned with the National Medium-Term Development Plan, Rencana Pembangunan jangka Menengah Nasional (RPJMN) 2020- 2024. It supports reforms in disaster risk management and health services, and will help manage the fiscal risks arising from future disasters triggered by natural hazards and pandemics. | |
| Project Rationale and Linkage to Country/Regional Strategy | This program will strengthen the disaster resilience of Indonesian institutions and communities, and the government's response to pandemics through three reform areas: policy and institutional arrangements for disaster risk management and health-related emergencies, including social protection; resilience of physical assets to disaster and climate risks; and disaster risk and pandemic response financing. The DRIP supports medium-term pandemic response reforms beyond the immediate COVID-19 response measures supported by the CARES program. | |
| Impact | Disaster and climate resilience enhanced, and health services improved, including advancement towards universal health coverage. | |
| Outcome | Disaster resilience and pandemic response of institutions and communities strengthened, and financial preparedness for disasters and pandemics improved. | |
| Outputs | <ol style="list-style-type: none"> 1. Policy and institutional arrangements for disaster risk management and health-related emergencies, including social protection 2. Resilience of physical assets to disaster and climate risks 3. Disaster risk and pandemic response financing | |
