

India: Industrial Corridor Development Program (Subprogram 1)

Project Name	Industrial Corridor Development Program (Subprogram 1)	
Project Number	54465-001	
Country	India	
Project Status	Approved	
Project Type / Modality of Assistance	Loan Technical Assistance	
Source of Funding / Amount	Loan 4138-IND: Industrial Corridor Development Program (Subprogram 1)	
	Ordinary capital resources	US\$ 250.00 million
	TA 6817-IND: Knowledge Services for Industrial Corridor Development Program	
	Technical Assistance Special Fund	US\$ 1.00 million
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth Regional integration	
Drivers of Change	Governance and capacity development Partnerships Private sector development	
Sector / Subsector	Industry and trade - Industry and trade sector development	
Gender Equity and Mainstreaming	Effective gender mainstreaming	
Description	The proposed program will expand and enhance the competitiveness of manufacturing in India by supporting the development of industrial corridors. The program is consistent with the country partnership strategy for India, 2018 2022; accelerating inclusive economic transformation. Addressing pillar 1 of the country partnership strategy on boosting economic competitiveness and creating jobs, the program will expand multi-modal transport networks along economic corridors, enhance institutions for corridor management, and address skills gaps to support industrialization.	
Project Rationale and Linkage to Country/Regional Strategy	The Government of India launched the Make in India program in 2014, building on National Manufacturing Policy of 2012, aiming to boost manufacturing sector growth to 12% 14%, raise its share of GDP to 25%, and generate employment for 100 million people by FY2025. The program identified industrial corridors as a policy instrument to expand the manufacturing base through reforms in ease of doing business, logistics facilities, multimodal transport, smart cities, and FDI liberalization, to be pursued in an integrated manner. The PBL will strengthen industrial corridor management by supporting integration of institutions and synchronization of policies between federal and state governments. The technical and policy advisory, human resources, and program management capacity of NICDCL will be strengthened. Identified gaps in the industrial operating ecosystem was used in developing the policy matrix. Policy actions to support development of the green corridor framework; launch of industrial land bank; upgrading of the Industrial Park Rating System; integration of the national single window clearance system; development of a framework for inclusive housing of workers; and linking industrial corridor development with the Skill India initiative are included to ensure synergy between the industrial corridor development program and the reform agenda of India. Proposed loan is a logical extension of ADB's engagement in corridor development at the state level. NICDIT is expected to fund SPVs for projects within industrial corridors through fund transfers from the center to the state.
