Grant: Sustainable Climate Resilient Recovery Program																						
Government of Australia	US\$ 60.10 million																					
Grant: Sustainable and Resilient Recovery Program																						
New Zealand Grant	US\$ 1.60 million																					
Loan 4193-FJ: Sustainable and Resilient Recovery Program																						
Concessional ordinary capital resources lending	US\$ 60.00 million																					
Loan 4194-FJ: Sustainable and Resilient Recovery Program																						
Ordinary capital resources	US\$ 90.00 million																					
Loan: Sustainable and Resilient Recovery Program																						
Japan International Cooperation Agency	US\$ 76.60 million																					
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth																					
Drivers of Change	Gender Equity and Mainstreaming Governance and capacity development Knowledge solutions Partnerships Private sector development																					
Sector / Subsector	Public sector management / Law and judiciary - Public expenditure and fiscal management - Social protection initiatives																					
Gender Equity and Mainstreaming	Effective gender mainstreaming																					
Description	<p>The program supports Fiji's efforts to restore fiscal sustainability and inclusive climate-resilient economic growth, which have been adversely affected by the COVID-19 pandemic and coinciding disasters, while building fiscal, community, and private sector resilience to climate change and future shocks. The program comprises three reform areas and complements ADB's previous engagement while responding to policy challenges intensified by the pandemic. All program policy actions have been completed and reforms are under implementation. Reform area 1: Public financial management for fiscal resilience and debt sustainability. The program supported the government in undertaking a series of reforms to help restore fiscal and debt sustainability. Reform area 2: Public policy for community resilience. The government has undertaken several reforms under program to more effectively support and protect women, the poor, and vulnerable people, especially in the face of shocks. Reform area 3: Enabling environment for resilient private sector recovery. Supporting the recovery of businesses and fostering the creation of new enterprises is critical for economic recovery and resilience. As part of the program, several actions have been completed.</p>																					
Project Rationale and Linkage to Country/Regional Strategy	<p>The program is aligned with the development objective of inclusive socioeconomic development and green growth. The expected development outcome is fiscally sustainable, climate-resilient, private sector-led economic growth restored in Fiji. Program reforms will strengthen (i) fiscal resilience by strengthening the legal framework for PFM, expenditure and debt management, and domestic resource mobilization; (ii) community resilience by fostering inclusive public spending and sustainable access to basic services, including for women, the poor, and vulnerable people; and (iii) business resilience by providing recovery support to businesses, increasing their financial protection, and improving the business environment. Improved response and adaptive capacities of the state, communities, and businesses will enhance climate resilience. The program supports a reduction in the projected climate and disaster impacts through reforms across all three policy areas.</p>
