I would like to know what specific activities in the energy sector are foreseen, or have been already implemented, under this project. As part of this, I would like to know the locations of such activities, the contractors, and the beneficiaries.

Thanks in advance for your help.

Dear ADB Team,

Thank you for the swift response.

Could you please share the specific project locations? And could you also better explain what is meant by "energy transition" and "International Distribution Energy System"?

Thank you again for your time and consideration.

Kind regards,
Alessandro R.
