

China, People's Republic of: Jiangxi Ji'an Sustainable Urban Transport Project

Project Name	Jiangxi Ji'an Sustainable Urban Transport Project								
Project Number	45022-002								
Country	China, People's Republic of								
Project Status	Active								
Project Type / Modality of Assistance	Grant Loan								
Source of Funding / Amount	<table border="1"> <tr> <td colspan="2">Grant 0420-PRC: Jiangxi Ji'an Sustainable Urban Transport Project</td> </tr> <tr> <td>Global Environment Facility</td> <td>US\$ 2.55 million</td> </tr> <tr> <td colspan="2">Loan 3216-PRC: Jiangxi Ji'an Sustainable Urban Transport Project</td> </tr> <tr> <td>Ordinary capital resources</td> <td>US\$ 120.00 million</td> </tr> </table>	Grant 0420-PRC: Jiangxi Ji'an Sustainable Urban Transport Project		Global Environment Facility	US\$ 2.55 million	Loan 3216-PRC: Jiangxi Ji'an Sustainable Urban Transport Project		Ordinary capital resources	US\$ 120.00 million
Grant 0420-PRC: Jiangxi Ji'an Sustainable Urban Transport Project									
Global Environment Facility	US\$ 2.55 million								
Loan 3216-PRC: Jiangxi Ji'an Sustainable Urban Transport Project									
Ordinary capital resources	US\$ 120.00 million								
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth								
Drivers of Change	Governance and capacity development Partnerships								
Sector / Subsector	Transport - Transport policies and institutional development - Urban public transport - Urban roads and traffic management								
Gender Equity and Mainstreaming	Effective gender mainstreaming								
Description									
Project Rationale and Linkage to Country/Regional Strategy									
Impact	An efficient, inclusive, and sustainable urban transport system in Ji'an								

Project Outcome

Description of Outcome	Efficient multimodal accessibility to major activity centers in Ji'an
Progress Toward Outcome	Recruitment of individual consulting services completed. BRT/NMT consulting services recruitment being finalized.

Implementation Progress

Description of Project Outputs	<ul style="list-style-type: none"> 2. Yudai River and greenway rehabilitated 3. Traffic management and urban roads developed 4. Institutional capacity developed 1. Public transport improved

Environment	A
Involuntary Resettlement	A
Indigenous Peoples	C

Summary of Environmental and Social Aspects

Environmental Aspects	The project is category A for environment. An environmental impact assessment (EIA) and an environmental management plan (EMP) have been prepared that cover all project components including the activities proposed for supplementary financing through GEF. These documents comply with the PRC regulatory requirements and ADB Safeguard Policy (2009) and will be disclosed on the ADB website on or around 31 May 2014. The EMP sets out mitigation and monitoring measures, institutional arrangements, training requirements and budgets for implementation of the EMP. The budget for implementation of the EMP is \$742,000. Public consultation was carried out to inform the project design and EIA process and will continue throughout project implementation. Capacity development and institutional strengthening are proposed to minimize environmental risks. Environmental complaints will be handled through a grievance redress mechanism established for the project.
Involuntary Resettlement	The project is category A for involuntary resettlement. It will acquire 199.4 hectares of land, including 162.2 hectares of collective land and 37.2 hectares of state owned land. Rural land acquisition and relocation will affect 6789 people in 1742 households including 184 households with 806 persons affected by house demolition. Additionally, the project will result in relocation of 90 urban households with 360 persons. The project will also result in partial demolition of 14 enterprises affecting 188 persons but will have no impact on the continuing operation of these enterprises. A resettlement plan has been prepared to deal with the involuntary relocation impacts of the project that has been endorsed by the EA and disclosed to the affected people. The plan is expected to be disclosed on the ADB website in August 2014.
Indigenous Peoples	The project is classified as category C for indigenous peoples. Han Chinese, the PRC's majority ethnic group, makes up 99% of Jiangxi province's population. Socio-economic analysis for resettlement planning during the PPTA did not identify any ethnic minority people whose assets will be adversely affected by the project. There are no cultural relics or historical sites affected by the project in the impact area.

Stakeholder Communication, Participation, and Consultation

During Project Design	The project will have a consultation and participation strategy to ensure meaningful consultation with all stakeholders. A participatory approach is being used to prepare the project and the design and monitoring framework.
During Project Implementation	The consultation and participation strategy will ensure timely information to communities, project affected households and all relevant agencies. The project agencies will disseminate information about the development of the master plan and how this project complements the same for ensuring better social and economic status of the communities and project beneficiaries.

Business Opportunities

Consulting Services	An estimated 130 person-months (27 international and 103 national) of consulting services are required. Individual consultants will be recruited to facilitate project management and implementation using individual consultant selection (ICS) methods. Recruitment of individual consultants will facilitate immediate mobilization of the experts. The Project Management Specialist will be the overall coordinator of the individual consulting team. In addition to the individual consultants, a consulting firm will be recruited to support BRT development service start-up preparation and assist with longer term transport and land use planning. The consulting firm will be engaged using the quality- and cost-based selection (QCBS) method.
Procurement	All procurement of goods and works will be undertaken in accordance with ADB's Procurement Guidelines (2015, as amended from time to time). International competitive bidding (ICB) procedures will be used for civil works contracts estimated to exceed \$40 million, and good contracts estimated to exceed \$3 million. Contracts for works estimated to cost less than the ICB threshold values above, but more than 100,000 and contracts for goods estimated to cost less than the ICB threshold values above, but more than \$100,000 will be procured on the basis of national competitive bidding (NCB) procedures in accordance with the PRC Tendering and Bidding Law (1999), subject to modifications agreed with ADB. Shopping will be used for contracts for procurement of works worth less than \$100,000 and equipment worth less than \$100,000. Before the start of any procurement, ADB and the Government will review the public procurement laws of the central and state governments to ensure consistency with the ADB's Procurement Guidelines (2015, as amended from time to time).

Responsible Staff

Responsible ADB Officer	Nishimura, Masahiro
Responsible ADB Department	East Asia Department
Responsible ADB Division	Transport and Communications Division, EARD
Executing Agencies	<i>Ji'an Municipal Government ZHYK2008@126.COM 1 luzhoudong Road , Jizhou District Ji'an City, Jiangxi Province P.R.C</i>
