Consulting Services The work will be implemented with the assistance of international and national consultants. The R-S-CDTA will require 10 person-months of international consultant services and 17 person-months of national consultant services. The list of consulting positions and terms of reference will be advertised separately. Recruitment of all consultants will be conducted in accordance with ADB's Guidelines on the Use of Consultants (2015, as amended from time to time). An output-based contract (lump sum), if appropriate, will be used in line with Midterm Review Action Plan, specifically items 2.9.2 and 2.10.2, which require staff to use more output-based contracts to reduce administrative burden and improve economy, efficiency, and value for money aspects under TAs. Indefinite delivery contracts for consulting services will also be explored and used, as appropriate, for recruiting consultants.
