

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

The project will not contribute to the Asian Development Bank Results Framework.¹ The project, however, contributes to goal 11 of the UN sustainable development goals.²

¹ The project does not contribute to ADB's Results Framework in terms of 'households with new or improved sanitation', as ADB's Strategic and Policy Department definition of sanitation does not include solid waste management.

² By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management. Available at: <http://www.un.org/sustainabledevelopment/cities/>
