

Bangladesh: Emergency Assistance Project – Additional Financing

Project Name	Emergency Assistance Project - Additional Financing								
Project Number	52174-002								
Country / Economy	Bangladesh								
Project Status	Approved								
Project Type / Modality of Assistance	Grant Loan								
Source of Funding / Amount	<table border="1"> <tr> <td>Grant 0837-BAN: Emergency Assistance Project-Additional Financing</td> <td></td> </tr> <tr> <td>Asian Development Fund</td> <td>US\$ 41.40 million</td> </tr> <tr> <td>Loan 4192-BAN: Emergency Assistance Project-Additional Financing</td> <td></td> </tr> <tr> <td>Concessional ordinary capital resources lending</td> <td>US\$ 30.00 million</td> </tr> </table>	Grant 0837-BAN: Emergency Assistance Project-Additional Financing		Asian Development Fund	US\$ 41.40 million	Loan 4192-BAN: Emergency Assistance Project-Additional Financing		Concessional ordinary capital resources lending	US\$ 30.00 million
Grant 0837-BAN: Emergency Assistance Project-Additional Financing									
Asian Development Fund	US\$ 41.40 million								
Loan 4192-BAN: Emergency Assistance Project-Additional Financing									
Concessional ordinary capital resources lending	US\$ 30.00 million								
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth								
Drivers of Change	Gender Equity and Mainstreaming Governance and capacity development Knowledge solutions Partnerships								
Sector / Subsector	Health / Disease control of communicable disease Transport / Urban roads and traffic management Water and other urban infrastructure and services / Urban flood protection - Urban sanitation - Urban solid waste management - Urban water supply								
Gender Equity and Mainstreaming	Effective gender mainstreaming								
Description	ADB's additional financing is expected to fill the resource gap and to support the medium-term needs. The committed funding by other donor agencies is mostly towards the humanitarian supports; hence, the gaps in the infrastructure for medium-term needs remain wide. The proposed second phase of the project is expected to finance the infrastructure for medium-term needs mainly and complement the above World Bank's project. Moreover, the government has requested urgent support from ADB to meet the immediate medical needs and mitigate the impact of the outbreak either through a new program or by extending the scope of the second phase of the project. The request includes (i) establishing isolation centers; (ii) ensuring sufficient supply of personal protective equipment and medical goods; (iii) bolstering diagnostic capabilities; (iv) establishing or strengthening emergency operations centers; (v) training health workers in case detection and management; (vi) enhancing risk communication; (vii) expanding disease surveillance in communities and points of entry; (viii) improving clinical management and health care services; and (ix) strengthening infection management and control.								
Project Rationale and Linkage to Country/Regional Strategy	The fact-finding mission in 2018 prioritized medium-term needs such as pipeline water access, community bathing facilities, food distribution centers, cyclone shelters, road access to camp areas, surface water treatment plants, solar street lights, household lighting, drainage, waste management, and lightning arrestors. The first phase helps make camps more developed and safer, with clean drinking water, community bathing facilities, solar streetlights, cyclone shelters, food distribution centers, better roads, drainage, bridges, walkways, and hill retention. Women and vulnerable people have especially benefited immensely from ADB support. The first phase has helped gain high visibility of ADB among the development partners and stakeholders. However, the prioritized medium-term needs are not fully included in the first phase due to funding constraints.								
Impact	Social recovery of displaced persons in Teknaf and Ukhiya camps accelerated (Defined by the project)								
Project Outcome									
Description of Outcome	Living and health conditions, safety, and resilience of displaced persons improved.								
Progress Toward Outcome									
Implementation Progress									
Description of Project Outputs	Water supply and sanitation improved Disaster risk management strengthened Energy sources provided Access Roads Improved COVID-19 management and mitigation measures in project areas strengthened								
Status of Implementation Progress (Outputs, Activities, and Issues)									
Geographical Location	Teknaf, Ukhiya								
Safeguard Categories									
Environment	B								
Involuntary Resettlement	B								
Indigenous Peoples	C
