

Bangladesh: Preparing the Climate and Disaster Resilient Small-Scale Water Resources Management Project

Project Name	Preparing the Climate and Disaster Resilient Small-Scale Water Resources Management Project	
Project Number	53237-002	
Country	Bangladesh	
Project Status	Approved	
Project Type / Modality of Assistance	Technical Assistance	
Source of Funding / Amount	TA 9927-BAN: Preparing the Climate and Disaster Resilient Small-Scale Water Resources Management Project	
	Technical Assistance Special Fund	US\$ 500,000.00
	Water Financing Partnership Facility-NET TF	US\$ 750,000.00
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth	
Drivers of Change	Governance and capacity development Partnerships	
Sector / Subsector	Agriculture, natural resources and rural development - Agricultural production - Irrigation - Rural flood protection - Rural market infrastructure - Rural water policy, institutional and capacity development	
Gender Equity and Mainstreaming	Effective gender mainstreaming	
Description	The transaction technical assistance (TA) will prepare the proposed Climate and Disaster Resilient Small-Scale Water Resources Management Project. The project will improve agricultural productivity and profitability through effective, participatory, and sustainable small-scale water resources management within the selected geographic areas. The project will support the small-scale water resources subsector by (i) drawing lessons from previous investments, (ii) incorporating climate and disaster resilience features in infrastructure and facilities, (iii) promoting climate and disaster tolerant crops and cropping practices, and (iv) introducing agricultural value chains.	
Project Rationale and Linkage to Country/Regional Strategy	The proposed TA is required to assist the government in preparing the project concept to feasibility level and meet project readiness criteria. The TA will be developed through the following approach: (i) sector issues, constraints, and development potentials will be assessed; (ii) a list of potential new subprojects will be drawn; (iii) feasibility studies and associated due diligence will be prepared for 30 subprojects representative of the diversities of the project area ; (iv) feasibility proposals will be validated through participatory field visits for 100 existing subprojects to enhance operating performance, agricultural production and productivity, resilience to climate change and disaster, and add value chain to farm produce. The objectives of the TA are to prepare (i) the project feasibility study report, including procedures to identify subprojects; and (ii) the draft loan processing documents for ADB Board consideration, including the gender related and safeguard documents in accordance with ADB's Safeguards Policy Statement, 2009. The TA will also provide advance action support to the executing agency to enhance project readiness, such as advance procurement of civil work packages and recruitment of consultants.
