## Mongolia: Supporting Post-COVID-19 Recovery in Education Sector

Project Name			
	Supporting Post-COVID-19 Reco	overy in Education Sector	
Project Number	55047-002		
Country	Mongolia		
Project Status	Approved		
Project Type / Modality of Assistance	Technical Assistance		
Source of Funding / Amount	TA 6869-MON: Supporting Pos	st-COVID-19 Recovery in Education Sector	
	Technical Assistance Special F	Fund	US\$ 500,000.00
Strategic Agendas	Inclusive economic growth		
Drivers of Change	Governance and capacity deve Knowledge solutions	lopment	
Sector / Subsector	Education - Education sector de	evelopment	
Gender Equity and Mainstreaming	Effective gender mainstreaming	g	
Description	sector. It will (i) improve teache	chnical assistance (TA) aims to support the post-coronavirus disease (COVID-19) recovery in M ers knowledge and skills to assess students performance, (ii) enhance teachers skills on blende ols management for post-COVID-19 recovery, and (iv) assess the factors affecting learning loss	ed learning
Project Rationale and Linkage to Country/Regional Strategy	already poor learning outcomes lockdown. Online and distance Overall, children in rural areas children in the capital city for 1	The pandemic and prolonged lockdowns had devastating impacts on education in Mongolia, w is. The MES implemented measures to sustain the quality and accessibility of education service learning were organized through information and communication technologies throughout the received distance education for 100 days, or 20 school weeks (62% of the total academic year 10 days, or 22 school weeks (68% of the total academic year coverage) during school closures pandemic situation in Mongolia since May 2021, the minister of the MES and the minister of he	es during the country.4F4F coverage), and s. Given the
	order mandating the use of a b September 2021, about 57% of using blended schemes, taking	plended learning scheme by combining both face-to-face and distance learning approaches at s f all schools nationwide were using face-to-face learning, 15% were using online-only schemes, y into account the local pandemic situation. The future trend does not seem to allow for univers chers to master the blended learning approaches.	chools. As of 15 , and 30% were
