

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

No.	Level 2 Results Framework Indicators	Targets	Methods/Comments
1	Distribution lines upgraded	7 km of 33 kV distribution line 160 km of 11 kV distribution line 664 km of ABC LV line	Actual length of line for improvement
2	CO ₂ reduction due to loss reduction	CO ₂ reduction of 31,990 tCO ₂ by 2018	As a result of loss reduction

ABC = aerial bundled conductor, CO₂ = carbon dioxide, km = kilometer, kV = kilovolt, LV = low voltage. tCO₂ = tons of carbon dioxide.
