

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

Level 2 Results Framework Indicators			
No.	(Outputs and Outcomes)	Targets	Methods / Comments
1	None	None	The program is a policy-based loan pursuing sustainability of the energy sector through a strongly backed government reform plan. The main outcome will be reliable, sustainable, and affordable energy system. The program envisages restructuring of electricity and gas sectors and revision of the regulatory legislation to create competitive energy markets. The reform plan also includes targeting subsidies to the most vulnerable members of the society.
