

### CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

No.	Results Framework Indicators	Targets	Methods / Comments
1	Distribution lines installed and upgraded	3,680 km	Measured on physical construction
2	Energy saved	190 GWh	Evaluation of performance of lines and substations built
3	Greenhouse gas emission reduction	152,000 tons CO <sub>2</sub> per year	Based on CEA estimates, lower value of 0.8 kg CO <sub>2</sub> saved per kWh of reduced generation. <sup>a</sup>

ADB = Asian Development Bank, CEA = Central Electricity Authority, CO<sub>2</sub> = carbon dioxide, GWh = gigawatt-hour, kg = kilogram, km = kilometer.

<sup>a</sup> Government of India, Ministry of Power, Central Electricity Authority. 2011. *User Guide for CO<sub>2</sub> Baseline Database for the Indian Power Sector*. Delhi.
