

Tajikistan: Additional Financing for Dushanbe Water Supply and Sanitation Project

Project Name	Additional Financing for Dushanbe Water Supply and Sanitation Project	
Project Number	50347-003	
Country	Tajikistan	
Project Status	Proposed	
Project Type / Modality of Assistance	Grant	
Source of Funding / Amount	Grant: Dushanbe Urban Water Supply and Sanitation Project - Additional Financing	
	concessional ordinary capital resources lending / Asian Development Fund	US\$ 35.00 million
	concessional ordinary capital resources lending / Asian Development Fund	US\$ 3.00 million
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth	
Drivers of Change	Governance and capacity development Knowledge solutions Partnerships	
Sector / Subsector	Water and other urban infrastructure and services - Urban sanitation - Urban water supply	
Gender Equity and Mainstreaming	Gender equity	
Description	On 27 September 2018, the Asian Development Bank (ADB) approved a grant equivalent to \$41 million for the Dushanbe Water Supply and Sanitation Project. The expected outcome was the improved, inclusive, and sustainable access to safe and resilient water supply and sanitation services in Dushanbe for 300,000 rural residents in the Shomansur district. The project has two outputs: (i) output 1: climate-resilient water supply and sanitation infrastructure rehabilitated and expanded; and (ii) output 2: sustainable business model and institutional capacity developed.	
Project Rationale and Linkage to Country/Regional Strategy	The proposed Additional Financing will expand the scope of the current Dushanbe Water Supply and Sanitation Project to complement ongoing efforts to improve infrastructure and performance of water supply and sanitation services to 300,000 people residing in the south-east part of the capital of Tajikistan, Dushanbe, and improve the management capacity of the service utility (Duhanbevodokanal) responsible for water supply and sanitation services in the city.	
Impact	Quality of life, health, urban resilience, and economic growth in Dushanbe improved (Tajikistan National Development Strategy, 2030). Universal access to safe and affordable drinking water improved (2030 Agenda for Sustainable Development Goal 6)	
Outcome	Inclusive and sustainable access to safe and resilient water supply and sanitation services in Dushanbe city improved.	
Outputs	Climate and disaster-resilient water supply and sanitation infrastructure rehabilitated and expanded.	
Geographical Location	Nation-wide, Dushanbe
