

Resettlement Plan

Document stage: Draft for Consultation
Project Number: 49107-004
May 2018

IND: Tamil Nadu Urban Flagship Investment Program – Coimbatore Underground Sewerage System

Prepared by Coimbatore City Municipal Corporation, Government of Tamil Nadu, for the Asian Development Bank.

CURRENCY EQUIVALENTS

(as of 11 May 2018)

Currency Unit	–	Indian rupee (₹)
₹1.00	–	\$0.0149
\$1.00	=	₹67.090

ABBREVIATIONS

ADB	–	Asian Development Bank
ASO	–	Assistant Safeguards Officer
BPL	–	below poverty line
DWC	–	double walled corrugated
EMP	–	environmental management plan
GIAC	–	governance improvement and awareness consultant
GRC	–	grievance redress committee
GRM	–	grievance redress mechanism
MPS	–	main pumping station
PIU	–	program implementation unit
PMU	–	program management unit
PPTA	–	project preparatory technical assistance
R&R	–	rehabilitation and resettlement
RoW	–	right of way
SPO	–	social project officer
SPS	–	Safeguard Policy Statement
STP	–	sewage treatment plant
TLC	–	Town Level Committee
TWADB	–	Tamil Nadu Water and Drainage Board
UGSS	–	underground sewerage system
ULB	–	urban local body
WHH	–	women headed household

NOTE

In this report, "\$" refers to United States dollars.

This resettlement plan is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. Your attention is directed to the "terms of use" section of this website.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

EXECUTIVE SUMMARY

Subproject Scope. The Tamil Nadu Urban Flagship Investment Program (TNUFIP) is designed under the multi tranche financing facility (MFF) modality of ADB financing and will primarily focus on improvement of water supply and sewerage services in selected cities of the state. The three main outputs include: (i) climate-resilient sewage collection and treatment, and drainage systems developed in at least eight cities; (ii) water supply systems in at least five cities improved with smart features; and (iii) institutional capacity, public awareness, and urban governance strengthened. The Project 1 (Tranche 1) of TNUFIP will include six major city corporations of Chennai, Coimbatore, Rajapalayam municipality, Tirunelveli, Trichy, and Vellore. In Coimbatore, under TNUFIP, 14 out of 40 new wards (87-100 wards from erstwhile Kuniyamuthur and Kurichi municipality under Zone IV) are taken up for provision of comprehensive underground sewerage system (UGSS). Proposed 14 wards under TNUFIP Coimbatore UGSS are spread over 19 square kilometer (km²) area and will cater to projected population of 341,163 for the intermediate design year of 2035. Proposed subprojects comprise: (i) laying of around 424 kilometers (km) of sewer network of double walled corrugated (DWC)/ cast iron pipes ranging from 200-900 millimeter (mm) dia; (ii) laying of 40 km of pumping mains of cast iron pipes of 150-800 mm dia; (iii) construction of three main sewage pumping stations and 10 sub pumping stations; (iv) construction of 17 sewage lift stations; (v) construction of new sewage treatment plant (STP) of 30 million liters per day (MLD); (vi) outfall sewer of length 5 km of 800 mm DI pipe for disposal of treated water from STP into River Noyyal; and (vii) provision of 69,668 house service connections with inspection chambers.

Key Findings. There is no permanent/ temporary land acquisition envisaged for implementation of proposed subproject components. Construction of proposed sewage pumping stations and lift stations will be either accommodated within the existing facilities' premises or on vacant Government lands. Construction of new STP will be undertaken at Vellalore within corporation land where existing STP and solid waste management facility is located. New sewer system will be laid within road rights-of-way (ROW) in the centre of the road by cutting black top. In wider roads, like State highways and national highways, divided roads, etc., sewers will be laid along the edge of the road, but mostly within the black top portion. Potential temporary impacts are assessed due to laying of new pipe networks. To estimate the potential temporary impacts, all roads/ streets in project area were screened through transect walks for any encroachments on black top portion/ ROW and detailed surveys were conducted for roads where temporary impacts were identified (August 2017). Based on this, a total of 123 roadside movable/ transitory businesses that are current within ROW are identified as potentially (temporarily) affected. These businesses are mainly (46%) tea/ food/ juice related stalls and the other businesses include selling of fruits/ vegetables/ flowers; hardware and mechanic shops; and electronic items. Survey found 4% affected persons below poverty line (BPL) and 7% were women headed households. None of the surveyed potential affected persons belong to scheduled tribes or are women headed households. Average monthly income for potentially affected BPL is estimated at ₹85 per day and overall average for all affected persons is ₹336 per day.

Recommended Actions. A draft resettlement plan has been prepared for Coimbatore subproject components and mitigate temporary impacts envisaged during construction/pipe laying. This resettlement plan is in line with the ADB's Safeguard Policy Statement (SPS), 2009 and resettlement framework prepared for TNUFIP. A total resettlement budget (only compensation and grievance redress mechanism costs) is estimated at ₹2.67 million (approximate \$42,000) which includes livelihood losses for 25 days. A detailed measurement survey will be conducted in sections ready for implementation, based on detailed design, and the draft resettlement plan updated, based on survey results. The draft resettlement plan will be reviewed by program

management unit (PMU) and submitted to ADB for approval prior to start of construction. In line with the resettlement framework, the resettlement plan has also laid down the required institutional and implementation arrangements with schedule, grievance redress mechanism, consultation and disclosure activities and monitoring and evaluation. A summary of resettlement framework and resettlement plan in local language will be disclosed to representatives of all key stakeholders through a city level stakeholder workshop. A hard copy of summaries will also be made available at ULB offices and full documents will be uploaded at their/ ADB websites. Program implementation unit's assistant safeguard officer (PIU's ASO) will be responsible for updating and implementation of resettlement plan. Program management unit's social project officer (PMU's SPO) is responsible for approval and implementation monitoring of RPs. Governance Improvement and Awareness Consultant (GIAC) will assist in monitoring resettlement plan implementation

I. RESETTLEMENT PLAN

A. Subproject Description

1. The proposed Tamil Nadu Urban Flagship Investment Program (TNUFIP) is aligned to support in the following: (i) urban infrastructure across the state improved and world class cities focusing on universal access to 24x7 water supply services and sanitation facilities including tertiary treatment of sewage to become engines for economic growth developed (Vision 2030, Government of Tamil Nadu, [GOTN]); (ii) five industrial corridors developed (GOTN Vision 2030); (iii) quality of life for all, especially the poor and the disadvantaged improved (Mission Statement and Guidelines, Atal Mission for Rejuvenation and Urban Transformation (AMRUT) Government of India, 2015); and (iv) a clean and sustainable environment provided (Smart Cities - Mission Statement and Guidelines, Government of India, 2015). TNUFIP will focus on cities in five priority economic corridors: (i) Chennai-Hosur, (ii) Chennai-Tiruchirapalli, (iii) Coimbatore-Madurai, (iv) Coimbatore-Salem, and (v) Madurai-Thoothukudi. The reform-based component of the program will seek to provide results-based performance incentives to select cities and towns. The program shall also focus on transformative investments in 24x7 water supply, full sanitation coverage smart water management, and urban climate change resilience drawing from the support of various Asian Development Bank (ADB) grant technical assistance. The TNUFIP is envisaged to be structured under three main components: (i) investment in municipal infrastructure namely water supply and sewerage; (ii) municipal reform-based activities; and (iii) technical assistance for design, supervision, program management, reforms, and climate change. TNUFIP will be implemented over an 8-year period beginning in 2018, and will be funded by ADB via its multi tranche financing facility (MFF). The impact of the TNUFIP will be improved livability and resilience in urban areas of economic importance in Tamil Nadu.

2. A majority of the Coimbatore city is provided with underground sewerage system which is present within its old corporation limits. In 2011, the city limits were expanded to include surrounding three municipalities; seven town panchayats; and one village panchayat¹ increasing the corporation area from 105.60 square kilometer (km²) to 257.04 km². The newly added area is divided into 40 municipal wards and lack underground sewerage system where wastewater is majorly disposed into roadside drains. Under TNUFIP, 14 out of 40 new wards (87-100 wards from erstwhile Kuniamuthur and Kurichi municipality under Zone IV) are taken up for provision of comprehensive underground sewerage system (UGSS).

3. Proposed 14 wards under TNUFIP Coimbatore UGSS are spread over 19 km² area and will cater to projected population of 341,163 for the intermediate design year of 2035. Proposed subprojects comprise:

- (i) Laying of around 424 kilometers (km) of sewer network of double walled corrugated (DWC)/ cast iron pipes ranging from 200-900 millimeters (mm) dia;
- (ii) Laying of 40 km of pumping mains of cast iron pipes of 150-800 mm dia;
- (iii) Construction of 3 main sewage pumping stations and 10 sub pumping stations;
- (iv) Construction of 17 sewage lift stations;
- (v) Construction of new sewage treatment plant (STP) of 30 million liters per day (MLD);
- (vi) Outfall sewer of length 5 km of 800 mm ductile iron pipe for disposal of treated water from STP into River Noyyal;

¹ Three municipalities: Kurichi, Kuniamuthur and Kavundampalayam; seven Town Panchayats: Chinnavedampatty, Kalapatti, Saravanampatti, Thudiyalur, Vadavalli, Veerakeralam, and Vellakinaru; and one Village Panchayat: Vilankurichi.

(vii) Provision of 69,668 house service connections with inspection chambers.

4. This draft resettlement plan document is prepared for proposed sewerage subprojects under Zone-IV in Coimbatore and is in line with the Resettlement Framework prepared for the implementation of social safeguards under TNUFIP. A detailed measurement survey will be conducted in sections ready for implementation, based on detailed design, and the draft resettlement plan updated, based on survey results. The draft resettlement plan will be reviewed by PMU and submitted to ADB for approval prior to start of construction.

B. Scope of Land Acquisition and Resettlement

5. Consistent with the subproject selection criteria, rehabilitation is prioritized over new construction to avoid/ minimize involuntary resettlement impacts. Construction of proposed sewage pumping stations and lift stations will be either accommodated within the existing facilities' premises, on vacant Government lands or along the roads and no new land acquisition is envisaged. Construction of new STP will be undertaken at Vellalore within corporation land where existing STP and solid waste management facility is located. Within a large area of around 650 acres, 75 acres will be allocated for new STP. There is no permanent/temporary land acquisition envisaged for implementation of proposed subproject components. Potential temporary impacts are identified due to rehabilitation and laying of sewer networks. Table 1 provides the details of proposed subprojects under Coimbatore UGSS and anticipated involuntary resettlement impacts.

6. The sewer lines are generally laid in the centre of the road/ street; away from water supply and other utility lines to avoid problems in accessibility for future operation and maintenance (O&M). New sewer system will be hence laid within road rights-of-way (ROW) in the centre of the road by cutting black top. In wider roads, like State Highways (SH) and National Highways (NH), divided roads, etc., sewers will be laid along the edge of the road, but mostly within the black top portion. Laying of sewers either in the middle of the road or at the edge of the road within the black top portion/ ROW will not require land acquisition or cause permanent displacement but will cause temporary access disruptions and possible temporary income loss during construction.

7. All roads/ streets in project area were screened through transect walks for any encroachments on black top portion/ ROW and detailed surveys were conducted for roads where temporary impacts were identified (August 2017), indicating potential temporary income loss to 123 roadside movable/transitory businesses. These impacts will be verified further through detailed measurement surveys based on detailed design prior to implementation. Annex 1 provides the detailed list of roads/ streets that were screened and a summary of transect walk surveys, which confirm that the impacts of sewer laying in Coimbatore are temporary. These are majorly non-titled movable/ transitory structures within the ROW. In line with the ADB's Safeguard Policy Statement (SPS), 2009, and based on the identified impacts, the Coimbatore subproject can be classified as Involuntary Resettlement Category "B". Resettlement Plan preparation is required for Coimbatore subproject components in line with the ADB's SPS, 2009 and resettlement framework prepared for TNUFIP. This document is a resettlement plan for Coimbatore UGSS.

8. To further minimize construction impacts, work will be executed during early hours of the day in order to avoid inconveniences to the public as well as traders and vendors. All safety norms would strictly be adhered to depending on the magnitude of work and the sensitivity of the location. Appendix 2 provides sample impact minimization measures template to be followed for pipe laying.² The program implementation unit (PIU) will also ensure that all the necessary rules related to safety and security of the public and residents are followed by the contractor. The actual dates

² This will be updated based on the revised project scope and detailed drawings before project implementation.

of construction schedule with respect to rush hour, festival time, and special business days will be discussed with vendors, squatters, market committee members, and residents, and accordingly construction activities will be planned. After laying pipes the lane/ road will be restored to its original condition (including bitumen, cement concrete and cement concrete interlocking tiles, as applicable).

Table 1: Proposed Subproject Components in Coimbatore

	Proposed Subproject Components	Scope of Land Acquisition and Rehabilitation and Resettlement	Summary
1	<u>Sewer Network</u> . Laying of new 424 km of sewer network of DWC/cast iron pipes ranging from 200-900 mm dia.	Sewer pipes will be buried below in a trench in the middle of the road within black top portion/ ROW. For wider/ divided roads sewers will be buried below in a trench on the edge of the road but still within the black top portion; within the existing ROW). Temporary impacts on movable structures within ROW are envisaged.	Temporary economic impacts to 123 vendors
2	<u>Pumping Mains</u> . Laying of new 40 km pumping main of cast iron pipes ranging from 150-800 mm dia.	Pumping mains will be buried below in a trench in the middle of the road within ROW. No land acquisition and R&R envisaged.	No involuntary resettlement /Indigenous peoples impacts anticipated
3	<u>MPS</u> . Construction of three new main sewage pumping stations at Chinna Sudukadu, Arputham Nagar and Muthu Nagar. (Refer Appendix 3/ Appendix 5 for layout drawings, site photos, ownership records and EUPs/ NOCs).	<u>Main Pumping Station-1</u> . The proposed MPS-1 is located at Chinna Sudukadu and the land belongs to Revenue Department (SF No. 467/1). The site is partly used for solid waste collection and is surrounded by residential/commercial buildings. MPS-1 requires total area of around 2,430 m ² . and adequate land is available for the construction. No land acquisition and R&R envisaged. <u>Main Pumping Station-13</u> . The proposed MPS-13 is located at Arputham Nagar and the land belongs to Coimbatore Corporation (SF No. 500). The site is located in newly developing areas at the end of residential area. Other sides the site is surrounded by vacant / agricultural lands. MPS-2 requires total area of around 1,012 m ² and adequate land is available for the construction. No land acquisition and R&R envisaged. <u>Main Pumping Station-10</u> . The proposed MPS-10 is located at Muthu Nagar and the land belongs to Revenue Department (SF No. 620). The site is located on the outskirts of the city and mostly surrounded by vacant/ agricultural lands. MPS-3 requires total area of around 1,660 m ² and adequate land is available for the construction. No land acquisition and R&R envisaged.	No involuntary resettlement /Indigenous peoples impacts anticipated
3	<u>Sub Pumping Stations</u> . Construction of 10 new sub pumping stations at Nethaji Nagar, Gayathri Nagar, Sathya Nagar, Krishnasamy Nagar, Poonga Nagar, Rajagopalan Nagar, Pillayarapuram,	<u>Pumping Station-2</u> . The proposed PS-2 is located at Nethaji Nagar and the land belongs to PWD (SF No. 24). The site is part of large vacant land partly covered with trees. PS-2 requires total area of around 243 m ² and adequate land is available for the construction. No land acquisition and R&R envisaged. <u>Pumping Station-3</u> . The proposed PS-3 is located at Gayathri Nagar and the land belongs to Coimbatore Corporation reserved for public purpose (SF	No involuntary resettlement /Indigenous peoples impacts anticipated

	Proposed Subproject Components	Scope of Land Acquisition and Rehabilitation and Resettlement	Summary
	<p>Amman Nagar, Rajarajeswari Nagar, and Sathyasai Nagar.</p> <p>(Refer Appendix 3/Appendix 5 for layout drawings, site photos, ownership records and EUPs/NOCs).</p> <p><u>Sub Pumping Stations.</u></p>	<p>No. 223). The site is vacant and surrounded by hilly areas. PS-3 requires total area of around 689 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-4.</u> The proposed PS-4 is located at Sathya Nagar and the land belongs to Slum Clearance Board (SF No. 691). The site is vacant, covered with shrubs and surrounded residential buildings. PS-4 requires total area of around 162 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-5.</u> The proposed PS-5 is located at Krishnasamy Nagar and the land belongs to Coimbatore Corporation reserved for public purpose (SF No. 100). The site is in residential area, besides an overhead tank currently under construction. PS-5 requires total area of around 202 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-6.</u> The proposed PS-6 is located at Poonga Nagar and the land belongs to Coimbatore Corporation reserved for public purpose (SF No. 127). Site is located next to Kurichi Kulam (lake) bund; selected site is between the residential houses/plots. A shed, used for construction material storage, is located in the site; this is a temporary shed used for construction of a house nearby and will be dismantled soon. PS-6 requires total area of around 648 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-7.</u> The proposed PS-7 is located at Rajagopalan Nagar and the land belongs to Coimbatore Corporation reserved for public purpose (SF No. 186). Site is selected in a large open plot reserved for common amenities in the residential area; three sides are buffered with roads and a large vacant space is present on the other side. PS-7 requires total area of around 770 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-8.</u> The proposed PS-8 is located at Pillayarapuram and the land belongs to Revenue Department (SF No. 17, 25). Site is open space along the road and covered partially with shrubs and bushes. PS-8 requires total area of around 608 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-9.</u> The proposed PS-9 is located at Amman Nagar and the land belongs to Revenue Department (SF No. 666). Site is surrounded by vacant/agricultural lands and covered partially with shrubs and trees. PS-9</p>	<p>No involuntary resettlement /Indigenous people impacts anticipated</p>

	Proposed Subproject Components	Scope of Land Acquisition and Rehabilitation and Resettlement	Summary
		<p>requires total area of around 162 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-11.</u> The proposed PS-11 is located at Rajarajeswari Nagar and the land belongs to Revenue Department (SF No. 602). Site is located in village area next to a residential house with small temple and surrounded by agricultural lands. Site appeared to be under cultivation sometime back; but no crop at present. PS-11 requires total area of around 810 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Pumping Station-12.</u> The proposed PS-12 is located at Sathyasai Nagar and the land belongs to Coimbatore Corporation (SF No. 425). Site is located in a newly developing residential area and currently used as a playground as this is earmarked for common facilities. Noyyal river flows adjacent to the site. PS-12 requires total area of around 608 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p>	
4	<p><u>LS.</u> Construction of xx new lift stations at various locations</p> <p>(Refer Appendix 3/Appendix 5 for layout drawings, site photos, ownership records and EUPs/NOCs).</p>	<p><u>Lift Station-1A.</u> The proposed LS-1A is located at Periyasamy Street and land belongs to Revenue Department (SF No. 658). Site is located in a lowlying area adjoining a small drain. Two old municipal water pump rooms (wooden structures) are on the site; these are currently used; however adequate space is available for construction of LS-1A. LS-1A requires total area of around 202 m².</p> <p><u>Lift Station-2A.</u> The proposed LS-2A is located at MGR Nagar and land belongs to Revenue Department (SF No. 158). Site is covered partly with shrubs and old municipal pump room is present at site. LS-2A requires total area of around 202 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Lift Station-3A.</u> The proposed LS-3A is located at Rainbow Colony at the deadend corner of corporation road in residential area (SF No. 2, 3). LS-3A requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p><u>Lift Station-3B.</u> The proposed LS-3B is located at Krishna College Road and land belongs to Revenue Department (SF No. 11). Site is located on the bank of a stream/nallah with residential building adjacent to it. LS-3B requires total area of around 202 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p>	No involuntary resettlement /Indigenous people impacts anticipated

	Proposed Subproject Components	Scope of Land Acquisition and Rehabilitation and Resettlement	Summary
	<p><u>LS.</u></p>	<p>Lift Station-3C. The proposed LS-3C is located at Krishna Nagar Extension at the deadend corner of corporation road in low-income residential area (SF No. 1). LS-3C requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-3D. The proposed LS-3D is located at Indira Nagar at the deadend corner of corporation road in residential area (SF No. 57). LS-3D requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-3E. The proposed LS-3E is located at EB Colony and land belongs to Coimbatore Corporation reserved for public purpose (SF No. 41). Site is vacant, partly covered with shrubs and bushes. A high-tension line passes near the site. LS-3E requires total area of around 202 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-3F. The proposed LS-3F is located at Bismi Nagar at the deadend corner of corporation road near Pillayarpuram hill (SF No. Road Poromboke). A school is located at about 50 m from the site. LS-3F requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-6A. The proposed LS-6A is located at Thulsi Garden at the deadend corner of corporation road in residential area (SF No. Road Poromboke). LS-6A requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-8A. The proposed LS-8A is located at Kuruchi Housing Unit and land belongs to Coimbatore Corporation reserved for public purpose (SF No. 186). Site is adjoined by industries and covered with thick shrubs and bushes. LS-8A requires total area of around 81 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-8B. The proposed LS-8B is located at Mohan Nagar at the deadend corner of corporation road in residential area (SF No. Road Poromboke). Site is adjacent to a stream/hallah in a predominantly lowlying area. However, land is reclaimed and level is raised. An industry/godown is located near the site. LS-8B requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p>	<p>No involuntary resettlement /Indigenous people impacts anticipated</p>

	Proposed Subproject Components	Scope of Land Acquisition and Rehabilitation and Resettlement	Summary
	LS.	<p>Lift Station-11A. The proposed LS-11A is located at LIC Colony and land belongs to Coimbatore Corporation reserved for public purpose (SF No. 191/2). Site is covered with shrubs in a undulating area near the railway line (~50 m.). LS-11A requires total area of around 202 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-11B. The proposed LS-11B is located at Annapuram and land belongs to Coimbatore Corporation reserved for public purpose (SF No. 603). Site is surrounded by vacant/undeveloped lands on one side, and newly developed residential areas on the other side. Site is covered with few shrubs and bushes; a water tank is located in the site. LS-11A requires total area of around 81 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-12A. The proposed LS-12A is located at Kanthiravan Nagar and land belongs to Coimbatore Corporation reserved for public purpose (SF No. 435). Site is located in a residential colony and earmarked for developing common facilities. A playground is located behind the site while the proposed site is covered with shrubs and bushes. LS-12A requires total area of around 36 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-12B. The proposed LS-12B is located at Silver Jubilee Nagar and land belongs to Coimbatore Corporation reserved for public purpose at the end of road (SF No. Road Poromboke). The proposed lift station lies adjacent to a community toilet. It is proposed to utilize the existing septik tank as a lift station by installing pumps; if not suitable, a new LS will be constructed at the same location by dismantling the septic tank. Site is within the slum, a high dense residential area. LS-12B requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-13A. The proposed LS-13A is located at Sri Ram Nagar at the deadend corner of corporation road in densely populated residential area (SF No. 537). LS-13A requires total area of around 20 m² and adequate land is available for the construction. No land acquisition and R&R envisaged.</p> <p>Lift Station-13B. The proposed LS-13B is located at Annai Therasa Layout and land belongs to Coimbatore Corporation reserved for public purpose at the end of road (SF No. 582). The site is at the end of the residential colony. Site is vacant with no tree cover. LS-13B requires total area of around 81 m²</p>	No involuntary resettlement/Indigenous people impacts anticipated

	Proposed Subproject Components	Scope of Land Acquisition and Rehabilitation and Resettlement	Summary
		and adequate land is available for the construction. No land acquisition and R&R envisaged.	
5	<u>STP</u> . Construction of new STP of 30 MLD	Proposed STP site is located within the solid waste management facility of the corporation at Vellalore, in southern outskirts of Coimbatore city. Total land area of this waste management facility is 650 acres, of which 75 acres allotted for construction of STP. The actual construction will however will require upto 25 acres. The land belongs to Coimbatore Corporation (SF Nos. 571-573, 576-577, 582,584, 588-591, 593-597). Site is presently vacant, and covered with shrubs and bushes of local species. A government police housing colony (RAF) is located adjacent to the site. However, given large site, existing SWM facilities, and old STP are located well inside the site and adequately away from the surrounding residential areas. No land acquisition and R&R envisaged.	No involuntary resettlement/Indigenous people impacts anticipated
6	<u>Outfall Sewer</u> . Laying of around 5 km length outfall sewer of 800 mm dia ductile iron pipe	Pipe will laid underground in Vellalur-Singanallur Road within the ROW/ black top portion and no land acquisition and R&R envisaged.	No involuntary resettlement/Indigenous peoples impacts anticipated
7	<u>House Service Connections</u> . Provision of 69,668 house service connections with inspection chambers	Inspection chambers and house service connections will be provided within individual's property boundary. No land acquisition and R&R envisaged.	No involuntary resettlement/Indigenous peoples impacts anticipated

DWC = double walled corrugated, EUP = enter upon permission, km = kilometer, LA = land acquisition, LS = lift stations, MLD = million liters per day, m = meter, mm = millimeter, MPS = main pumping stations, NOC = no objection certificate, OHT = overhead tank, PS = pumping stations, ROW = right of way, R&R = resettlement and rehabilitation, m² = square meter, STP = sewage treatment plant, UGT = underground tank

Source: Coimbatore UGSS DPR, CMC and site visits.

C. Socioeconomic Information and Profile

9. Transect walks identified a total of 123 affected persons whose business will be temporarily affected during pipe laying, as they carry their activities within/very close to ROW. A close to 46% of these businesses are tea/ food/ juice related stalls and the other business mainly include selling of fruits/ vegetables/ flowers; hardware and mechanic shops; and electronic items. A close to one-third of businesses (31%) have movable structures while an additional 57% affected persons sit on roads or have extended their activities on roads for selling their goods. Around 12% of affected persons with kiosks may require shifting assistance. Structures that are extended on roads can be easily dismantled or removed. Almost all affected persons indicated that they can shift to nearby areas to continue their business during construction work and may not necessarily get affected during sewer laying. Street vending is quite a common practice in many cities of the state including Coimbatore and close to 50% of the affected persons indicated that they are doing their business at present location for more than five years.

10. In terms of the socioeconomic background, a majority of these vendors appeared to be poor. However, only 4% earn income below poverty line (Indian rupee less than 2,500 per month). A majority (50%) earn monthly income between ₹5,000-₹10,000 and belong to lower middle income group. Average monthly income works out at ₹8,728 with minimum at ₹2,000 and maximum at ₹40,000.³ Considering work week of 6 days (26 days per month), average daily income is estimated at ₹336 for affected persons. This is lower than the notified minimum wage rate for Tamil Nadu at ₹643.⁴

11. A majority of the surveyed affected persons belong to other backward classes (OBC-87%) while the remaining were scheduled castes. No scheduled tribes were identified during Resettlement surveys. During site visits it was found that scheduled tribes in Coimbatore do not show any distinct indigenous characteristics that are different than mainstream society. This will hence not trigger ADB's indigenous peoples plans (IPP) policy. Around 7% of affected persons were women headed households (WHH).⁵ Total vulnerable⁶ affected persons comprise 20% of the total surveyed affected persons.

12. Transect walk data/ analysis will be updated road wise based on detailed measurement survey considering detailed design in sections ready for implementation and revised resettlement plan will be submitted to the ADB for approval. A 100% census and socioeconomic survey will be undertaken to register and document the status of affected people within subproject impact area. Any temporary impacts or costs incurred by affected persons will be identified through the detailed measurement survey (DMS) and compensated at replacement cost, in line with the principles of the resettlement framework.

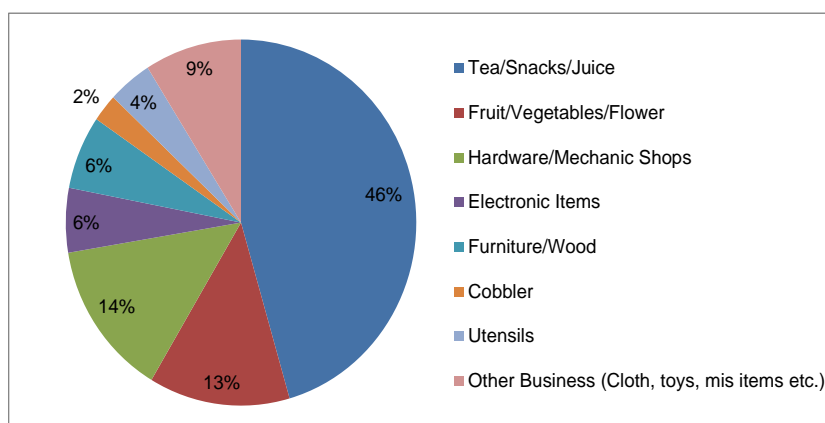

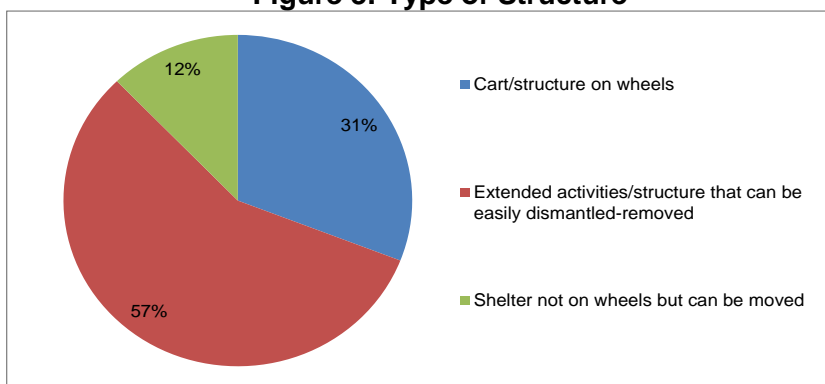

³ As per data published by the Planning Commission, Government of India, in 2011-12, poverty line in urban Tamilnadu was ₹993 per capita per month. On adjusting for inflation, this works out to ₹1,406 per capita per month in 2017, or a monthly household income of ₹5,540 for BPL households, considering the average urban household size in the state per Census 2011. Hence, a majority of the identified potentially temporarily impacted persons are estimated to be below poverty line, based on limited data available.

⁴ Minimum wage rate estimated based

on: [HTTP://CMS.TN.GOV.IN/SITES/DEFAULT/FILES/GO/LABEMP_E_62_2017_2D_PDF.PDF](http://cms.tn.gov.in/sites/default/files/go/labemp_e_62_2017_2d_pdf.pdf)

⁵ Household is considered women headed when she is the single bread earner of the family or earn most of the income for the family.

⁶ Vulnerable households may include female-headed household, physically handicapped-headed household, scheduled tribe-headed households, Below Poverty Line households, and households with marginal land holdings, that is the only source of livelihood, and majority of that land is being acquired under the project.

Figure 1: Type of Business**Figure 2: Monthly Household Income****Figure 3: Type of Structure**

D. Information Disclosure, Consultation and Participation

13. The key stakeholders to be consulted during subproject preparation, resettlement plan preparation, implementation and program include:

- (i) Heads and members of households likely to be affected;
- (ii) Program beneficiaries, groups/clusters of affected persons;
- (iii) Local voluntary organizations and community-based organizations (CBOs);

- (iv) Government agencies and departments; and
- (v) Major project stakeholders, such as women, trader's associations, CBOs, etc.

14. Consultations undertaken during project preparatory technical assistance (PPTA) stage are attached in Table 2. These include consultations during baseline surveys to integrate household's preferences into project design. Consultations with potentially affected persons were conducted during transect walks. The concerns expressed mainly included traffic disruptions and temporary impacts on livelihood, including duration of impact (Appendix 3). It was informed to surveyed potential affected persons that appropriate measures will be undertaken during construction to minimize impacts. (including scheduling of activities during the early morning and reducing construction activities during the rush hour). It was also informed that, if despite mitigation measures, there were any temporary impacts on livelihood; these would be compensated in accordance with the resettlement plan's entitlement matrix. Further consultations will also include focus group discussions (FGDs) and structured census surveys parallel to detailed measurement survey in sections ready for implementation before the project implementation. These will be carried out by PIU Assistant Safeguard Officer (ASO) who will work closely with PMU social project officer (SPO). A city wide stakeholder consultation involving representatives from all stakeholder groups to brief them about the technical details of project and project implementation cycle; project benefits as well as adverse impacts envisaged during construction; environmental and social safeguards, gender inclusion, community participation aspects built into the project etc. is proposed. Minutes of meeting will be added to the updated resettlement plan.

15. At this PPTA disclosure activities includes dissemination/ distribution of summary of resettlement framework and resettlement plan in local language to key stakeholders including affected persons. The approved resettlement framework/resettlement plan full documents will also be disclosed on ADB and local government's websites and will be available in key local/state government offices. During the subproject implementation, construction schedules will be informed to all residents (including affected persons) prior to the commencement of pipe laying through signboards. The signboards will be in local language and will include at minimum: (i) section to be affected, (ii) start and end dates, (iii) information on traffic rerouting if any, and (iv) contact information for questions/ grievances.

Table 2: Consultation and Disclosure Activities during Project Preparatory Technical Assistance Stage

Activities	Details	Responsible Agency
Preliminary awareness about the project activities	City visits and series of meeting with key stakeholders (ULB, TWADB, DC etc. officials)	PPTA team
Baseline surveys	Sample household socioeconomic surveys to understand baseline infrastructure situation, problems faced in service delivery, household's willingness to get connected to new systems and willingness to pay for it	PPTA team
Profiling of potential affected persons	Undertake transect walks and screening of project impact area to identify potential affected persons and record their socio-economic and business profile.	PPTA team
City wide stakeholder consultation	Dissemination of project related technical and other information to representatives of all key stakeholders (at one platform) and disclosure of summary of social safeguard documents in local languages	PPTA team/ relevant government departments

PPTA = project preparatory technical assistance, TWADB = Tamil Nadu Water and Drainage Board, ULBs = urban local body.

16. Continued involvement of those affected by the subproject will be ensured. An intensive information dissemination and feedback campaign for affected persons will be conducted by the PIU from the time of resettlement plan preparation to implementation and monitoring. The proceedings of such campaigns shall be documented. All the comments made and concerns raised by the affected persons will be documented in the subproject records and summarized in subproject monitoring reports.

17. During revised resettlement plan preparation, PIU/PMU will be responsible for issuing various required public notices. For the temporary impacts the date/period of socio-economic surveys will be considered as cut-off date. Cut-off-date for temporary impacts will be communicated to affected persons through PIU, 2-3 days before the start of survey (and not in much advance) and also by putting up printed information in project affected area at some common advertisement place. Similarly, list of affected persons will be published at common places with contact details of PIU officials. The list will be put up area wise and at a time for the entire city. This will avoid affected persons moving into other areas and to identify any duplication of affected persons. PIU will facilitate affected persons to approach lists in their area and get confirmation on any duplication, missing/absent affected persons.

18. Additionally, draft/final resettlement framework/resettlement plan will be made available in PIU and PMU offices. The resettlement framework and resettlement plan will be disclosed in ADB's website and the PMU websites. Finalized resettlement plans will also be disclosed in ADB's website, PMU websites, and PIU or city websites; and information dissemination, through subproject specific leaflets and public announcements, and consultation will continue throughout program implementation. The project leaflets will be distributed by GIAC to the affected communities for their information. A sample project leaflet is attached in Appendix 6.

E. Grievance Redress Mechanism

19. A common grievance redress mechanism (GRM) will be in place to redress social, environmental or any other project related grievances. The GRM described below has been developed in consultation with stakeholders. Public awareness campaign will be conducted to

ensure that awareness on the project and its grievance redress procedures is generated. The campaign will ensure that the poor, vulnerable and others are made aware of grievance redress procedures and entitlements per project entitlement matrix, and PMU and concerned PIUs will ensure that their grievances are addressed.

20. Affected persons will have the flexibility of conveying grievances/suggestions by dropping grievance redress/suggestion forms in complaints/suggestion boxes or through telephone hotlines at accessible locations, by e-mail, by post, or by writing in complaints register in ULB or PIU or implementing agency offices. PIU Safeguards officer will have the responsibility for timely grievance redress on safeguards and gender issues and for registration of grievances, related disclosure, and communication with the aggrieved party.

21. GRM provides an accessible, inclusive, gender-sensitive and culturally appropriate platform for receiving and facilitating resolution of affected persons' grievances related to the project. A two-tier grievance redress mechanism is conceived, one, at project level and another, beyond project level. For the project level GRM, a grievance redress committee (GRC) will be established in PIUs; Safeguards Officer will be responsible for creating awareness among affected communities and help them through the process of grievance redress, recording and registering grievances of non-literate affected persons.

22. GRM aims to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns linked to the project. All grievances – major or minor, will be registered. Documentation of the name of the complainant, date of receipt of the complaint, address/contact details of the person, location of the problem area, and how the problem was resolved will be undertaken. PIU will also be responsible for follow-through for each grievance, periodic information dissemination to complainants on the status of their grievance and recording their feedback (satisfaction/dissatisfaction and suggestions).

23. In case of grievances that are immediate and urgent in the perception of the complainant, the contractor, and supervision personnel of the PIU will resolve the issue on site, and any issue that is not resolved at this level will be dealt at PIU head level for immediate resolution. Should the PIU fail to resolve any grievance within the stipulated time period, the unresolved grievances will be taken up at ULB level. In the event that certain grievances cannot be resolved even at ULB level, particularly in matters related to land purchase/acquisition, payment of compensation, environmental pollution, etc., they will be referred to the district level GRC headed by the District Collector. Any issue which requires higher than district level inter-departmental coordination or grievance redress, will be referred to the state level Steering Committee.

24. GRC will meet every month (if there are pending, registered grievances), determine the merit of each grievance, and resolve grievances within specified time upon receiving the complaint-filing which the grievance will be addressed by the state-level Steering Committee. The Steering Committee will resolve escalated/unresolved grievances received.

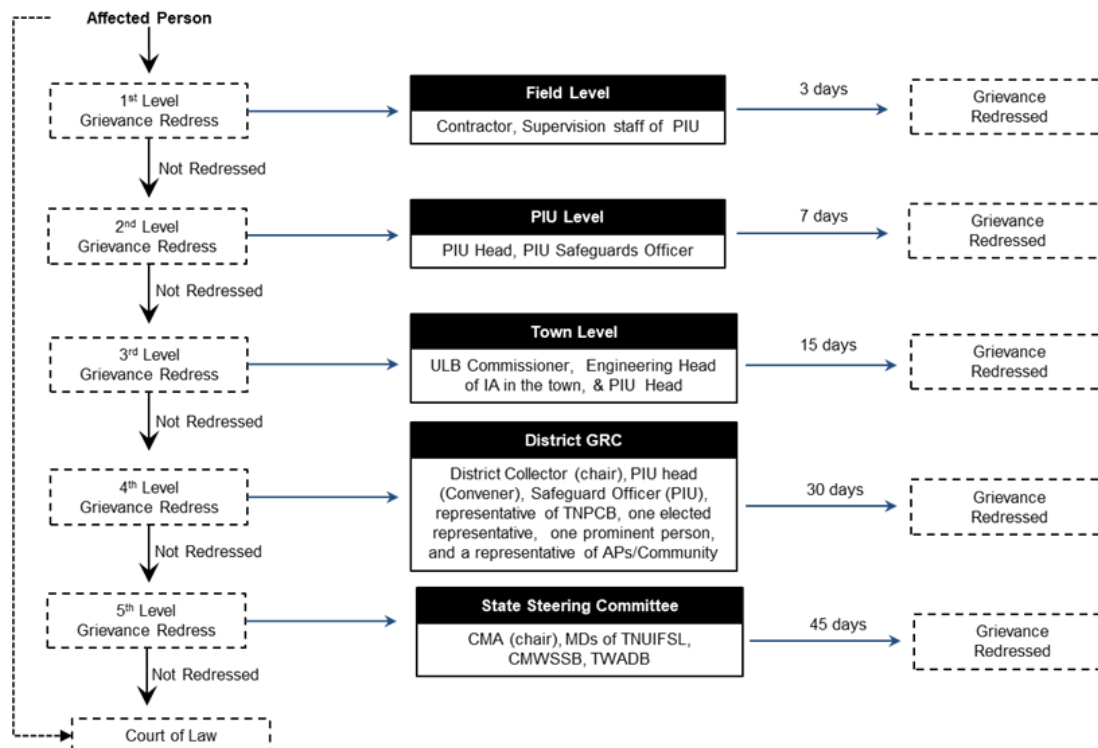

25. **Composition of Grievance Redress Committee.** GRC will be headed by the District Collector, and members include: PIU head, Safeguards Officer of PIU, representative of TNPCB, one elected representative/ prominent citizen from the area, and a representative of affected community. GRC must have a women member.

26 **State level steering committee** will include Commissioner of Municipal Administration as chair, member include managing directors of TNUIFSL, CMWSSB, Tamil Nadu Water and Drainage Board (TWADB) and others as applicable.

27. **Areas of Jurisdiction.** The areas of jurisdiction of the GRC, headed by the District Magistrate will be (i) all locations or sites within the district where subproject facilities are proposed, or (ii) their areas of influence within the District. The Steering Committee will have jurisdictional authority across the state (i.e., areas of influence of subproject facilities beyond district boundaries, if any).

28. The multi-tier GRM for the project is outlined below (Figure 4), each tier having time-bound schedules and with responsible persons identified to address grievances and seek appropriate persons' advice at each stage, as required. The GRC will continue to function throughout the project duration. The implementing agencies/ULBs shall issue notifications to establish the respective PIU level grievance redress cells, with details of composition, process of grievance redress to be followed, and time limit for grievance redress at each level.

- (i) **1st level grievance.** The contractor and PIU supervision personnel can immediately resolve issues on-site in consultation with each other, and will be required to do so within 3 days of receipt of a complaint/grievance.
- (ii) **2nd level grievance.** All grievances that cannot be redressed within 3 days at field/ward level will be brought to the notice of Social Safeguards Officer (SSO) of PIU. PIU will resolve the grievance within 7 days of receipt of compliance/grievance in discussion with the Contractor.
- (iii) **3rd level grievance.** All the grievances that are not addressed by PIU within 7 days of receipt will be brought to the notice of the Town Level Committee (TLC), of which ULB Commissioner will be the Chairperson, and will be assisted by the concerned city level engineers. TLC will meet twice a month and determine the merit of each grievance brought to the committee. The PIU SSO will be responsible to see through the process of redressal of each grievance. The TLC will resolve the grievance within 15 days of receiving the complaint.
- (iv) **4th level grievance.** All grievances that are not addressed by the TLC within 15 days, and which require the District Collector's intervention, will be escalated to the district level grievance redress committee (GRC), chaired by the District Collector. The district level GRC will have the District Collector as chair, PIU head as Convenor, and Safeguard Officers of the PIU, representative of TNPCB, one elected representative, one prominent person/member of the community, and a representative of affected persons/community as members. At least one member of the GRC will be a woman. The GRC will resolve the grievance within 30 days of registration.
- (v) **5th level grievance.** Any grievance that remains unresolved by the GRC will be escalated to the state level steering committee.

Figure 4: Grievance Redress Process

29. The project GRM notwithstanding, an aggrieved person shall have access to the country's legal system at any stage, and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM. In case of grievance related to land acquisition, resettlement and rehabilitation,⁷ the affected persons will have to approach a legal body/court specially proposed under resettlement framework CTLARR, 2013; Land Acquisition, Rehabilitation and Resettlement Authority (LARRA).

30. In the event that the established GRM is not in a position to resolve the issue, the affected person also can use the ADB Accountability Mechanism through directly contacting (in writing) the Complaint Receiving Officer at ADB headquarters or the ADB India Resident Mission (INRM). Before submitting a complaint to the Accountability Mechanism, it is necessary that affected persons make a good faith effort to solve the problem by working with the concerned ADB operations department and/or resident mission. Only after doing that, and if they are still dissatisfied, will the Accountability Mechanism consider the complaint eligible for review. The complaint can be submitted in any of the official languages of ADB's developing member countries. The ADB Accountability Mechanism information will be included in the project-relevant information to be distributed to the affected communities, as part of the project GRM.

31. **Recordkeeping.** Records of all grievances received, including contact details of complainant, date the complaint was received, nature of grievance, agreed corrective actions and the date these were effected and final outcome will be kept by PIU and submitted to PMU.

⁷ The Authority admits grievance only with reference to the land acquisition and R&R issues under the RFCTLARR, 2013.

32. **Information dissemination methods of the Grievance Redress Mechanism.** The PIU will be responsible for information dissemination to affected persons and general public in the project area on grievance redress mechanism. Public awareness campaign will be conducted to ensure that awareness on the project and its grievance redress procedures is generated. The campaign will ensure that the poor, vulnerable and others are made aware of grievance redress procedures and entitlements per this resettlement framework including contract details of officials/members of GRC, where/ how to register grievance, various stages of grievance redress process, time likely to be taken for redress of minor and major grievances, etc. Grievances received and responses provided will be documented and reported back to the affected persons. The number of grievances recorded and resolved and the outcomes will be displayed/disclosed in the PIU, offices, ULB notice boards and on the web, as well as reported in the semi-annual environmental and social monitoring reports to be submitted to ADB.

33. **Periodic review and documentation of lessons learned.** The PMU will periodically review the functioning of the GRM and record information on the effectiveness of the mechanism, especially on the PIU's ability to prevent and address grievances.

34. **Costs.** All costs involved in resolving the complaints (meetings, consultations, communication and reporting/information dissemination) will be borne by the respective PIU.

F. Legal Framework

35. The policy framework and entitlements for the TNUFIP are based on:

- (i) The recently passed-The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act (RFCT in LARR), 2013 and RFCTLARR GoTN Notified Rules, 2017;
- (ii) Environmental and Social Management Framework (ESMF) of TNUIFSL;
- (iii) ADB's Safeguard Policy Statement (SPS), 2009; and
- (iv) The agreed entitlement matrix and Resettlement Framework.

36. The salient features of Government and ADB policies are summarized below. The resettlement principles and procedures to be followed for social safeguards under TNUIFP are detailed out in the Resettlement Framework document. In case of discrepancy between the policies of ADB and the government, gap-filling measures will be adopted to bridge the discrepancies. Core involuntary resettlement principles for the TNUFIP to be followed for each subproject, including sample subprojects are:

- (i) screening of the project to identify involuntary resettlement impacts and risks. Minimizing and avoiding land acquisition and resettlement impacts of each subproject by exploring all viable alternative designs;
- (ii) where unavoidable, time-bound resettlement plans be prepared and affected persons will be assisted in improving or at least regaining their pre-program standard of living;
- (iii) full information and close consultations with affected persons including consultation with affected persons on compensation, disclosure of resettlement information to affected persons, and participation of affected persons in planning and implementing subprojects will be ensured; Disclose a draft resettlement plan, including documentation of the consultation process in a timely manner to affected persons and other stakeholders. Disclose the final resettlement plan and other documents such as the monitoring reports to affected persons and other stakeholders;

- (iv) Where the resettlement impacts are unavoidable, the displaced persons should be assisted in improving or at least regaining their standard of living;
- (v) Vulnerable groups comprising below poverty line households, including female-headed households, disabled persons, elderly, children, landless, non-titled households with no tenure security, and schedule castes and scheduled tribe households will be given special assistance;
- (vi) payment of compensation to affected persons including non-titled persons (e.g., informal dwellers/squatters, and encroachers) for acquired assets at replacement cost;
- (vii) payment of compensation and resettlement assistance prior to the contractor taking physical acquisition of the land and prior to the commencement of any construction activities;
- (viii) provision of income restoration and rehabilitation; and
- (ix) establishment of appropriate grievance redress mechanisms.

37. A detailed description of each compensation measure and assistance is provided in the Entitlement Matrix attached in resettlement framework while a Coimbatore subproject specific /applicable entitlement matrix is given in Table 3. Affected persons will be entitled to a combination of compensation measures and resettlement assistance, depending on the nature of ownership rights of lost assets and scope of the impact, including social and economic vulnerability of the affected persons.

G. Entitlements, Assistance and Benefits

38. Livelihood impacts identified for Coimbatore subproject components are temporary ranging from 20-30 days of construction time for each road stretch of about 500 m. In majority of the roads impacts are avoidable since sewer network will be laid in the middle of the road. In wider and divided roads where work needs to be undertaken on both sides of the road, impacts can be avoided/minimized by taking construction on one side of the road at a time. In such cases temporarily affected person will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents/environmental management plan (EMP). During implementation if more number of affected persons are identified at one place (e.g. vegetable market) then an alternate place in the vicinity will also be identified so that they can continue with their livelihood activities.

39. Majority of potentially affected persons use movable stalls (Appendix 3) that can be shifted to nearby locations if properly informed. Advance notice regarding construction activities, including duration and type of disruption provided to temporarily affected persons once contractor's work plans are finalized, with minimum 7 working days. If required, they will also be assisted to temporarily shift for continued economic activity. For example, they will be assisted to shift to the other side of the road or nearby areas where there is no construction. Ensuring there is no income or access loss during subproject construction is the responsibility of contractors.

Table 3: Entitlement Matrix^a

No.	Impact Category	Entitlements	Explanations
Unforeseen Impacts^b			
A	Unforeseen Impacts	Unforeseen impacts encountered during implementation will be addressed in accordance with the principles of this resettlement framework.	-
Temporary Economic Impacts during implementation			
A	Temporary economic impacts	Compensation for loss of income for the duration of impact based on the net income or as per IT returns or based on notified minimum wage rates, whichever is higher.	-Advance notice provided to temporarily affected persons once contractor's work plans are finalized, with minimum 7 working days.

^a Any changes required in the Entitlement Matrix pursuant to any Amendments in the LARR 2013 Act be notified by the GOTN and will be incorporated with the concurrence of the ADB. All cash allowances in this EM will be revised at the rate of 5% per annum starting from financial year 2019-20.

^b If unanticipated involuntary resettlement impacts are found during implementation, a social impact assessment will be conducted, and the resettlement plan updated or a new resettlement plan prepared, in accordance with ADB SPS 2009.

40. If construction activities result unavoidable livelihood disruption, compensation for lost income based on the net income or as per notified minimum wage rates, whichever is higher will be provided. Vulnerable affected persons will be given priority in project construction employment. Compensation and assistance to temporarily affected persons must be made prior to their shifting from original place of business (if required) and before start of civil works. Since most affected households have moveable stalls, ID cards should be distributed 7 days before compensation. In summary, temporarily affected persons will be provided with:

- (i) Advance notice regarding construction activities, including duration and type of disruption provided to temporarily affected persons once contractor's work plans are finalized, with minimum 7 working days;
- (ii) Contractor's actions to ensure there is no income/ access loss consistent with the initial environmental examination. This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased workforces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time;
- (iii) Assistance to mobile vendors/hawkers to temporarily shift for continued economic activity. For example, assistance to shift to the other side of the road where there is no construction; and
- (iv) For construction activities involving unavoidable livelihood disruption, compensation for lost income for the period of disruption.

H. Resettlement Budget and Financing Plan

41. The resettlement budget for Coimbatore subproject is estimated at lumpsum ₹2.67 million. The costs are indicative estimates to be confirmed post detailed measurement survey based on detailed design, and comprise GRM and consultation costs. Resettlement plan costs will be confirmed during detailed project preparation/implementation.

Table 4: Resettlement Cost

	Details	No.		Unit Cost	Total Cost (₹)
1	Temporary Income Loss				
	Provisional sum for compensation of temporary income loss @ notified minimum wage rate ^a	123	25 days	643	1,977,225
2	Surveys, consultations, grievances and awareness				
	DMS Survey for Resettlement Plan updation ^b	-	LS		200,000
	Consultation, grievance redress, disclosure ^c	-	LS		250,000
	Subtotal	-			2,427,225
	Contingency @ 10%	-			242,723
	Grand Total (₹)	-			2,669,948

Notes:

^a For the purpose of budget preparation in the draft resettlement plan, notified minimum wage rate is used, as per the entitlement matrix. Costs in the updated resettlement plan will be based on a comparison of census and socio-economic survey data on income with the prevailing notified minimum wage rate at the time of compensation payment. (Estimated based on: [HTTP://CMS.TN.GOV.IN/SITES/DEFAULT/FILES/GO/LABEMP_E_62_2017_2D_PDF.PDF](http://cms.tn.gov.in/sites/default/files/go/labemp_e_62_2017_2d_pdf.pdf). Costs in the updated resettlement plan will be based on actual survey.

^b Detailed measurement surveys (DMS) will be conducted in sections ready for implementation, based on detailed design to confirm impacts.

^c The allocation for disclosure includes cost of translation of the resettlement plan to Tamil.

42. All land acquisition and resettlement costs will be borne by the government/ULB/PIU. Under TNUFIP, it is suggested that payment will be directly made by PIU to affected persons. The GIAC will be involved in facilitating the disbursement process, and will facilitate opening bank accounts for the affected persons (both permanent and temporary loses) who do not have bank accounts.

I. Institutional Arrangements and Implementation Schedule

43. The Municipal Administration and Water Supply Department (MAWS) acting through the Tamil Nadu Urban Infrastructure Financial Services Ltd. (TNUIFSL) will be the state-level executing agency. A program steering committee, headed by Principal Secretary, MAWS, GOTN, will provide overall guidance and strategic directions to the program. A program management unit (PMU) for TNUFIP, headed by the Managing Director, TNUIFSL acting as Program Director will be established within TNUIFSL for overall management, planning, implementing, monitoring, reporting, and coordinating TNUFIP. The Commissioner of Municipal Administration will act as the Deputy Program Director in the PMU. The project urban local bodies (ULBs), represented by respective Municipal Commissioners, will be the implementing agencies for works in cities/towns and will establish program implementing units (PIUs) headed by a municipal engineer as full-time Project Manager. For sewerage and water supply works in Chennai, CMWSSB, represented by its Managing Director, will be the implementing agency and establish a PIU headed by a superintending engineer as full-time Project Manager. PIUs will be responsible for overseeing implementation of the various projects on a day-to-day basis. ULBs under the Program with less project implementation capacity, may utilize implementation support from the TWADB to act as PIU. The Project Managers of the PIUs will be supported by technical, financial, safeguards and administrative staff from a Contract Management and Supervision Consultant (CMSC) recruited by TNUIFSL. For the capacity development and incentivized reforms components, CMA acting through its Commissioner, will be responsible for carrying out these activities and establish a PIU.

44. A Program Steering Committee, headed by Principal Secretary, MAWS, and Members comprises of: (i) Managing Director, TNUIFSL (Convener); (ii) Commissioner of Municipal Administration; (iii) Managing Director, CMWSSB; (iv) Managing Director, TWADB; and (v) Managing Director, TUFIDCO.

45. **Program Management Unit.** PMU will monitor the Project and have overall responsibility for ensuring adoption and compliance of resettlement framework and ADB SPS, 2009. Additionally, PMU will monitor PIUs for: (i) identifying and preparing subprojects; (ii) reviewing RPs prepared by PIU/ULB; (iii) ensure adoption and compliance of resettlement framework in land acquisition and other safeguards; (iv) guide in awareness campaigns and participation programs; (v) organize and operate the program performance monitoring system; (vi) prepare and submit timely reports to ADB; and (vii) design and organize capacity building programs. PMU will be assisted by CMSC in managing and guiding the overall implementation of the Program. SPO of PMU will responsible for all land acquisition and resettlement matters from PMU side.

46. PMU SPO will perform responsibilities like: (i) addressing social safeguards issues; (ii) implementing the resettlement framework; (iii) report to Projects Head with respect to land acquisition and resettlement plan implementation in the subprojects; (iv) monitoring physical and financial progress on land acquisition activities and updating the PMU on the same; (v) monitoring

implementation of safeguards plans (resettlement plan); (vi) guiding the PIUs as and when necessary; and (vii) endorsing and submitting periodic monitoring reports.⁸

47. **Program Implementation Unit.**⁹ PIUs will be established in each of the participating ULBs within their structure or at TWADB and in CMWSSB. For Coimbatore UGSS subproject PIU will be established at TWADB and an Assistant Engineer rank officer from Coimbatore Corporation, designated as ASO, will be part of PIU. PIU ASO will implement social safeguards at the PIU level. The PIUs will be responsible for implementation of the resettlement plans. PIUs will undertake internal monitoring and supervision and record observations throughout the project period to ensure that the safeguards and mitigation measures are provided as intended. PIUs will be responsible for: (i) conduct briefing to contractors on safeguards requirements including GRM; (ii) implementing and monitoring safeguards compliance activities, public relations activities, gender mainstreaming activities, and community participation activities; (iii) coordinating with district administration and GIAC for land acquisition and R&R aspects and addressing any problems and/or delays; (iv) monitoring physical and financial progress on land acquisition and R&R activities; (v) organizing monthly meetings with the PIU to review the progress on R&R; and (vi) share all reports relating to land acquisition, alienation, R&R activities etc. and status to PMU. Further details on agencies responsible for RP activities are in Table 6.

48. **Governance Improvement and Awareness Consultants (GIAC).** The scope of service will include, but not be restricted to, implementation, monitoring and reporting of the consultation and participation plan (CPP); gender equality and social inclusion (GESI) plan, and monitor and guide resettlement plan implementation and lead involuntary resettlement trainings. Specific tasks related to social safeguards include: (i) monitor and guide PIUs on resettlement plan implementation, with particular reference to significant impacts; (ii) lead involuntary resettlement training and capacity building on involuntary resettlement/IP safeguards to project PIUs and CMA; (iii) guide PIUs to set up grievance redress mechanisms, record keeping and feedback mechanisms; and (iv) guide PIUs in keeping detailed records of progress and establishing monitoring and reporting systems for resettlement. GIAC will also provide guidance to PIUs on specific requirements for IPP implementation, if Safeguard Requirement 3 triggered.

49. To build the institutional capacity for resettlement plan preparation and implementation, following key training activities will be undertaken (Table 5). The cost of trainings will be borne by Project's capacity building program by PMU. The detailed cost and specific modules will be customized for the available skill set after assessing the capabilities of the target participants and the requirements of the project.

Table 5: Indicative Training Needs Assessment

Description	Target Participants and Venue
1. Introduction and Sensitization to Social/Resettlement Issues (1 day) - ADB Safeguards Policy Statement	All staff and consultants involved in the project At PMU, Chennai

⁸ The monitoring report will focus on the progress of implementation of the IEE/EIA and EARF, resettlement plan/resettlement framework and IPP/IPF, issues encountered and measures adopted, follow-up actions required, if any, as well as the status of compliance with subproject selection criteria and relevant loan covenants.

⁹ If the subproject triggers new LARR, PIU will facilitate land acquisition through DC and will provide all details of land acquisition to PMU. PIU ASO will incorporate the same in resettlement plan and check its compliance with RF/ADB SPS-2009 to make necessary additions (if any). ULB will bear the cost of any deviations in the compensation etc. to comply with RF/ADB SPS,2009. Government procedures under land acquisition act can run parallel even though under ADB project required surveys/preparation of resettlement plan will be undertaken. ADB project need to wait for the outcomes of government procedures to finalize the compensation and disbursement of payments.

Description	Target Participants and Venue
<ul style="list-style-type: none"> - Government of India and Tamil Nadu applicable social safeguard acts - Incorporation of social/resettlement components under EMP into the project design and contracts - Monitoring, reporting and corrective action planning 	First year of the launch of TNUFIP.
2. resettlement plan implementation (2 days; 2 times during implementation with interval of 1 year in-between) <ul style="list-style-type: none"> - Roles and responsibilities - resettlement plan components and stages in implementation - Construction schedules and timelines - Public relations - Consultations - Grievance redress - Monitoring and corrective action planning - Reporting and disclosure - Timely documentation 	All staff and consultants involved in the subproject All contractors prior to award of contract At each PIU
3. Experiences and best practices sharing (1 day) <ul style="list-style-type: none"> - Experiences on resettlement plan implementation - Issues and challenges - Best practices followed 	All staff and consultants involved in the project, All contractors, All NGOs At PIU Chennai

ADB = Asian Development Bank, NGO = nongovernment organizations, PIU = program implementation unit, PMU = program management unit, TNUFIP = Tamil Nadu Urban Flagship Investment Program.

Table 6: Institutional Roles and Responsibilities

Activity	Responsible Agency
Subproject Initiation Stage	
Finalization of sites for subprojects	PIU
Disclosure of proposed land acquisition and subproject details by issuing Public Notice	PIU
Meetings at community/household level with affected persons	PIU/CMSC
Resettlement Plan Preparation and Updating Stage	
Conducting Census of all affected persons	PIU/ULB
Conducting FGDs/meetings/workshops	PIU/ULB
Computation of replacement values of land/properties proposed for acquisition and for associated assets	PIU/ULB and as per RFCTLARR 2013 for Land Acquisition
Categorization of affected persons for finalizing entitlements	PIU/ULB
Formulating compensation and rehabilitation measures	PIU/ULB
Conducting discussions/meetings/workshops with affected persons and other stakeholders	PIU/ULB
Fixing compensation for land/property with titleholders	As per RFCTLARR 2013
Finalizing entitlements and rehabilitation packages	PIU/ULB
Disclosure of resettlement plan	PIU
Approval of resettlement plan	PMU/ ADB
Sale deed execution and payment	PIU/ULB
Taking possession of land	PIU/ULB
Resettlement plan Implementation Stage	
Implementation of proposed rehabilitation measures	PIU/ CMSC
Consultations with affected persons during rehabilitation activities	PIU/ CMSC
Grievances redressal	CMSC/ PIU/ GRC/ PMU
Internal monitoring	PMU / PIU/ULB

ADB = Asian Development Bank, CMSC = construction, management, and supervision consultant, CMWSSB = Chennai Metro Water Supply and Sewerage Board, FGD = focus group discussion, GRC = grievance redress committee, PIU = program implementation unit, PMU = program management unit, RFCTLARR = The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013.

50. Implementation of Resettlement Plan. All proposed subproject utility sites will be secured prior to the contract award and start of civil works. Prior the contract award, for all CMC/government lands, PIU will confirm that there are no legacy issues related to acquisition of the sites (i.e., year in which land was acquired/obtained, whether acquired in anticipation of ADB funding, whether all compensation has been paid and accepted, and whether there are any pending legal/other issues). This could be in the form of self-certification by the owner department/TMC. This will be submitted to ADB through PMU before contract award and start of civil works. The resettlement plan will also be disclosed in English and its Executive Summary in Tamil prior to contract award.

Table 7: Schedule of Resettlement Implementation

	2017	2018		2019	2020	2021	2022	2023
	Q4	H1	H2					
Setting up of PIUs								
Appointment of GIAC								
Setting up of project level GRM								
Awareness generation among affected persons on entitlements, impact avoidance and mitigation measures to be implemented by the contractor								
Conduct detailed measurement surveys, census surveys and issuance of ID cards in sections ready for construction								
Identify Vulnerable affected persons, if any*								
Update draft Due Diligence Report								
Update draft Resettlement Plan to reflect surveys, consultations, design changes, and due diligence results								
Consultations and disclosure								
Review and approval of updated Resettlement Plan (PMU and ADB)								
Training/capacity building of PMU and PIU safeguards officers, engineers and other staff, DSISC supervision staff and contractor's staff								
Payment of compensation								
Handover of sites and alignments to contractors								
Start of civil works								
Internal monitoring, including surveys of affected persons on entitlements, satisfaction surveys								
Repair/reconstruction of affected facilities, structures, utilities, if any				Immediately, in consultation with other departments, as required				

ADB = Asian Development Bank, GIAC = government improvement and awareness consultant, GRM = grievance redress mechanism PIU = program implementation unit, PMU = program management unit, CMSC = construction, management, and supervision consultant.

* The start date of census will be the cut-off date for non-titled affected persons.

** The resettlement plan will be updated based on final detailed design and affected person census and surveys.

*** Endorsement and disclosure of final resettlement plans consistent with the resettlement framework to be undertaken.

J. Monitoring and Reporting

51. Resettlement plan implementation will be closely monitored by the PMU. PIU will prepare monthly progress reports on implementation of resettlement plan and submit to PMU, documenting actual achievements against targets fixed and identifying reasons for shortfalls, if any. These reports will feed into the overall monitoring reports for the TNUFIP which will be generated every quarter for the first year of implementation and bi-annually thereafter. Details to be covered under internal monitoring are elaborated in resettlement framework.

SAFETY MEASURES FOR PIPELAYING-SAMPLE TEMPLATE

Type of Road	Average Width (m)	Max. Pipe Dia (mm)	Max. width of Actual Excavation (mm)	Method of Excavation	Working Width from One Edge (m)	Length of Single Working Stretch (m)	Method of Traffic Management	Remarks
Bituminous	5	300	700	Mechanical (mini digger)	2	200	Flagmen at both ends plus no parking sign for 100m on either end	Night time working may be opted at busy sections with prior permission, stake holder consultation and noise control measures.
	6	-do-	-do-	-do-	-do-	-do-	-do-	-do-
	7.5	-do-	-do-	-do-	-do-	-do-	-do-	-do-
Concrete	2	100	250	Manual	0.5	50	Flagmen at both ends. Only pedestrian traffic will be allowed.	-do-
	3	100	250	Manual	1	50	-do-	-do-
	4	150	350	Manual	1	100	Flagmen at both ends. Pedestrian traffic can be allowed during works. Vehicles will be allowed after day's work by covering the trench with steel plates.	-do-
	5	150	350	Mechanical	2	200	Flagmen at both ends plus no parking sign for 100m on either end	-do-
	6	200	500	Mechanical	2	200	-do-	-do-
Tiles	2	50	150	Manual	0.5	50	Flagmen at both ends. Only pedestrian traffic will be allowed.	-do-
	3	100	250	Manual	0.5	50	-do-	-do-
Earthen road	1	50	150	Manual	0.5	50	Controlled by general operative. Only pedestrian traffic will be allowed.	
	2	50	150	Manual	0.5	50	-do-	

Notes:

- (i) Works will be carried out with due intimation to ULB/ PWD and after stakeholder consultations.
- (ii) All service providers (electricity, telecom, OFC, cable TV, gas etc.) shall be notified and consulted well in advance to identify bottlenecks and possible solutions.
- (iii) Reinstatement will be carried out in two phases – temporary and final.
- (iv) Special festival, business (local bazar) etc. days will be strictly followed and works causing disturbance will not be carried out on those days.

- (v) No drainage channel shall be disturbed/stopped during construction works. Any drain affected by construction works shall be set right as early as possible and definitely before onset of monsoon.
- (vi) The pedestrian area shall be always kept free from debris/trip hazard.
- (vii) Environmental Management Plan (EMP) shall be strictly followed for all works and also dealing with any asbestos cement pipes.
- (viii) Land contamination, if encountered, shall be immediately brought to the notice of the PIU/PMU and remedial measures shall be taken as advised. Disposal of contaminated earth shall be as advised by the PIU/PMU experts.
- (ix) Night time work, if any, shall be carried out after due authorization with adequate safety and security measures. Acoustic hood shall be used on equipment to reduce noise pollution.
