

# Regional: Supporting the Implementation of ADB’s Climate Change Operational Framework 2017–2030 - Establishing Mechanisms to Measure, Monitor, and Report on Commitments made under the Paris Agreement (Subproject 3)

Project Name	Supporting the Implementation of ADB’s Climate Change Operational Framework 2017–2030 - Establishing Mechanisms to Measure, Monitor, and Report on Commitments made under the Paris Agreement (Subproject 3)					
Project Number	52004-005					
Country	Regional					
Project Status	Approved					
Project Type / Modality of Assistance	Technical Assistance					
Source of Funding / Amount	<table border="1"> <tr> <td>TA 9720-REG: Supporting the Implementation of ADB's Climate Change Operational Framework 2017 2030 - Establishing Mechanisms to Measure, Monitor, and Report on Commitments made under the Paris Agreement (Subproject 3)</td> <td></td> </tr> <tr> <td>Technical Assistance Special Fund</td> <td>US\$ 750,000.00</td> </tr> </table>		TA 9720-REG: Supporting the Implementation of ADB's Climate Change Operational Framework 2017 2030 - Establishing Mechanisms to Measure, Monitor, and Report on Commitments made under the Paris Agreement (Subproject 3)		Technical Assistance Special Fund	US\$ 750,000.00
TA 9720-REG: Supporting the Implementation of ADB's Climate Change Operational Framework 2017 2030 - Establishing Mechanisms to Measure, Monitor, and Report on Commitments made under the Paris Agreement (Subproject 3)						
Technical Assistance Special Fund	US\$ 750,000.00					
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth Regional integration					
Drivers of Change	Governance and capacity development Knowledge solutions					
Sector / Subsector	Agriculture, natural resources and rural development - Agricultural policy, institutional and capacity development Energy - Energy sector development and institutional reform Public sector management - Public administration Transport - Transport policies and institutional development Water and other urban infrastructure and services - Urban policy, institutional and capacity development					
Gender Equity and Mainstreaming	Some gender elements					
Description	KSTA Cluster Subproject 3 will support establishment of mechanisms to measure, monitor, and report on commitments made under the Paris Agreement. Expected outputs under the subproject includes: (i) results framework approach and indicators in line with DMC nationally determined contributions (NDC) developed; (ii) DMC knowledge and skills on monitoring and evaluation of NDCs strengthened, and (iii) baseline indicators and monitoring tools under the CCOF2030 developed.					
Project Rationale and Linkage to Country/Regional Strategy	<p>The Climate Change Operational Framework 2017-2030: Enhanced Actions for Low Greenhouse Gas Emissions and Climate-Resilient Development (CCOF2030), approved by the President on 4 July 2017, is intended to provide broad direction and guidance for enhancing resilience and strengthening climate actions in ADB's operations and business processes including country partnership strategies, country operations business plans, sector and thematic strategies, developing member country (DMC) programs and projects, technical assistance, and knowledge support; in accordance with the goal to deliver stronger, better and faster support to its DMCs as "One ADB".</p> <p>CCOF2030 will be implemented through an action agenda consisting of two operational phases, the first of which, Phase 1 (2017-2023), will support an acceleration in climate change investments and serve as a learning opportunity as ADB scales up climate finance to meet the \$6 billion target by 2020. Phase 2, from 2024-2030, will position ADB to further scale up its assistance in line with lessons learned in Phase 1 while being guided by the second generation of Nationally Determined Contributions (NDCs) and increasingly ambitious DMC climate action.</p> <p>The knowledge and support technical assistance (TA) cluster on Supporting the Implementation of ADB's Climate Change Operational Framework 2017 2030 (CCOF2030) was approved by the President on 7 December 2018. The TA cluster will help boost the capacity of developing member countries (DMCs) for meeting their climate objectives by (i) assisting in refining and translating nationally determined contributions (NDCs) into climate investment plans, which may be implemented with assistance from the Asian Development Bank (ADB); (ii) improving DMCs' access to external public and private climate finance, including support for innovative financing mechanisms; and (iii) developing methods and approaches to establish baselines and monitoring tools for indicators to measure and gauge DMC progress on climate actions and ADB's contribution to these actions. The TA cluster is strongly aligned with Strategy 2030, which highlights tackling climate change, building climate and disaster resilience and enhancing environmental sustainability as one of ADB's operational priorities, i.e., operational priority 3.</p>					
Impact	Low carbon development and climate resilience in Asia and the Pacific enhanced (Climate Change Operational Framework 2017 2030)					
<b>Project Outcome</b>						
Description of Outcome	Capacities of selected DMCs to implement NDCs enhanced					
Progress Toward Outcome						
<b>Implementation Progress</b>						
Description of Project Outputs	Results framework approach and indicators in line with DMC NDCs developed DMC knowledge and skills on monitoring and evaluation of NDCs strengthened Baseline indicators and monitoring tools under the CCOF2030 developed					
Status of Implementation Progress (Outputs, Activities, and Issues)						

## Summary of Environmental and Social Aspects

Environmental Aspects

Involuntary Resettlement

Indigenous Peoples

Stakeholder Communication, Participation, and Consultation

During Project Design

During Project Implementation

## Business Opportunities

**Consulting Services** The TA subproject will engage 24 person-months of international inputs (monitoring, review and verification specialist, results framework specialist and sector specialists) in the field of public policy, monitoring and evaluation, energy, transport, climate change, engineering and economics; and 48 person-months of national inputs (econometric modeling specialist, database management specialist, senior analyst and coordinator, and senior country researchers) in the field of climate change/environmental/ policy, economics, and other social science. ADB will engage consultants using individual consultant selection method, as the TA subproject requires a mix of expertise covering various sectors, finding a firm that carries all expertise may be difficult and can cause unnecessary delays; and following the ADB Procurement Policy (2017, as amended from time to time) and its associated project administration instructions and/or staff instructions. Selected reports will be published as knowledge products in English and the local language, as needed, with limited print copies prepared and disseminated to training and/or workshop participants from DMCS.

Responsible ADB Officer	Javier, Esmyra P.
Responsible ADB Department	Sustainable Development and Climate Change Department
Responsible ADB Division	SDCD
Executing Agencies	Asian Development Bank 6 ADB Avenue, Mandaluyong City 1550, Philippines
