

Bangladesh: Khulna Sewerage System Development Project

Project Name	Khulna Sewerage System Development Project	
Project Number	49329-007	
Country	Bangladesh	
Project Status	Proposed	
Project Type / Modality of Assistance	Loan	
Source of Funding / Amount	Loan: Khulna Sewerage System Development Project	
	Ordinary capital resources	US\$ 50.00 million
	concessional ordinary capital resources lending / Asian Development Fund	US\$ 110.00 million
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth	
Drivers of Change	Governance and capacity development Knowledge solutions Partnerships Private sector development	
Sector / Subsector	Water and other urban infrastructure and services - Urban sanitation - Urban sewerage	
Gender Equity and Mainstreaming	Effective gender mainstreaming	
Description	The project will focus on establishing a sustainable and inclusive sanitation system in Khulna, that includes sewer networks, STPs, and FSM facilities, covering the commercial and the densely populated residential areas that contain around one million people. The project will also build the capacity of KWASA in planning, implementation, and O&M of sewerage system. The project will have an immediate positive impact on the city's environment, enhance its climate resilience by increasing sewage treatment capacity, provide sanitation solutions for residents in LICs where a piped sewer network is not feasible, and open the door to the possibility of forging future partnership with private sector.	
Project Rationale and Linkage to Country/Regional Strategy	The proposed Khulna Sewerage System Development Project (KSSDP) will establish a sustainable and inclusive sanitation system in Khulna, the third largest city in Bangladesh, to contribute to planned urbanization for growth and equity under Perspective Plan of Bangladesh 2010 2021: Making Vision 2021 a Reality. The project will complement past and ongoing efforts of the Government of Bangladesh for creating a cleaner environment, improving climate change resilience, and advancing institutional reforms under various national development programs.	
Impact	Basic needs of the people ensured in a sustainable manner without damaging the environment	
Outcome	Management and sustainability of sewerage services in Khulna city improved	
Outputs	Climate resilient centralized and organized sewerage system for Khulna city established Institutional capacity of KWASA in delivering sustainable sewerage services strengthened	
Geographical Location	Khulna
