Description	<p>Activity 2 will support ADBs ongoing Naryn Rural Water Supply and Sanitation Development Program (the Naryn Program), which uses the results-based lending (RBL) modality, in the following areas: (i) component 1: recruitment of the independent verification agent (IVA) for the Naryn Program to validate the disbursement linked indicators (DLIs), and (ii) component 2: capacity development of the Naryn Programs executing and implementing agencies to support the overall program implementation and to achieve the program results framework. A consulting firm will be recruited for the IVA, while individual consultants will be engaged for the component 2 (implementation support to the Naryn Program). Activity 2 will also finance the consulting services of an independent external auditor to carry out the Naryn Program audit.</p> <p>The proposed SEFF subgrant will allow the government to ring-fence resources for strategic service improvements and increase the likelihood to achieve the Naryn Program DLIs, including the financing of the IVA for the Naryn Programs results.</p>	
Project Rationale and Linkage to Country/Regional Strategy	ADB is expected to improve Naryn Program performance as it will finance additional program implementation services to support Naryn Program systems and processes, promote implementation efficiency, and a greater focus on achieving results (e.g., access to water supply and sanitation services increased) by financing IVA of the Naryn Programs results.
