

## Project Summary Information

Date of Document Preparation: December 8, 2023

<b>Project Name</b>	Actis Asia Climate Transition Fund
<b>Project Number</b>	P000809
<b>AIIB member</b>	Multicountry
<b>Sector/Subsector</b>	Multi-sector
<b>Alignment with AIIB's thematic priorities</b>	Green infrastructure; Private Capital Mobilization; Technology-enabled infrastructure
<b>Status of Financing</b>	Under Preparation
<b>Objective</b>	The Project Objective is to promote the reduction of greenhouse-gas emissions as a path to net zero by investing in renewable energy infrastructure, energy solutions and sustainable transportation in Emerging Asia.
<b>Project Description</b>	<p>The Project is proposing an equity investment of USD75 million into the Actis Asia Climate Transition Fund (AACT, the Fund) plus a co-investment sleeve up to USD25 million alongside the Fund. The Fund targets a fund size of USD1.0 billion and final close by Q1 2024. The Fund will be managed by Actis GP LLP (Actis).</p> <p>The Fund is characterized by strong strategic alignment with AIIB's Corporate Strategy and Thematic Priorities supported by Actis' solid investment track record in emerging markets. Leveraging Actis' sectoral expertise in energy and sustainable infrastructure, the Fund mainly targets making investments that align with climate transition themes in the following sub-sectors including (i) renewable energy infrastructure, (ii) energy solutions and (iii) sustainable transportation, via controlling or significant minority stakes. The Fund will also include measures to close gender gaps by improving women's access to employment, entrepreneurial opportunities, and leadership positions in portfolio companies and their value chains. Geographically, the Fund's investment strategy mainly targets opportunities in Emerging Asia, primarily in Southeast Asia and India.</p>

	The Fund is Sustainable Finance Disclosure Regulation (SFDR) Article 9 <sup>1</sup> classified with objectives of materially reducing greenhouse gas emissions on its investments.
<b>Expected Results</b>	<p>Project result indicators include:</p> <ul style="list-style-type: none"> <li>• Percentage of the Fund's total committed capital is climate finance by 2029</li> <li>• tCO2 emission avoided annually by AACT Portfolio Companies by 2030</li> <li>• Actis' portfolio companies' board approved Net Zero plan within 24 months of Actis' investment by end of Fund Term</li> <li>• Actis adopts one diversity and inclusion policy by 2025</li> <li>• Renewable energy capacity installed by AACT Portfolio Companies (MW)</li> <li>• Percentage of the Fund's investments are evaluated using a gender equality scorecard by 2029</li> <li>• Percentage of the Fund's investments are provided with at least 2 recommendations that seek to advance gender equality by 2029</li> </ul>
<b>Environmental and Social Category</b>	FI
<b>Environmental and Social Information</b>	<p>The Bank's Environmental and Social Policy (ESP), including the Environmental and Social Exclusion List (ESEL), ESS1 Environmental and Social Assessment and Management, and ESS2 Land Acquisition and Involuntary Resettlement, applies to this project. The project is categorized FI, as the financing structure involving a fund, Actis, where AIIB delegates the Fund Manager for decision-making on the use of the Bank funds. This will include the selection, categorization, appraisal, approval, and monitoring of subprojects in accordance with AIIB's ESP requirements. The environmental and social (E&amp;S) instrument will be the Actis ESMS, enhanced as required to be consistent with AIIB's ESP.</p> <p>Actis has an ESG policy and the approach aligns with, but not limited to, the UN- supported Principles for Responsible Investment (PRI), the UN Guiding Principles on Business and Human Rights, the UN Sustainable Development Goals (SDG), the IFC Operating Principles for Impact Management and Task Force on Climate-related Financial Disclosures (TCFD). As is common practice with a robust E&amp;S Management System (ESMS), the Actis ESMS will include an enhanced ESG Policy designed to (i) screen sub-projects against exclusion list, (ii) assign an E&amp;S risk categorization, (iii) conduct E&amp;S due diligence with action plan, (iv) monitor E&amp;S risks and impacts of the sub-projects and (v) report to its management accordingly.</p>

<sup>1</sup> A Fund that has sustainable investment as its objective or a reduction in carbon emissions as its objective.

	<p>Actis targets to invest in (i) renewable energy infrastructure, (ii) energy solutions and (iii) sustainable transportation. Depending on the nature of the asset, unmitigated typical impacts could include, but not limited to, generation of solid waste, wastewater, noise, and disturbance to nearby residents, water quality impacts, ecological impacts, and local physical cultural resources. Category A subprojects are unlikely to be encountered and where they are, likely to be excluded subject to extensive due diligence. They are mostly site-specific, few if any of them are irreversible, and in most cases mitigation measures can be designed and implemented. Further to that, the ESMS details robust labor and working condition requirements which should be monitored closely by the Actis E&amp;S team and reported to AIIB as required. As an LP, the Bank has excuse rights to be excused from a particular sub-project if the subproject does not meet E&amp;S requirements of the Bank.</p> <p>Actis has established a two-tier Grievance Redress Mechanism (GRM) system, at fund level and at asset level. At fund level, the GRM is publicized on the Actis website where it is named as “Complaints Redress Mechanism” (CRM). At asset level, the Actis ESMS has provision for complaints / grievances and the Fund Manager should monitor the performance and applicability of these GRM’s. Further, as part of the funds E&amp;S Due Diligence process, a robust review of the assets GRM at project level will be undertaken. The information of established GRM (CRM) and the Project-affected People’s Mechanism (PPM) of the Bank will be timely disclosed in an appropriate manner.</p> <p>During project implementation, AIIB will require the submission of a project appraisal form, relevant E&amp;S documentation, and annual E&amp;S monitoring reports from the Fund and a summary of the E&amp;S performance of each subproject. AIIB will conduct post-reviews of the selection and implementation of subprojects as part of its regular supervision, comprising engagement with the Fund, potential site visits and detailed review of the E&amp;S documentation of selected sub-projects.</p>		
<b>AIIB Commitment</b>	The Project is proposing USD75 million investment into Actis Asia Climate Transition Fund plus a co-investment sleeve up to USD25 million.

<b>Independent Accountability Mechanism</b>	<p>The Policy on the Project-affected People’s Mechanism (PPM) will apply to this project. The PPM has been established by the Bank to provide an opportunity for an independent and impartial review of submissions from project-affected people who believe they have been or are likely to be adversely affected by AIIB’s failure to implement its ESP in situations when their concerns cannot be addressed satisfactorily through the project-level GRM or the processes of the Bank’s Management. Information about the PPM is available at <a href="#">Policy on the Project-affected People’s Mechanism – Operational Policies and Directives – AIIB</a>.</p>
