1. Executive Summary

The project for package No. ICB2.7 is prepared as part of a new project titled – Dhaka Environmentally Sustainable Water supply Project (DESWSP), implemented similarly as contracts under DWSSDP. Dhaka Environmentally Sustainable Water Supply Project (DESWSP) has been implementing activities in an around 16 District Metering Areas (DMAs) to improve water supply network in Dhaka City.

The activities broadly include i) rehabilitation or replacement of 376 km distribution pipeline of diameters varies from 150-500 mm and ii) rehabilitation of approximately 32000 house connections including meters for serving more than 12 million population. iii) Resettlement of project affected people caused from implementation of this project activity in accordance with ADB policy and national rules and legislations.

The Resettlement activities are being implemented under International Contract Bidding (ICB) packages 2.7 through one Non-government Organization (NGO) (Samahar) since February 2015.

There is no land acquisition under the proposed package. The main resettlement impact is the potential reduction in the income of shops and other businesses if the presence of trenches, excavated soil, and machinery make access difficult for customers.

Issues of involuntary resettlement will be addressed according to national legislation (Government of Bangladesh Acquisition of immovable Property Ordinance, 1982), and ADB Safeguard Policy Statement (SPS), 2009, and DWASA Policy (Resettlement Policy Framework, 2013). A Resettlement Framework (RF) was developed for DESWSP to provide the mechanism through which the EA will prepare Resettlement Plans (RP) for each Hydraulic area in the detailed design stage.

Update Status during Reporting Period (January- June 2016)

ICB 02.7, 603 : A total number 8 (Eight) APs identified in DMA 603

ICB 02.7, 604: A total number 16 (Sixteen) APs identified in DMA 604

ICB 02.7, 606 : A total number 48 (Forty Eight) APs identified in DMA 606

ICB 02.7,609 : A total number of 26 (Twenty six) APs identified in DMA 609

ICB 02.7, 612 : A total number of 8 (Eight) APs identified in DMA 612

DMA	MODS Zone	Submitted RP	Total Affected Person	Persons compensated	Amount compensated earlier (BDT)	Amount compensated During January to June 2016 (BDT)	Remarks

The partner NGO SAMAHAR is working on resettlement issues in 02.7.

2. Major Positive & Negative issues

Positive issues:

- Increased awareness among communities regarding project activities and benefit.
- Increased community support and cooperation
- Reduced suffering of the community people during physical work as much as possible.
- Paid compensation to APs ahead of physical work.
- Increased cooperation and coordination between physical resettlement works plan and implementation

Negative issues

- Water supply quantity and quality will be hampered during physical work in some places and
- Communication in the localities hampered during physical work

3. Background of the Report and Project Description

This semi-annual report covers period of January to June 2016 and prepared on the designed ADB Social Safeguard Monitoring reporting structure. Among other Resettlement activities, the report is restricted describing information on identification of APs and their compensation payment status since inception.

The project, DESWSP provides services to improve quality water supply, water pressure in the pipe lines, cost recovery, reduce water loss and gradual ground water depleting in Dhaka city. The Project is refurbishing existing water supply networks to repair leaks, increase capacity and pressure, remove illegal connections and provide a new system of metering to streamline leak detection and control and Aid cost recovery; Rehabilitation and reconstruction of the water supply system under the project are likely to have impacts (permanent and temporary) to the dwellers in the project sites.

Involuntary Resettlement impact that anywhere occurs from this project is and will be addressed according to ADB policy and national legislation. GoB Acquisition and Requisition of Immovable property Ordinance 1983, ADB policy on Involuntary Resettlement 1995 and the DWASA Resettlement Policy Framework, 2006 are the subject of the RPs, covering ICB 02.7 package.

4. Social Safeguard Impacts

ADB's Policy on Involuntary Resettlement was adopted in 1995 and became operational in January 1996 which has been followed in this project. The Policy requires involuntary Resettlement be and integral part of project design and dealt with from the earliest stages of the project cycle.

The Policy aims to:

- To avoid involuntary resettlement wherever possible
- To minimize involuntary resettlement by exploring project and design alternatives
- To enhance, or at least restore, the livelihoods of all displaced persons in real terms relative to pre-project levels; and
- To improve the standards of living of the displaced poor and other vulnerable groups

During the reporting period January to June 2016, physical activities have been done in DMA 602,603,604 and 606. During implementing the physical activities, if any existing utility services damage, respective contractors repair those damages by their own initiatives and/or by respective departments.

Table 1: Summary of Identified Impacts of DMAs

Reporting period (Jan. to June 2016)	
	Mitigation Action – Compensation Made
Permanent Impact	
Land Acquisition Ha	N/A
Community Resources	Disconnected under ground telephone lines, some water supply lines, which will be repair by the contractors immediately
Affected Person	
Vulnerable APs	N/A
Temporary Impact	N/A
Affected Shops	None
Owners-Shopkeepers	None
Tenants-Shopkeepers	None
Vulnerable Hawkers	None
Affected APs	71
Socio-economic Data (Estimated)	BD (Tk.1,63,250)

5. Scope of Monitoring

5.1 Internal Monitoring

The Resettlement activities in the project are being implemented in accordance with the ADB Resettlement Framework. The project management with the support from the assigned NGOs prepared work plan specifying targets on month basis. The Resettlement workers of the assigned NGOs with help of community people implements activities in the respective DMAs under the guidance and supervision of team leaders and supervisors.

The progress monitoring reports are being prepared by the NGO in every month. The monthly monitoring report covers broadly progress, problems solutions and lessons learned along with work plan for next month.

PMU and MSC checks and validates progress mentioned in the monthly reports or Resettlement plans through physical verification, wherever necessary, Based on NGO reports the project management unit with the assistance of MSC prepares quarterly and semi-annual reports as ADB social safeguard monitoring reporting structure.

5.2 External Monitoring

Not yet conducted external monitoring

6. Scope of Impacts

The Project Resettlement Impacts will be observed in roads where new pipes will be installed. The nature and extent of Resettlement Impacts will be assessed through conducting field survey in all roads, lanes and sub-lanes under all DMAs. Prescribed tools used to record Resettlement Impacts and socio-economic information, which include:

- i. Numbers and types of ownership of affected shops and other business;
- ii. Average business incomes, rent paid by tenants and numbers of employees;
- iii. Numbers and types of affected hawkers, average daily incomes and any rent paid;
- iv. Numbers and types of affected structures (including common property and resources) and replacement costs: and
- v. Any other Resettlement Impacts.

The following Tables show status of identified APs and compensation payment status January-June, 2016.

ICB-02.7 DMA no. 3, Zone 6

DMA	MODS Zone	Submitted RP	Total Affected Person	Persons compensated	Amount compensated earlier (BDT)	Amount compensated During-Jan.-June,16 (BDT)	Remarks
603	6	Yes	8	8	No	16, 500

609	6	Yes	26	Not yet done	Not yet done	Not yet done	

ICB-02.7, DMA 12, Zone 6

DMA	MODS Zone	Submitted RP	Total Affected Person	Persons compensated	Amount compensated earlier (BDT)	Amount compensated During- Jan.- June. 16 (BDT)	Remarks
612	6	Yes	8	Not yet done	Not yet done	Not yet done	

Identification of APs: APs will receive compensations for business and income losses, also assistance for relocation of their business cause by project implementation. NGO surveyed all roads of the respective **DMAs** where physical work will be implemented. They have assessed compensation amount for APs in roads which will be blocked temporarily for 5 days.

7. Institutional Arrangement and Capacity**7.1 Institutional Arrangement**

1. Dhaka Water Supply and Sewerage Authority (DWASA) is both for Executing Agency (EA) and Implementation Agency (IA) for implementation of the project. A Project Management Unit (PMU) has been established with a Safeguard Implementation Unit (SIU) with a staff of Social and Gender Development Officer. The SIU Social and Gender Development Officer assisted by the Resettlement Expert of MSC will oversee the implementation of involuntary resettlement safeguard work under the project with support of the resettlement NGO SAMAHAR. The other staff responsible for looking the safeguard issue of the project include: one Executive Engineers, two Assistant Engineers and two Sub-assistant Engineers. The Project Director and two Deputy Project Directors and one Senior Water Supply Engineer administer the overall activities;
2. Consultant (MSC): The Resettlement Expert and Social and Gender Expert are responsible for taking care of the Resettlement work of all pipeline rehabilitation contracts ICB 02.7. One Contract Management Expert, three Assistant Residential Engineers (ARE) and six Sub-Assistant Residential Engineers (SARE) working for supervision and quality control of physical construction/implementation work and also cooperate with the Resettlement team for Resettlement activities. The engaged NGO staff works in close cooperation with CME's team and takes care to solve day to day problems of disturbed/ disrupted/affected people within the ongoing construction areas.
3. NGO; The Resettlement NGO consists of 9 members team is assigned for pipeline installation rehabilitation contract/package 2.7. The NGO is responsible for ensuring all the required field work and training associated with the resettlement work. The NGO is working in close coordination with DWASA PMU for public awareness campaign to ensure dissemination of key message that are Gender sensitive, in a format easily understood by resident of the project area, possible implementation schedule, possible disruptions, Grievance Redress Procedure The NGO will generate awareness about employment opportunity, entitlements, compensation etc. The NGO assist DWASA and LIC to provide water connection through formation of CBO (Community Based Organisation)
4. The engineering design continues for implementation of pipeline, house connection & other civil works continued for the contracts ICB 2.7. During implementation, the NGO staff discussed the implementation issues with the local people, affected persons and various organizations including schools, mosques, kitchen markets, shopping malls or other important places where to the rickshaws, dependent women and children for ensuring their easy movement to the area during implementation of the project work.

5. Issues discussed/message disseminated: During time/ period of physical work execution in particular road, ensuring uninterrupted water supply/alternative supply for interrupted consumers, keeping road accessible/ensuring alternative traffic arrangement, disconnection oil legal connections, legalization of illegal connections and compensation payment to APs.
6. A transparent, fair and effective complaint procedure has been established by the NGOs to the potential APs and the concerned residents who may be affected by construction, through distributing leaflets and leaving contact cell phone number of Executive Engineer of PMU/PCU, Resettlement Expert of MSC, NGO officials and contractor's assigned persons Site Engineers of Contractors office address etc.

7.2 Compensation and Rehabilitation:

Compensation payment to the all identified APs in the reporting period (Jan.- June 2016) has been made.

7.3 Disclosure and public consultation:

A series of public discussion and public disclosure meeting organized by NGO SAMAHAR, in DMA, 603 604, 606, 609 and 612. The meeting details, signature sheet and photographs are attached in Appendix-III and IV.

7.4 Monitoring Results- Findings

NGOs followed a standard system of reporting as required from them.

7.5 Grievance Redress Mechanism (GRC)

Dhaka WASA has established GRC. On the other hand the NGO SAMAHAR formed GRC for each DMAs. During the reporting period (Jan.-June 2016) no complaint was received from the affected persons.

7.6 Compliance Status

Approval No	Category						
	Sector	Social	Financial	Economic	Others	Safeguard	
ADB Loan No.3051 BAN							

Note: Satisfactory – all covenants in the category are being completed.

8. Follow up Actions, Recommendations and Disclosure

The following actions need to be taken;

- a. More intensive supervision of safeguard activities at the field level from the Dhaka WASA side.

9. Required Action to be Monitored and Reported During the Next Monitoring Report

In the next monitoring period the followings have to be monitored and reported:

- a. RP preparation for all other DMAs where work will start
- b. Ensuring compensation of APs before implementation of work
- c. Obtaining approval of RPs from the ADB
- d. Ensuring alternative water supply to the households where connection would be disrupted during implementation by the contractor, and
- e. Monitoring removal of excavated earth from the road.

Payment Received by the Affected Persons (DMA-603, 604 and 606) under Resettlement Works

1. ADB Loan No-3051 BAN (SF)
2. Name of Services: NGO for Resettlement in the Area of ICB 02.7
3. Name of NGO: Shamahar

Information of Discloser, Consultation and Participation

Public Consultation

Conducting public disclosure meetings at key stages have been done to inform the public regarding the progress and future plans and to provide copies of Summary Resettlement Plans in Bangla. During detailed design conducted Focus Group Discussions (FGD) together with the MSC Resettlement Specialist with stakeholders and public meetings (large and small-scale) to discuss and plan construction work with individual communities to reduce disturbance and other impacts and provide a mechanism through which stakeholders can participate in project monitoring and evaluation. Ensuring the views of women and vulnerable groups are equally represented in project committees and other decision making bodies. Resettlement impact was assessed by conducting a reconnaissance and house connection survey in all roads of DMA 603,604,606,609 and 612. The NGO SAMAHAR collected data on: numbers, types and ownership of affected shops and other business; incomes, rent paid by tenants, and numbers of employees; numbers of types of affected hawkers, average income and any rent paid; numbers of types of affected structures (including common property resources) and replacement costs; any other resettlement impacts. Details of consultation, the key issues raised and their incorporation in the project and resettlement plan is presented in Appendixes II.

10. Appendixes

- i . List of Affected Persons and Entitlements
- i i . Public consultations details.
- i i i . Summary of minutes of disclosure meetings in each DMA with signature sheet.
- i v . Photographs of the affected areas, consultation meetings, reconstruction activities, etc.
- v . Copies of AP's certification of payment (signed by the AP's)
- vi . Safeguards Compliance Monitoring Form & Checklist Safeguards Review Mission

Grievance Redress incorporated in the RP based on the discussion.

Appendix–III
Minutes of Project Information Disclosure Meeting
Dhaka Environmentally Sustainable Water Supply (DESWSP)
Resettlement Intervention in the area of ICB-02.7
DMA – 603

Name of Meeting: Project Information Disclosure Meeting

Date: 03/01/2016

Venue: Bhuiyapara WASA Pump # 01

Time: 11.00am

Introduction: Project Information Disclosure Meeting is a part of Resettlement Plan. On 3 January 2016 a meeting was held at the WASA Pump house # 1 Bhuyapara. Representative of Civil Society, Retired Officials, Professionals, Local Elite, Businessman, HH Members, Contractor Personnel and the NGO representative were present in the meeting. The following agenda were discussed in that meeting.

Agenda:

1. Disclosing Project Information.
2. Open Discussion – Question & Answer.
3. Opinion of the participants
4. AOB

1. **Disclosing Project Information:** The Resettlement NGO SAMAHAR organized the meeting with the Representatives of Civil Society, Local Elite Retired Officials, Professionals and & HH Members in presence of Contractors & NGO Representatives. The main objective of the meeting was to share the resettlement plan among the People of the DMA. Another objective of the meeting is, seeking support and assistance from the community to avoid difficulties during construction period and to minimize inconvenience of the residents, Businessman & the Hawker/Vendor and Shopkeepers. The Resettlement Team shared the resettlement plan while the site managers of contractor discussed the technical terms and conditions.

a) Background: Dhaka, the capital of Bangladesh is facing shortage of water supply and demand is increasing day by day. Dhaka WASA is preparing Dhaka Environmentally Sustainable Water Supply Project (DESWSP) to supply treated surface water, collected from the river Meghna, to Dhaka city dwellers through the construction of Gandharbpur Water Treatment Plant Project (GWTPP). The project also includes distribution reinforcement and network improvements to reduce non-revenue water (NRW for safe water and support to low income communities (LICs). With financial assistance from ADB, AFD and EIB, this project aims to reduce abstraction of ground water amounting 150 million liter per day (MLM).

b) Project Description: The main project components are : (a) Water intake facility at Arai-hajar Upazilla; (b) Raw water transmission pipe (4 pipes with diameter 2,200 mm) for a total of length of 17.5 km from intake to Sejan Juice ; (c) Raw water transmission pipe (2 pipes with diameter 2,200 mm) for a total of length 4.5km from Sejan Juice to Gandharbpur; (d) Water Treatment Plant (WTP) at Gandharbpur ; (e) Treated water transmission pipe (2 pipes with diameter 2,200 mm) for a total length of about 14.2 km from WTP to Vitara Baridhara; and (f) distribution reinforcement and rehabilitation networks i Dhaka City areas (Provide the project locations)

c) Resettlement Plan, Policy and Principals: A Resettlement Plan (RP) has been prepared for the project based on ADB's Safeguard Policy Statement 2009 and Government of Bangladesh (GOB) Acquisition and Requisition of Immovable Property Ordinance 1982 (APIRO).

d) Involuntary Resettlement Impact: No land requisition will be required for the water supply distribution reinforcement and networks. The impact in these components will be limited to temporary distribution during civil works to vendors and hawkers in the project areas.

- e) **Entitlement:** The project provides for compensation of all potential losses including potential income losses for vendors at replacement value. As required by ADB Safeguards Policy (2009) the project will provide compensation and resettlement assistance for households' lost land, business, structures and other lost assets in connection with the project. The RP approach incorporates (i) compensation for lost assets; (ii) resettlement issues; (iii) impact mitigation with special attention to the women and vulnerable groups; and (iv) income generating support to the members of the physically displaced households and including them in the poverty reduction and livelihood enhancement program.
- f) **Institutional Arrangement:** DWASA has established, for the Project, a PMU headed by a PD, who will be responsible for the overall execution of the Project. The PMU will be supported with an experienced NGO for the implementation of resettlement activities which include livelihood rehabilitation. DWASA will implement the RP through setting a Safeguard Implementation (SIU) headed by DPD at the DESWSP PMU. The SIU, under the overall responsibility of the PD, will undertake day-to-day activities with the appointed NGO. The concerned Safeguards Officer at the level of AE of SIU, appointed by PIU will be convener of the JVC and PVAC. The DPD of SIU will perform as convener of GRC and RAC. The resettlement assistance NGO will assist APs to put forth grievances and access information on opportunities for employment in project related activities, rights and entitlements and the grievance redress process, and make informed choices.

g) **Grievance Redress Mechanism:**

To resolve all project related grievance and complaints a common social and environmental grievance redress mechanism is in place. Common and simple grievances will be sorted out at project site level by the Contractor's Resettlement Supervisor, supervision staff of PMU and project NGO within 7 days. More serious complaints will be sent to the safeguard officer at the PMU to be resolved in 14 days. Any unresolved grievances will be forwarded to the Grievance Redress Committee GRC. Complaints and grievances which are not addressed by Grievance Redress committee (GRC) within 30 days will be sent to the Program Steering Committee (SC) to be resolved within 7 days. Despite the project GRM, an aggrieved person shall have access to the country's legal system at any stage.

2. **Open Discussion – Question & Answer:** An open discussion session was held in the meeting. The participants of the meeting raised some queries which were very interactive. Participants raised queries that are when the construction work will be started? Who will pay the meter & pipe cost? Does the water pressure of main road and feeder road remain same? If the bill prepared with mistake then how could be it corrected? What are the sources of water? Are there any scopes to change the pipe? The site manager and the engineer of the contractor answered all the questions. The NGO Representative informed that there's a telephone no incorporated to complain in the leaflet if anybody face any trouble or difficulties or to communicate with NGO SAMAHAR at Banosree Office, Road # 14, Block # L, House # 02.
3. **Opinion of the participants:** The participants were asked to show their interest and opinion of the new system of the project. The participants said that they are very hopeful of the new piped water supply if they can avail water round 24 hours with pressure. The engineer added in this context that there is no opportunity to take illegal connection and this is why the pressure of the piped water will be exists unchanged. The Engineer from RFL invites the participants to watch the piped water supply system at Gulshan area how the pressure and availability of water exists there.
4. **AOB:**As there was no more issue to discuss, the Ward Commissioner of this DMA closed the meeting with vote of Thanks.

Minutes of Project Information Disclosure Meeting
DMA – 604

Name of Meeting: Project Information Disclosure Meeting

Date: 05/12/2015

Venue: Office of the South Banosree Plot Owner Welfare Samitee.

Time: 4.30 pm

Introduction: In 5 December 2015 a meeting on Project Information Disclosure was held at the Office of the South Banosree Plot Owner Welfare Samitee. Representative of Civil Society, Member of the Welfare Samitee, Local Elite, Plot Owner, HH Members, Contractor Personnel and the NGO representative were present in the meeting. The following agenda were discussed in that meeting.

Agenda:

1. Disclosing Project Information.
2. Open Discussion – Question & Answer.
3. Opinion of the participants
4. AOB

1. **Disclosing Project Information:** The Resettlement NGO SAMAHAR organized the meeting with the Representatives of Civil Society, Member of the Welfare Samitee, Local Elite and Plot Owner & HH Members in presence of Contractors Representatives. The main objective of the meeting is to share the resettlement plan among the residents of the DMA. Another objective of the meeting is seeking support and assistance from the community to avoid difficulties during construction period and to minimize inconvenience of the residents. The Resettlement Team shared the resettlement plan while the site managers of contractor discussed the technical terms and conditions.

a) Background: Dhaka, the capital of Bangladesh is facing shortage of water supply and demand is increasing day by day. Dhaka WASA is preparing Dhaka Environmentally Sustainable Water Supply Project (DESWSP) to supply treated surface water, collected from the river Meghna, to Dhaka city dwellers through the construction of Gandharbpur Water Treatment Plant Project (GWTPP). The project also includes distribution reinforcement and network improvements to reduce non-revenue water (NRW) for safe water and support to low income communities (LICs). With financial assistance from ADB, AFD and EIB, this project aims to reduce abstraction of ground water amounting 150 million liter per day (MLM).

b) Project Description: The main project components are : (a) Water intake facility at Araihaajar Upazilla; (b) Raw water transmission pipe (4 pipes with diameter 2,200 mm) for a total of length of 17.5 km from intake to Sejan Juice ; (c) Raw water transmission pipe (2 pipes with diameter 2,200 mm) for a total of length 4.5km from Sejan Juice to Gandharbpur; (d) Water Treatment Plant (WTP) at Gandharbpur ; (e) Treated water transmission pipe (2 pipes with diameter 2,200 mm) for a total length of about 14.2 km from WTP to Vitara Baridhara; and (f) distribution reinforcement and rehabilitation networks i Dhaka City areas (Provide the project locations)

c) Resettlement Plan, Policy and Principals: A Resettlement Plan (RP) has been prepared for the project based on ADB's Safeguard Policy Statement 2009 and Government of Bangladesh (GOB) Acquisition and Requisition of Immovable Property Ordinance 1982 (APIRO).

d) Involuntary Resettlement Impact: No land requisition will be required for the water supply distribution reinforcement and networks. The impact in these components will be limited to temporary distribution during civil works to vendors and hawkers in the project areas.

e) Entitlement: The project provides for compensation of all potential losses including potential income losses for vendors at replacement value. As required by ADB Safeguards Policy (2009) the project will provide compensation and resettlement assistance for households' lost land, business, structures and other lost assets in connection with the project. The RP approach incorporates (i) compensation for lost assets; (ii) resettlement issues; (iii) impact mitigation with special attention to the women and vulnerable groups; and (iv) income generating support to the members of the physically displaced households and including them in the poverty reduction and livelihood enhancement program.

f) Institutional Arrangement: DWASA has established, for the Project, a PMU headed by a PD, who will be responsible for the overall execution of the Project. The PMU will be supported with an experienced NGO for the implementation of resettlement activities which include livelihood rehabilitation. DWASA will implement the RP through setting a Safeguard Implementation (SIU) headed by DPD at the DESWSP PMU. The SIU, under the overall responsibility of the PD, will undertake day-to-day activities with the appointed NGO. The concerned Safeguards Officer at the level of AE of SIU, appointed by PIU will be convener of the JVC and PVAC. The DPD of SIU will perform as convener of GRC and RAC. The resettlement assistance NGO will assist APs to put forth grievances and access information on opportunities for employment in project related activities, rights and entitlements and the grievance redress process, and make informed choices.

g) Grievance Redress Mechanism:

To resolve all project related grievance and complaints a common social and environmental grievance redress mechanism is in place. Common and simple grievances will be sorted out at project site level by the Contractor's Resettlement Supervisor, supervision staff of PMU and project NGO within 7 days. More serious complaints will be sent to the safeguard officer at the PMU to be resolved in 14 days. Any unresolved grievances will be forwarded to the Grievance Redress Committee GRC. Complaints and grievances which are not addressed by Grievance Redress committee (GRC) within 30 days will be sent to the Program Steering Committee (SC) to be resolved within 7 days. Despite the project GRM, an aggrieved person shall have access to the country's legal system at any stage.

2. **Open Discussion – Question & Answer:** An open discussion session was held in the meeting. The participants of the meeting raised some queries which were very interactive. One of the participants raised a query how the road cutting permission has taken? The site manager and the engineer of the contractor informed that the Project has paid Eastern Housing Society for reconstruct the damaged roads because it is the valid authority giving us the permission. Another participant of the house raised a question, 'Does the pipe installation start in all roads at a time or part by part'? The Contractors men replied segment wise. Another question was raised in the house at last that if there occurred any problem then where we could communicate? The NGO Representative informed that there's a telephone no incorporated to complain in the leaflet.
3. **Opinion of the participants:** The participants were asked to show their interest and opinion of the new system of the project. The participants said that they are still in the dark because the new system is not yet established that they can see the pressure of the water with adequate supply. The engineer added in this context that there is no opportunity to take illegal connection and this is why the pressure of the piped water will be prevailed. One of the participants said that though the GRC is approved by the Govt. yet it could be better if a member of the committee could incorporate from the community.
4. **AOB:** As there was no more issue to discuss, the president of the welfare Samitee closed meeting with vote of thanks.

Appendix – III
Meeting Minutes of Project Information Disclosure Meeting
DMA – 606

Venue: Office of the Ward Commissioner DCC South Ward # 02.

Time: 11.00 am

Introduction: A meeting on Project Information Disclosure was held at the Office of Ward Commissioner DCC South Ward # 02 on 06/03/2016. Local Residents, Social Workers, Retired Officials, Professionals, Local Elite, Teachers, Businessman, Contractor Personnel and the NGO representative were present in the meeting.

Agenda:

1. Sharing on Project Information.
2. Question and Answer from the Participants.
3. Open Discussion
4. AOB

1. Sharing on Information:

- a) **Background:** Dhaka, the capital of Bangladesh is facing shortage of water supply and demand is increasing day by day. Dhaka WASA is preparing Dhaka Environmentally Sustainable Water Supply Project (DESWSP) to supply treated surface water, collected from the river Meghna, to Dhaka city dwellers through the construction of Gandharbpur Water Treatment Plant Project (GWTPP). The project also includes distribution reinforcement and network improvements to reduce non-revenue water (NRW for safe water and support to low income communities (LICs). With financial assistance from ADB, AFD and EIB, this project aims to reduce abstraction of ground water amounting 150 million liter per day (MLM).
- b) **Resettlement Plan, Policy and Principals:** A Resettlement Plan (RP) has been prepared for the project based on ADB's Safeguard Policy Statement 2009 and Government of Bangladesh (GOB) Acquisition and Requisition of Immovable Property Ordinance 1982 (APIRO).
- c) **Entitlement:** The project provides for compensation of all potential losses including potential income losses for vendors at replacement value. As required by ADB Safeguards Policy (2009) the project will provide compensation and resettlement assistance for households' lost land, business, structures and other lost assets in connection with the project. The RP approach incorporates (i) compensation for lost assets; (ii) resettlement issues; (iii) impact mitigation with special attention to the women and vulnerable groups; and (iv) income generating support to the members of the physically displaced households and including them in the poverty reduction and livelihood enhancement program.
- d) **Institutional Arrangement:** DWASA has established, for the Project, a PMU headed by a PD, who will be responsible for the overall execution of the Project. The PMU will be supported with an experienced NGO for the implementation of resettlement activities which include livelihood rehabilitation. DWASA will implement the RP through setting a Safeguard Implementation (SIU) headed by DPD at the DESWSP PMU. The SIU, under the overall responsibility of the PD, will undertake day-to-day activities with the appointed NGO. The concerned Safeguards Officer at the level of AE of SIU, appointed by PIU will be convener of the JVC and PVAC. The DPD of SIU will perform as convener of GRC and RAC. The resettlement assistance NGO will assist APs to put forth grievances and access information on opportunities for employment in project related activities, rights and entitlements and the grievance redress process, and make informed choices.

- e) **Grievance Redress Mechanism:** To resolve all project related grievance and complaints a common social and environmental grievance redress mechanism is in place. Common and simple grievances will be sorted out at project site level by the Contractor's Resettlement Supervisor, supervision staff of PMU and project NGO within 7 days. More serious complaints will be sent to the safeguard officer at the PMU to be resolved in 14 days. Any unresolved grievances will be forwarded to the Grievance Redress Committee GRC. Complaints and grievances which are not addressed by Grievance Redress committee (GRC) within 30 days will be sent to the Program Steering Committee (SC) to be resolved within 7 days. Despite the project GRM, an aggrieved person shall have access to the country's legal system at any stage.
2. **Question and Answer from the Participants.** : After sharing project information a question and answer session was conducted in the meeting. People of this area have shown their grievances on existing water supply system. They complaints that the supplied water is always dirty and unpleasant smelling (dis-odors). They asked how they could get rid of these sufferings. Site Manager RFL assured them that the new system will cover 24 hour water supply with sufficient pressure and the water of the new system is pure & safe. It doesn't need to boil for drinking purpose. One of the honorable participants has informed the contractor's representative by showing that the leaflet has shown HDD system but most roads are open cut; why? Contractor's representative said that we apply this system where the HDD machine could be set otherwise the method we apply are pipe bursting or open cut. Another Person asked how the house connection will be ensured? Contractor replied that they will establish it within 5 meters of boundary wall and the meter will be located at 14 inches deep down to plinth level. However the meeting was very fruitful and the participants were very satisfied.
3. **Opinion of the participants:** The participants were asked to show their interest and opinion of the new system of the project. The participants said that they were hopeful with the new system if the pressure of the water could remain 24 hour with availability of water supply. One ward councilor man informed that some roads are under repair and maintenance and if the pipe installation could start with this road reconstruction period then it would be a better working environment. The contractor's personnel agreed with the proposal and request to submit a priority list of the roads. The participants of the house assured that they will assist and support contractors in any issue of hindering the work.
4. **AOB:**As there was no more issue to discuss, the meeting closed with vote of thanks.

Appendix –III
Dhaka Environmentally Sustainable Water Supply (DESWSP)
Resettlement Intervention in the area of ICB-02.7
DMA – 609

Project Information Disclosure Meeting

Venue: Office of the Ward Commissioner Ward # 22 East Rampura

Time: 10.00 am

Introduction: The Resettlement NGO organized a meeting on Project Information Disclosure at Ward Commissioner Office on 09/06/2016 in DMA – 609. House Owner's, Retired Govt. Officials, Businessmen, Ward Commissioner and his Officials, Local Elites, Civil Society Personnel, Contractors Personnel and the NGO Representatives were present in the Meeting.

Agenda

1. Sharing on Project Information.
2. Queries from the Participants.
3. Opinion of the participants
4. AOB

1. Sharing on Information:

- a) **Background:** Dhaka, the capital of Bangladesh is facing shortage of water supply and demand is increasing day by day. Dhaka WASA is preparing Dhaka Environmentally Sustainable Water Supply Project (DESWSP) to supply treated surface water, collected from the river Meghna, to Dhaka city dwellers through the construction of Gandharbpur Water Treatment Plant Project (GWTPP). The project also includes distribution reinforcement and network improvements to reduce non-revenue water (NRW for safe water and support to low income communities (LICs). With financial assistance from ADB, AFD and EIB, this project aims to reduce abstraction of ground water amounting 150 million liter per day (MLM).
- b) **Resettlement Plan, Policy and Principals:** A Resettlement Plan (RP) has been prepared for the project based on ADB's Safeguard Policy Statement 2009 and Government of Bangladesh (GOB) Acquisition and Requisition of Immovable Property Ordinance 1982 (APIRO).
- c) **Entitlement:** The project provides for compensation of all potential losses including potential income losses for vendors at replacement value. As required by ADB Safeguards Policy (2009) the project will provide compensation and resettlement assistance for households' lost land, business, structures and other lost assets in connection with the project. The RP approach incorporates (i) compensation for lost assets; (ii) resettlement issues; (iii) impact mitigation with special attention to the women and vulnerable groups; and (iv) income generating support to the members of the physically displaced households and including them in the poverty reduction and livelihood enhancement program.
- d) **Institutional Arrangement:** DWASA has established, for the Project, a PMU headed by a PD, who will be responsible for the overall execution of the Project. The PMU will be supported with an experienced NGO for the implementation of resettlement activities which include livelihood rehabilitation. DWASA will implement the RP through setting a Safeguard Implementation (SIU) headed by DPD at the DESWSP PMU. The SIU, under the overall responsibility of the PD, will undertake day-to-day activities with the appointed NGO. The concerned Safeguards Officer at the level of AE of SIU, appointed by PIU will be convener of the JVC and PVAC. The DPD of SIU will perform as convener of GRC and RAC. The resettlement assistance NGO will assist APs to put forth grievances and access information on opportunities for employment in project related activities, rights and entitlements and the grievance redress process, and make informed choices.

- e) **Grievance Redress Mechanism:** To resolve all project related grievance and complaints a common social and environmental grievance redress mechanism is in place. Common and simple grievances will be sorted out at project site level by the Contractor's Resettlement Supervisor, supervision staff of PMU and project NGO within 7 days. More serious complaints will be sent to the safeguard officer at the PMU to be resolved in 14 days. Any unresolved grievances will be forwarded to the Grievance Redress Committee GRC. Complaints and grievances which are not addressed by Grievance Redress committee (GRC) within 30 days will be sent to the Program Steering Committee (SC) to be resolved within 7 days. Despite the project GRM, an aggrieved person shall have access to the country's legal system at any stage.
- f) **Queries from the Participants and Solution:** After Briefing the Project; participants were asked to show their interest or comments. They raised some question and those are as follows....
When the work will be started? What are the sources of water supply? Does it underground water or surface water? Are there any water treatment plants? Does water supply stopped during construction period? Are there any plan installing new pumps in this DMA area? Brief at least one disadvantage that can be hinder smooth working environment?

Most of the above questions are technical and this is why the Site Manager RFL (Engineer) answered the questions that are as follows:

- a) The work is scheduled to start from mid June but considering public inconvenience during the Eid-ul-Fitr one of the biggest festivals of the Muslim Community; it will be started after the holly occasion.
 - b. The existing water source is Deep Tube Well. Considering the demand of additional water which is increasing day by day; DWASA planned to depend on surface water. The main sources of surface water are the River Padma and the Meghna.
 - c. Surely there's a big water treatment plant at Sayedabad in Dhaka South City Corporation.
 - d. Water Supply will be continued during construction period because old supply lines will be remained untouched. Old pipeline will be disconnected after completion of the new construction.
 - e. DWASA planned installing pumps according to the population living in a particular area. It calculates 160 liter water per person per day. So if needed DWASA takes initiative to install a new pump.
 - f. One of the vital Pipe Installation Method is Pipe Bursting. During working in this system water supply stopped in those areas where the method is running. It's a big disadvantage in this system. DWASA ensured water supply in this area by its own water supply mechanism or inform water user earlier to preserve their water Tank.
3. **Opinion of the participants:** The participants were asked to show their interest and opinion of the new system of the project. One of the participants informed that one year ago WASA contractor dug a ditch for pipeline installation in the plan area and didn't fill the ditch after completion of the work. In the last rainy season the ditch came into full with rainwater and the house owner sucked water by motor from it and the dirty water goes into their water preserver and much people suffered with water borne diseases. He then threw a question to the Contractor Personnel's; Will the new Project Similar to the previous one? The Site Manager assured the house that no opportunities to merge waste water with this piped water. Because DWASA used PVC pipe in the past and now it is High Density Poly-phenyl Pipe.
4. **AOB:** As there was no more issue to discuss, the meeting closed with vote of thanks.

Appendix – III
Meeting Minutes of Project Information Disclosure Meeting
DMA – 612

Venue: Office of the Ward Commissioner Ward # 01/ South City Corporation

Time: 11.30 AM

Introduction: A meeting on Project Information Disclosure was held at the Office of the Ward Commissioner of Ward # 01 Khilgaon Dhaka. Secretary of Ward Commissioner, Local Elite, House Owner, Resident of the DMA Area, Contractor Personnel, Management and Supervision Consultancy (MSC) and the NGO representative were present in the meeting.

Agenda:

1. Sharing on Project Information.
2. Queries from the Participants.
3. Opinion of the participants
4. AOB

1. Sharing on Information:

- a) **Background:** Dhaka, the capital of Bangladesh is facing shortage of water supply and demand is increasing day by day. Dhaka WASA is preparing Dhaka Environmentally Sustainable Water Supply Project (DESWSP) to supply treated surface water, collected from the river Meghna, to Dhaka city dwellers through the construction of Gandharbpur Water Treatment Plant Project (GWTPP). The project also includes distribution reinforcement and network improvements to reduce non-revenue water (NRW for safe water and support to low income communities (LICs). With financial assistance from ADB, AFD and EIB, this project aims to reduce abstraction of ground water amounting 150 million liter per day (MLM).
- b) **Resettlement Plan, Policy and Principals:** A Resettlement Plan (RP) has been prepared for the project based on ADB's Safeguard Policy Statement 2009 and Government of Bangladesh (GOB) Acquisition and Requisition of Immovable Property Ordinance 1982 (APIRO).
- c) **Entitlement:** The project provides for compensation of all potential losses including potential income losses for vendors at replacement value. As required by ADB Safeguards Policy (2009) the project will provide compensation and resettlement assistance for households' lost land, business, structures and other lost assets in connection with the project. The RP approach incorporates (i) compensation for lost assets; (ii) resettlement issues; (iii) impact mitigation with special attention to the women and vulnerable groups; and (iv) income generating support to the members of the physically displaced households and including them in the poverty reduction and livelihood enhancement program.
- d) **Institutional Arrangement:** DWASA has established, for the Project, a PMU headed by a PD, who will be responsible for the overall execution of the Project. The PMU will be supported with an experienced NGO for the implementation of resettlement activities which include livelihood rehabilitation. DWASA will implement the RP through setting a Safeguard Implementation (SIU) headed by DPD at the DESWSP PMU. The SIU, under the overall responsibility of the PD, will undertake day-to-day activities with the appointed NGO. The concerned Safeguards Officer at the level of AE of SIU, appointed by PIU will be convener of the JVC and PVAC. The DPD of SIU will perform as convener of GRC and RAC. The resettlement assistance NGO will assist APs to put forth grievances and access information on opportunities for employment in project related activities, rights and entitlements and the grievance redress process, and make informed choices.
- e) **Grievance Redress Mechanism:** To resolve all project related grievance and complaints a common social and environmental grievance redress mechanism is in place. Common and simple grievances will be sorted out at project site level by the Contractor's Resettlement Supervisor, supervision staff of PMU and project NGO within 7 days. More serious complaints will be sent to the safeguard officer at the PMU to be resolved in 14 days. Any unresolved grievances will be forwarded to the Grievance Redress Committee GRC. Complaints and grievances which are not addressed by Grievance Redress committee (GRC) within 30 days will be sent to the Program

Steering Committee (SC) to be resolved within 7 days. Despite the project GRM, an aggrieved person shall have access to the country's legal system at any stage.

2. **Queries from the Participants and Solution:** During the discussion session participants of the asked some question to the project personnel. Those are:

- a) What are the pipe installation systems? Who will be responsible for repair and maintenance of the road? How many days after the new connection will be executed? How a user can get new connection? How much money to pay by the water user?

All of the questions were technical and the site manager FSL (Engineer) answered the question as follows:

- I. The Engineer replied that not system but we follow three types of method. Open cut or open trench, pipe bursting and HDD.
- II. City Corporation South is the authority for repair and maintenance of the road because this institution gives us road cutting permission.
- III. Immediate after the pipe installation and commissioning completed.
- IV. Anew User must submit an application to authority of MODs Zone – 6
- V. Project will bear all cost including materials up to users meter point and the rest work will be executed by the user.

3. **Opinion of the participants:** The participants were asked to show their interest and opinion of the new system of the project. One of the participants said in the house that the service departments always show dreams to their clients but the reality is different. We are not interested to enjoy the dream. We want safe water by 24 hours. The Engineer assured the water users that just wait and See. Another participant made a comment that better services returns best. If WASA provide their service better the result will be positive for returning handsome revenue.
4. **AOB:** A Sub Assistant Engineer discussed environmental issues in the meeting and instructed the contractor not to show any kinds of environmental hazard during open cut or pipe bursting. On the other hand MSC representative Gender Specialist discussed about Affected Persons and the Grievance redress mechanism. As there was no more issue to discuss, the meeting closed with vote of thanks.
