Responsible ADB Officer	Taneja, Anshukant		
Project Sponsor(s)			
Description	WEST JAKARTA WATER SUPPLY DEVELOPMENT PROJECT		
Objectives and Scope	PALYJA's capital expenditure program will enhance and expand water supply infrastructure in West Jakarta, with a particular focus on growing the number of low income domestic customers, and will help meet the MDG target for water supply. Furthermore, the Project is expected to lead to improved affordability of water tariffs in Jakarta.		
Status of Development Objectives	The Project continues to fulfill its development objectives to (i) meet the MDG target of reducing the population of people without access to safe drinking water and basic sanitation; and (ii) increase the number of people in West Jakarta who have access to more consistent and affordable water supply, especially the low-income households.		
Linkage to Country/Regional Strategy	The Project is in line with ADB's water sector strategy which aims to promote improvement and expansion of water delivery services; and conservation of water and improvement of system efficiencies.

Summary of Environmental and Social Aspects

Environmental Aspects	Due diligence was conducted on the environmental, safety and health aspects of PALYJA's current operations to ensure compliance with ADB's safeguard policies. On the social aspect, PALYJA has indicated its intention to avoid, if possible, land acquisition or other activities that would lead to involuntary resettlement.
Involuntary Resettlement	
Indigenous Peoples	
Stakeholder Communication, Participation, and Consultation	

Timetable for assistance design, processing and implementation
