Resettlement and Ethnic Development Plan

Project Number: 41924

June 2014

Document Stage: Final

Nam Ngiep 1 Hydropower Project (Lao People's Democratic Republic)

Annex A Part 4

Prepared by Nam Ngiep 1 Power Company Ltd. for the Asian Development Bank

The final report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. Your attention is directed to the "Terms of Use" section of this website.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the Asian Development Bank does not intend to make any judgments as to the legal or other status of any territory or area.

Main opinions from villagers (2UR)

Most of APs agree to the project development with some proposal:

<Ban Pou>

- We propose rearrangement of residential area with infrastructure.
- If we lose land even if a house remains, we cannot survive
- We want to get a chance to work for the project.
- Unregistered land which was developed by French NGO's fund should be compensated.
- We want to get good health care and education fund up to higher secondary school.
- We want to ask develop paddy field instead of inundated land.
- We want to ask to build 19 new houses for poor families.

<Hatsamkhone>

- Last CM we proposed followings: school with rooms, suspension bridge, internal road and T/L.
- We want to ask rice supplement program during transition period until we get enough crops.
- We prefer alternative land to cash compensation.
- We've got details of the project. We want to ask developer to come here to explain update frequently.
- We want to ask to build a nursery and to improve a village hall with furniture.

<Piengta>

- We are happy to hear the presentation of project and dam construction.
- If developer find a new land, please show it to us first. We want to check before development.
- We want to hear a plan in case developer cannot find any new land.
- We want to ask to build a new school with furniture and materials.
- We want to ask suspension bridge and access road to access to lands on the right bank.
- We want to ask to provide medicine or operation to space birth.

Health center

Social development Plan (Draft)

1. Facilities To be determined

Items	Current State	Resettlement Site
Paddy field	Affected area **.** ha	Available equivalent area of land with equivalent productive potential. Support of soil improvement and fertilizer may be available.
House	Affected household ** HH	Old house or new house
Health center	No site	A health center newly installed at Ban Pou. First-aid medical treatment can be available.
Water supply	The available outlets are not sufficient.	Natural gravity water piped system is installed every 10 HH.
Power line	Power line is available	
Transportation	No bus station building	Bus station / stop at each village.
School	Primary school	1 nursery , 1 primary, and 1 secondary school (Ban Pou)
Others	None	Market, community hall.

2. Livelihood and social development plan

Items	Mitigation Plan
Agricultural promotion program	Education of cash crop, seeding, fertilizer, soil improvement, and income generating agriculture, including economic trees.
Occupational skill education	Education of handicraft, labor skill, trade, services.
Health training and education	Education of child health, maternal, hygiene.
Others	Various support programs for affected people.

Entitlement Matrix (Draft)

	Type o f loss	Entitled person	Entitlement policy				
1	Agriculture land	Legal owner with valid title or customary or usufruct rights	Equivalent area with equivalent productive potential at location acceptable to AP.				
		Tenant, leaseholder and sharecropper	Cash compensation				
2	Residential, commercial, industrial	Legal owner with valid title or customary or usufruct rights	Equivalent area of land of similar characteristics and access to facilities in an acceptable location.				
2	or institutional land	Tenant or leaseholder	>Equivalent area of leased land for unexpired lease period >Reimbursement for unexpired lease period.				
3	Structures (Residential, commercial, industrial or institutional)	Legal owner with valid title or customary or usufruct rights	>Replacement structures of equivalent standard >Cash compensation				
	industrial of institutional)	Tenant or leaseholder	Transition allowance equivalent to three months' rent				
4	Other structures	Owners	Cash compensation				
5	Trade, livelihood, occupation or business incomes	Individuals	>Employment >Cash compensation >Livelihood program				
6	Access to common resources and facilities	Communities / Households	>The right to share resources with host communities or if needed, replacement them >For cemeteries and graves, movement				
7	Standing crops	Owner	Cash compensation				
8	Fruit trees, perennial plants & trees, and other productive assets	Owner	>Cash compensation >For fishponds, replacement				
		Relevant agencies	Cash compensation				
9	Public infrastructure and other cultural properties	Communities / Households	>For temples, spirit houses and other historical, cultural and religious structures: dismantling, relocation and reconstruction. >For domestic water sources and private wells: provision of good quality domestic water supply to at least the standard of current water supply >For electricity and telecom connections, sewerage/drainage facilities, roads, tracks and bridges, schools, clinics, public health centers: full restoration or replacement to original or better condition				

Monitoring of resettlement (Draft)

Affected Persons will be protected by our transparent and reliable monitoring scheme.

Grievance Redress Mechanism (Draft)

APs have the right to make a claim if not adequately protected, compensated, and received entitlements.

Livelihood (Fishery)

Villagers can utilize fishery resource and are trained by specialists

Nam Ngiep 1 Hydropower Project – Moving forward

Many direct benefits for the local population

Strengthening of Lao Administration and Financial Resources Aimed at Poverty Reduction

Major asset for the global environment

Minute of the Second Public Consultation at District Level on July 2, 2008

Lao People's Democratic Republic Peace Independence Democracy Unity Prosperity

Led by Tan Thongpheng Oonyahuk, duputy chief of Thathom district and Tan Thoumma Xalermxay, head of WRE provincial office at Xieng Khouang, the meeting comprised of relevant district authorities and representatives of 4 affected villages: Ban Pou, Ban Hatsamkhone, Ban Piengta and Ban Nakang; and the consultants. In total there were 27 people in which 3 of those were women.

- The meeting encouraged the Project to compensate the affected people resulting from the flooding at 320 m inline with the regulation 193/ Prime Minister Office (announced July, 07, 2006)
- The affected villages; Ban Pou, Ban Hatsamkhone, Ban Piengta and Ban Nakang, proposed the Project to consider building the following infrastructure or activities for them:
 - Primary schools including their necessary components i.e. desks, chairs, blackboards and teaching materials
 - A secondary school including its necessary components i.e. desks, chairs, blackboards and teaching materials
 - Natural water pipe system with about 10-15 distributing unit in each village
 - Small or medium size local designed irrigation systems together with irrigation canals at Nam Pou, Nam Lae, Nam Bung, Nam Sai and Houay Kaba
 - Bridges over Nam Ngiep with the size that able to support the farming hand tractors for Ban Piengta and Ban Hatsamkhone
 - A 15 bed health center for Thaviang Sub-district and provide medical supplies for 8 years
 - Improve allay ways of each village into 4-6 meters width ways with gravel or laterite covered
 - · Extend the existing electrical grid to cover every household of the villages
 - Compensate the lost of productive lands either by land for land, or by cash according to the current market price
 - There is high possibility of flooding in some area outside the Project's pegging. The Project should revisit and conduct additional survey in Tung Lae and Tung Kai
 - Proposed the Project to support resettlement of Ban Nakang (currently under relocated by GOL government)
 - Set up occupational training i.e. handicraft, animal husbandry etc., set up village fund for the affected villages
 - 3) The meeting proposed the setting up of a committee comprises of 3 district representatives, 7 sub-district representatives in order to oversee the proposal above and looking after the implementation of those. The project must provide the committee with an office in Thaviang also office supplies i.e. desks, chairs, storage shelves, a set of computer and printer, communication device and a motorcycle.

The description above concludes the proposals of the Project affected people in Thathom district. It was declared as a reference for consideration of the GOL at the next level and the developers to review, then, make decision and set up plans for the affected area.

Lao People's Democratic Republic Peace Independence Democracy Unity Prosperity

Minutes of meeting regarding to public consultation regarding environmental impacts from the Nam Ngiep 1 Hydropower Project, Thavieng Area, Thathom District, at the Provincial office, dated 24 April 2008

The consultation meeting regarding environmental impacts from the Nam Ngiep 1
Hydropower Project, Thavieng Area, Thathom District is held at 8:30am on 24 April 2008.
The meeting was chaired by Mr. Viengthanon Phomachanh, who is the acting Governor of
Xieng Khouang Province, who is also the head of Provincial Environment Committee. The
meeting has total participation of people.

The participants of the meeting included:

- 1. Mr. Viengthanon Phomachanh, acting Governor of Xieng Khouang Province
- 2. Mr. Therdsak Santivonlavout, representative from the Thai embassy in Lao PDR
- 3. Electricity Generating Authority of Thailand (EGAT)
- 4. Kansai Company
- 5. Lao State Holding Enterprise (LHSE)
- 6. Chulalongkorn University
- 7. Lao Consulting Company
- 8. Representatives from various ministries, related departments
- 9. Thathom District Authorities and four villages of Hom District that are affected
- 10. Related departments from provincial agencies

As part of the meeting agenda, Mr. Viengthanon Phomachanh, acting Governor of Xieng Khouang Province, who is also who is also the head of Provincial Environment Committee and chairman of the meeting, provided opening remarks of the meeting which included two main objectives as follows:

- 1. Listen to the presentation from the consulting companies regarding to the evaluation of the environmental and social impacts from the Nam Ngiep 1 Hydropower Project
- 2. Provide comments, proposals and establishing consensus regarding to the impacts and mitigation measures to reduce the environment and social impacts including compensation measures.

In addition, the chairman also mentioned the conditions and directions for economic and social development within the province, such as water resource development, especially the Nam Ngum River, Nam Ngiep River. All of this is to promote livelihood [development] and poverty reduction of people.

In the meeting there are documents provided to participants. Consultations with participants were as follows:

I. Presentation Section

Dr. Thaveevong, Director of the Institute for Environmental Research at Chulalongkorn University Thailand, presented

- 1. Overview of the project
 - Dam location, area of reservoir, installation capacity [electricity generation], transmission lines, owner of the project

- 2. The study of environmental impacts.
 - The area of study for environmental impact is divided into four parts: dam construction area, downstream of the reservoir, upstream reservoir area, lower reservoir area
 - Environmental and social impact assessment based on three elements of the environment: physical, biological, economic / social.
- 3. Compensation
- 4. Benefits from the Nam Ngiep 1 Hydropower Project

Mr. Somesavanh from the Lao Consulting Company

1. Project area

Located in the Hat Gniun Village, Bolikhan District, Bolikhamxay Province. There are two dams with a total installed capacity 282 MW:

Main Dam: Installation capacity 262 MW, transmission line 230kV, generating electricity to sell to Thailand.

There are four villages from Vientiane Province which will be flooded and will be resettled out [from the reservoir area] 100%: Namyouak Village, Houaypamom Village, Sopphuane Village, Sopyouak Village.

There are two villages from Bolikhamxay Province: Hat Gniun Village and Hatsaykham Village.

Xieng Khouang Province has four villages: Nakang Village, Phou Village, Hatsamkhone Village and Piengta Village.

Ancillary Dam:

Installation capacity 20 MW, transmission line 115kV, generating electricity to use within Bolikhamxay Province.

- 2. Impact assessment results and mitigation measures to reduce environmental impacts
- 2.1 Scope of study area for environmental impact assessment Geography, geology, meteorology, erosion, water and water quality, ground water, noise pollution, ground movement, air quality, forest, and wild life, aquatic life and fisheries.

2.2. Scope of study area of social impact

- Tools used for impact assessment, regulations / related law: environment protection measures, regulations for resettlement and compensation.
- Survey and data collection according to the questionnaire and the actual interview with each household which has been signed between the household and the working team, certified by the village [authorities]
- Elements of the village: village characteristics, facilities in each village, residence characteristics, livelihood activities, children, women and health, children development, education, women development, activities for making living, food and forage, use of the Nam Ngiep River for different purposes, land and water transportation.

2.3.Compensation Measures

Establish scope of the impact

- Marking water level at 320 meters above sea level
- Develop village map and reservoir area

• 328 households, 2,207 people women

Method and process for compensation

 Asset survey of the affect people from the project including assets that can be moved and can not be moved (house, clean water supply, plants / trees that are grown, rice fields / garden.....)

Compensation plan:

- Compensation measures
 - ✓ Cash compensation and
 - ✓ Compensation by replacement
- Establishment of the compensation resettlement committee
- Establishment of compensation principles

✓ Permanent loss of land: compensate by replacement land

not less than original land

✓ House and residence area compensate land for the house and

provide house, equipment, and fund for

construction

- Consultation with village authority of Thathom District
- Consultation with affected households.

II. Consultation section:

Mr. Vanglear, head of the Labor and Social Welfare Department, Xieng Khuang Province

- Agree with the development of the Nam Ngiep 1 Hydropower Project
- Issues regarding project development: impact on cemetery and traditions

Head of Phou Village

- Agree with the development of the Nam Ngiep 1 Hydropower Project
- Propose for the project to be responsive to the request of people [affected] who do not want to move far away from the original village area. If resettled, propose resettle in groups and allow villagers to check the actual new resettlement area first. If possible, propose the project to build a concrete fence surrounding the village

Mr. Bounphan, District Governor of Thathom District:

- Agree with the development of the Nam Ngiep 1 Hydropower Project
- Survey forest resource (natural resource)
- Survey mining in the project area
- Resettlement of people to the area that allows people to have agricultural production: Vanghai area (Phonsai) can have irrigation to support production and area (Chaleunsai) if possible

Mr. Khamdone, Provincial Health Department:

• Propose the project to monitor various diseases that might occur when people are resettled to resolve / address in a timely manner.

Mr. Bounphanee Phatayban, Provincial Agriculture and Forest Department

- Study of the impacts on aquatic life especially, especially breeding sources of aquatic life
- Long term impacts: sediment, dry season dangers, what measures does the project have?
- Regarding the water level at 320 meters above sea level, is this the normal water level? In case there is a runoff from the watershed, might the affected area be greater. Does the project study this and what measures do you have?
- It is difficult to build a flood protection wall [dyke], pumps are normally used to remove water all of the time.

Mr. Bounsou, Head of Phonyaeng Village:

- Agree with the development of Project
- If there are impacts, should have measure for compensation.

Mr. Khamsone Chanthavongsee, Deputy Director of "YTK" Department:

• Impact on communication routes within the project area

Summary of issues raised for consultation in the meeting:

- 1. Issues related to culture, tradition and cemetery
- 2. Use of labor for creating occupations, reducing the unemployment rate.
- 3. Social issues: resettlement of people that have been affected by development of the project including monitoring of disease that might occur and impact on basic infrastructure.
- 4. And environmental impacts: natural resource forest and mining, wild life aquatic life within the project area including breeding areas of aquatic life.

Explanation for clarification for proposals in the meeting:

Dr. Phosee

- 1. Resettlement of cemetery will be implemented according government principles but the budget will be provided by the project.
- 2. Allocation of labor the project will try to use the local labor force as much as possible.
- 3. The resettlement of people (four villages that have been affected must be resettled in twelve villages of Xieng Khouang Province that have been affected by the project). Propose alternative for resettlement: which there is a survey, participatory consultation with authorities from each level. For Phou Village, it is possible build flood protection structure [dyke], which may be the better choice than resettlement of 133 households, 842 people.
 - For the resettlement choices, it is mainly based on the area of production and irrigation and as well as the plan for basic infrastructure such as health, education and transportation.
- 4. Provide clarification about water level of 320 which is the maximum water level of the dam, but normally will not reach this point.
- 5. For the forest resource, will provide clarification at the national level meeting.
- 6. For the mining sector, the project has used surveys from the mining department in the area and has found that there is no mining activity

- 7. For preservation of aquatic life, wildlife, and breeding zones, protection areas must be established.
- 8. If the water level is raised to the maximum [level], the water will be close to the road between Piengta Village to Hatsamkhone Village. For the other villages, the water level would be far from the route of the road. If the road is flooded [by the project] the project developers and government authorities will work together to resolve the problem.

Mr. Saiphet Amphavan, Deputy Director of Lao State Holding Enterprise

- 1. The history of Lao State Holding Enterprise, which received approval from the government to be a shareholder with foreign investors, for the development of hydropower projects. Current Lao State Holding Enterprise currently has shares in five different companies: Nam Ngiep 1, Nam Theun 1, Nam Theun 2, Hongsa Lignite, Nam Ngum 3.
- 2. The project still does not have sufficient detailed information regarding impacts including measures for mitigation and detailed methods to resolve environmental and social impacts prior to this meeting,
- 3. Development of this project should incorporate sustainable development
- 4. The project must pay attention to every issue of impact, especially on forest resource, water quality and the other.

Conclusion of issues agreed in consensus during the meeting

- 1. All participants agree in consensus with the development of the Nam Ngiep 1 Hydropower Project
- 2. Overall, agree in consensus on the establishment of issues regarding the impact, plan, measures for mitigation to resolve the social and environment impacts that the project developer has presented and provided clarification during the meeting
- 3. Project developer agrees that detailed information should be compiled in detail and should try to detail impact fully. There should also be measures for mitigating impacts and resolving issues. The basis for implementation should be follow existing regulation and policy of the Government [central level] and Province.

After that, at the end of the meeting the chairman of the meeting propose to the Thathom District Authorities to issue an announcement to explain about the development of the project to [concerned] villages, villagers and households that are affected by the project in order to avoid future issues / problems and to agree in consensus with the policy and plans of the government for economic and social development. It is proposed to the project developer to provide more cooperation / contribution to the people as much as capacity [allows], the need for the work [requires] and is appropriate. It is requested to the related departments at each level to cooperate with the project to implement and monitor the project to ensure smooth success.

Dated 24 April 2008 Meeting note taker

Chairman of the meeting Acting Governor of Xieng Kuang Province

ເວລາ 9:00

ທ່ານ ບຸນຜັນ ພົມມະຈັນ, ກຳມະການພັກແຂວງ, ເລຂາພັກເມືອງ, ເຈົ້າເມືອງໆທ່າໂທມ, ປະທານກອງປະຊຸມໄດ້ກ່າວເປີດພິທີ ແລະ ໄດ້ກ່າວເຖິງແນວທາງ ການພັດທະນາທາງດ້ານ ເສດຖະກິດຂອງ ສປປ ລາວ ໂດຍສະເພາະໂຄງການໆກໍ່ສ້າງເຂື່ອນນຳ້ງເບທື່ຄາດວ່າຈະມີຜົນ ກະທົບທາງດ້ານດີ ແລະ ດ້ານເສັຍຕໍ່ 13 ໝູ່ບ້ານໃນເຂດຈຸດສຸມທ່າວງຸງ ແລະ ແບ່ງອອກເປັນ 2 ປະເພດຄືລຸ່ມນີ້:

ເຂດທີ່ໄດ້ຮັບຜົນກະທິບໂດຍກິງ ມີ 4 ບ້ານຄື:

- 1. ບ້ານປູ້
- 2. ບ້ານຫາດສາມຄອນ
- 3. ບ້ານພຸງຕາ
- 4. ບ້ານນກ້າງ

ເຂດທີ່ໄດ້ຮັບຜົນກະທິບທາງອ້ອມມີ 9 ບ້ານຄື:

- 1. ບ້ານຊຸງຄົງ
- 2. ບ້ານວຸງຫອງ
- 3. ບ້ານນາຊ້າຍ
- 4. ບ້ານນາຊົງ
- 5. ບ້ານໂພນແບງ
- 6. ບ້ານຄົງ
- 7. ບ້ານນາຫ້ອງ
- 8. ບ້ານໂພນໂຮມ
- 9. ບ້ານນໍ້າລ້ອງ

ຈາກນັ້ນ ທ່ານ ສີມສະຫວັນ ພີມມະຖາ, ຕາງໜ້າບໍລິສັດ NCC ໄດ້ສະເໜີຄວາມເປັນໄປ ມາຂອງໂຄງການ, ບິດລາຍງານຜົນການສຶກສາເຖິງຜົນກະທົບຕາມຂອບເຂດປັກຫລັກໝາຍ ແລະ ຂໍ້ມູນເບື້ອງຕົ້ນທີ່ມີຕໍ່ປັນດາກຸ່ມບ້ານທີ່ກຸ່ງວຣ້ອງໂດຍສະເພາະຜົນກະທົບ:

- 1. ຕໍ່ເນື້ອທີ່ການປູກຝັງ
- ຕໍ່ເນື້ອທີ່ການປຸກສ້າງ
- 3. ຕໍ່ເໜືອທີ່ປ່າໄມ້
- ຕໍ່ຜົນລະປູກ, ຕື້ນໄມ້ກິນໝາກ
- 5. ຕໍ່ການປະມົງ (ຫາປາ)
- 6. ຕໍ່ແຫລ່ງຫາມາຫາກິນ
- 7. ຕໍ່ວິຖີຊີວິດ ແລະ ວັດທະນະຫາຂອງຊີນເຜົ່າ
- 8. ຕໍ່ສະຖານທີ່ປະຫວັດສາດ
- 9. ສະຖານທີ່ວັດຖຸໂບຮານ ແລະ ອື່ນໆ

ນອກນັ້ນທ່ານຍັງໄດ້ອະທິບາຍເຖິງມາດຕະການລຸດຕ່ອນ, ການປ້ອງກັນຜົນກະທິບ ແລະ ການ ສ້າງເຂດອະນຸລັກຊີວະນາໆພັນໃນບໍລິເວນຂອບອ່າງໄຕ່ງ ທີ່ຄາດວ່າຈະຕາມມາກ່ອນ ແລະ ຫລັງການສ້າງເຂື່ອນ. ຈາກນັ້ນ, ທ່ານ ບຸນຜັນ ພົມມະຈັນ, ກາມະການພັກແຂວງ, ເລຂາພັກເມືອງ, ເຈົ້າ ເມືອງໆທ່າໂທມ, ປະທານກອງປະຊຸມໄດ້ເໜັ້ນຫນັກເຖິງຄວາມສຳຄັນຂອງການພັດທະນາພະ ລັງງານໃນ ສປປ ລາວ ແລະ ໄດ້ເປີດປະຊາທິປະໄຕໃຫ້ແກ່ບັນດາ 13 ໝູ່ບ້ານປະກອບຄຳຄິດ ເຫັນທີ່ເປັນປະໂຍດໃຫ້ແກ່ກອງປະຊຸມເພື່ອນາມາພິຈະລະນາ ແລະ ນຳສະເຫນີຕໍ່ດອງປະຊຸມຂຶ້ນແຂວງໃນຕົ້ນເດືອນມິນາ. 2008.

ພາກປະກອບຄຳຄິດເຫັນໃຫ້ແກ່ກອງປະຊຸມ.

- 1. ທ່ານ ເລຂາໜ່ວຍພັກ, ພໍ່ບ້ານຫາດ 3 ຄອນ ສະເໜີ 4 ບັນຫາ:
 - ການທິດແທນຄ່າເສຍຫາຍ
 - ທຶນໃນການສາຫລວດພື້ນທີ່
 - ການເລືອກພື້ນທີ່
 - ທຶນການສຶກສາວິຊາຊີບເພື່ອສ້າງແຮງງານທ້ອງຖິ່ນ

2. ຊາວບ້ານນໍາປູ້

- ການທິດແທນຟື້ນທີ່ໆເສຍຫາຍ
- ຈັດສັນເນື້ອທີ່ນາແຊງ

3. ນາຍບ້ານໆນາກ້າງ

2.4 Xieng Khoung Province (Thaviang sub-district, Thathom District)

Minute of the First Public Consultation at District Level on February 21, 2008

Lao People's Democratic Republic Peace Independence Democracy Unity Prosperity

Participants

- The Chief of Thathom District
- · Representatives from affected villages of Thathom District, 13 Villages
- Deputy of the Administrative Office of Xiengkhouang Province
- · Department of Industry and Commerce, Xiengkhouang Province
- · Department of Energy and Mines, Xiengkhouang Province
- Department of Agriculture and Forestry, Xiengkhouang Province
- Water Resource and Environmental Agency, Xiengkhouang Province
- · Official Authorities nearby Thathom District
- Lao Holding State Enterprise, 4 people
- Electric Generating Authority of Thailand, 4 people
- The National Consulting Company of Lao PDR Total 78 people

Minutes:

1) 09.00 AM, an opening speech by Tan Bounphan Phommachan – chief of Thathom Distirct: The policy of the government of Lao PDR (GOL) on Lao economy and its relation to the Nam Ngiep 1 Hydropower Project were explained, NNHP1 has both positive and negative impacts to villages in Thaviang Sub-district list as following:

Area of which having directed impact:

- Ban Pou
- Ban Hatsamkhone
- Ban Phiengta
- Ban Nakang

Area of which having in-directed impact:

- Ban Xiengkhong
- Ban Viengthong
- Ban Nasong
- Ban Nasay

- Ban Phonengeng
- Ban Phonehom
- Ban Nahong
- Ban Dong
- Ban Namlong
- 2) Mr. Somsavanh Panmatha, a representative of the consultants on the Environmental and Social Impact Assessment, presented an overview of the project. The impacts of NNHP1 to the area of Thathom District, especially, the following:
 - Agriculture land,
 - Housing area,
 - Forest area.
 - Vegetable or fruit trees,
 - Fisheries,
 - Sources of income.
 - Way of life or culture,
 - Historical places,
 - Archeological area

Afterward, plan for mitigation measure and affected asset redress are discussed. Significant activities before and after construction of the project were consulted. Certain issue, i.e. a possible plan for setting up the National Biodiversity Conservation Area (NCBA) in the watershed was informed.

- 3) Discussion and concerns from the participants:
 - The secretary at the unit level of The Party. Chief of Ban Hatsamkhone proposed 4 issues: the compensation for affected assets; result of the survey for the potential resettlement site; selection of the resettlement site and the plan for occupation; life skills training for local labors
 - A representative of Ban Pou: the replacement of the to be inundated agricultural land; possibility of the facility to support dry-season rice cultivation
 - Chief of Ban Nakang: there are 2 households will be directly affected, what can be
 done to support the move of the household; transportation, demolishing of the
 house and supporting of utilities for the village?; someone who is not directly
 affected by the Project does not want to move out
 - The secretary at unit level of The Party, Ban Phiengta: there will be can
 inundation of the access road to agricultural land, proposed the Project to build a
 small bridge.
 - The secretary at unit level of The Party, Ban Pou: If there are resettlement and agricultural or asset compensation, will the same consultants conduct the study.
 - Tan Counphan Phommachan, chief of the Thathom District, supported the voices
 of the villagers. He assured the public that if there is the resettlement, these

facilitees; access roads, school, community health center, village office, electricity, clean water and etc. will be put into consider.

- 4) Replying to the above concerns, by the consultants and Thathom Districts: Criteria of the compensation will be based on the "Regulation of the Resettlement and Compensation" issued by GOL. Practically, there will be a compensation committee comprise of representative at village level, district level, provincial level and related praties to finalize the criteria to be used. Moreover, the project developer is considering possible options to avoid any damage and avoid the need to resettle. For example, building a dike or barrage to block the water out of agricultural land consideration. All the proposed concerns will be recorded and proposed to the developers and concerned parties. At the next public consultation meeting at provincial level, these will also be discussed.
- 5) The meeting came to conclusion at 12:00 AM. Tan Bounphan Phommachan, chief of Thatom District gave a closing speech.

Thaviang, February 21, 2008

Bouanphan Phommachan Chief of Thathom District (Signed and Sealed)

List of Participant of the Committees and Related Sectors

Subject: To educate, information disseminate, response and explaining to the 12 questions for

Affected People of NNP1 project,

Location: at Hom District, Vientiane Province (4 villages: Nam Youak, Nam Nong, Sopphuan/Houypamom)

Date/Time: on 4th to 6th March 2010; start at 17:30PM

No	Name & Surname	Position	Department/Sector	Tel/Moblie	Signature
1	Mr. Somdy Keodalavin	Deputy Chairman, , member of National Assembly	National Assembly, zone 10, Vientiane Province	2290 7196
