Minute of Meeting

Dissemination and Consultation And Entitlement Matrix

The meeting disseminated the NNP1 policies to three villages, upper reservoir (2UR), Thathom district, Xaysomboon that will be affected from the inundated.

- 1 April 2014 held at Pou village.
- 2 April 2014 held at Hatsamkhone village.
- 3 April 2014 held at Piengta village.

On behalf of the NNP1, the community relation and development team mentioned four purposes such as:

1. Disseminate and consult how to calculate the affected compensation unit rate from the NNP1.
2. Disseminate and entitlement matrix the affected compensation unit rate from the NNP1.
3. Disseminate and consult the grievance process.
4. To collect data to add in document on social safeguard, livelihood development plan and vulnerable information.

A meeting chairman, Thathom district governor opened and had opinion mentioned the agreement statement on movement plan of the NNP1 PAP. The compensation policies are advised to the villagers how to compensate, resettle and all of that is strategic plan to develop economic of the Lao PDR. The chairman mentioned the NNP1 will be natural resource and will gain revenue to the villagers, particularly, there are five places in Thathom such as: Namsan 1, Namsan 2 but dam development can be negative and positive on livelihood and agriculture production area. The NNP1 is the priority that Lao Gov. gave. The other projects also had affected and compensated to the people and had policies, but the projects had benefit for people and resettlement to other areas. The chairman mentioned the NNP1 had the transparency and higher rate than the other projects. If the severely affected people, as known from concession agreement (CA), the project will have better policies twice. The government defined new relocations for the NNP1 if the PAP do not go with the project plan, the project will have condition, appropriate and the project team, will explain calculations for discussion and agreed unity. Chairman compared compensation to many projects. This project calculated like this, another one calculated like that. So the rate is different, but the NNP1 will explain details to people know how to calculate.

1. Four ways of calculations.

- Compensation rate that paid by other projects are under other conditions similarly up dating based on inflation.
- At current, Market study is proceeded free or research institute or NGO.
- Information on statistic market rate of state informed each month.
- Truth rate observation in the affected villages.

From four resources will define the actual price for the affected people, this way, authority village with people agree and said that it was fair transparent to people. Explanation policies, entities that the affected got from compensation of the NNP1 is people have unity and agree to the policies, additionally, the project presented the NNP1 grievance principles on grievance mechanism, conflict solution procedure and people understand.

After explanation, discussed with village authorities and people they understood, realized that the NNP1 has policies that are fair and correct to the affected people.

Comment from Pou villagers

After listening from the morning till afternoon, villagers would like to ask how to compensate. As remembered, it will be better than the previous one. After comparing to the NNP2, a little known from its compensation. If the NNP1 is over the previous one, it will be happy. The second issue would like to propose whether any compensation if not moved? We live in the house if we would like to change this area. Agriculture job would like to changed, feeding animals for living:

1. Comments of Mr Thidpheng, village Front Line: would like to ask this agreement.
 - Heritage law, three households in a house go to the bank, will money be divided into three parts?
 - Compensated land, during dried period can the people go to do farming?
2. Mr Nouyengxiong: proposed dad grave (Chertongxiong) in the reservoir area to check the flooding or not?
3. Mr Boungyung: Proposed
 - a. Some are not moved but wanted to stay in the same, not to leave Pou land but the result loss, the project will compensate?
 - b. Compensation is the project and state conduct rightly supposed Mr. A has 1ha will calculate how many meters, people wants to know the calculation is understand but some people do not understand.
 - c. Would like the project compensation appropriately, balance, satisfied the affected loss would like the project takes a minute of the meeting.
4. Mr Touxiong proposed the company to intall electrical post and pull electrical cable for village households of Pou village that not have electrical use.

Comments from Hatsamkhone villagers

1. Mr Jomphet, head of Hatsamkhone village proposed after explanation document the villagers agreed on unit rate way but the village would like the project to assist:
 - a. Assist in repairmen primary school as model of ministry of education.
 - b. To build the Ou bridge to cross Namngiep.
 - c. Would like the project to make road with 2 kms within Hatsamkhone and make electrical network.
 - d. Expand village office bigger and make bus station and market.
 - e. Would like the project to make GRS water supply at Houaypakhae. GRS water supply is not enough.
 - f. Weaving house 50 m x 8 m.

- g. New job development for men and women and to be labours for construction projects.
- h. Loss compensation from the project.
- i. Propose the project to assist policies research six affected houses, at current have four houses moved before the construction project. How will it be compensated?

Comments from Piengta villagers

Agreed to calculation of the project.

After questionnaire with the villagers agrees calculating tables. At present, people have not any issues if yes, the village will propose to the NNP1.

At the end, the president stress and some points to the villagers three affected villages:

Dam construction is in need of general vision of the state-government and 8th and 9th main meeting of the party is aimed to build our nation strong and rich in the future. So the villagers are required to cooperate with the project for preparation for receiving issues. Certainly, development must be better.

After meeting of three villages, the village authorities and people cooperated very well and agreed to certify the rate unit from the NNP1.

Therefore, this is certified as evidence.

Minute of Meeting

Dissemination and Consultation And Entitlement Matrix

The meeting disseminated the NNP1 policies to three villages, upper reservoir (2UR), Thathom district, Xaysomboon that will be affected from the inundated.

- 1 April 2014 held at Pou village.
- 2 April 2014 held at Hatsamkhone village.
- 3 April 2014 held at Piengta village.

On behalf of the NNP1, the community relation and development team mentioned four purposes such as:

1. Disseminate and consult how to calculate the affected compensation unit rate from the NNP1.
2. Disseminate and entitlement matrix the affected compensation unit rate from the NNP1.
3. Disseminate and consult the grievance process.
4. To collect data to add in document on social safeguard, livelihood development plan and vulnerable information.

A meeting chairman, Thathom district governor opened and had opinion mentioned the agreement statement on movement plan of the NNP1 PAP. The compensation policies are advised to the villagers how to compensate, resettle and all of that is strategic plan to develop economic of the Lao PDR. The chairman mentioned the NNP1 will be natural resource and will gain revenue to the villagers, particularly, there are five places in Thathom such as: Namsan 1, Namsan 2 but dam development can be negative and positive on livelihood and agriculture production area. The NNP1 is the priority that Lao Gov. gave. The other projects also had affected and compensated to the people and had policies, but the projects had benefit for people and resettlement to other areas. The chairman mentioned the NNP1 had the transparency and higher rate than the other projects. If the severely affected people, as known from concession agreement (CA), the project will have better policies twice. The government defined new relocations for the NNP1 if the PAP do not go with the project plan, the project will have condition, appropriate and the project team, will explain calculations for discussion and agreed unity. Chairman compared compensation to many projects. This project calculated like this, another one calculated like that. So the rate is different, but the NNP1 will explain details to people know how to calculate.

1. Four ways of calculations.

- Compensation rate that paid by other projects are under other conditions similarly up dating based on inflation.
- At current, Market study is proceeded free or research institute or NGO.
- Information on statistic market rate of state informed each month.
- Truth rate observation in the affected villages.

From four resources will define the actual price for the affected people, this way, authority village with people agree and said that it was fair transparent to people. Explanation policies, entities that the affected got from compensation of the NNP1 is people have unity and agree to the policies, additionally, the project presented the NNP1 grievance principles on grievance mechanism, conflict solution procedure and people understand.

After explanation, discussed with village authorities and people they understood, realized that the NNP1 has policies that are fair and correct to the affected people.

Comment from Pou villagers

After listening from the morning till afternoon, villagers would like to ask how to compensate. As remembered, it will be better than the previous one. After comparing to the NNP2, a little known from its compensation. If the NNP1 is over the previous one, it will be happy. The second issue would like to propose whether any compensation if not moved? We live in the house if we would like to change this area. Agriculture job would like to changed, feeding animals for living:

1. Comments of Mr Thidpheng, village Front Line: would like to ask this agreement.
 - Heritage law, three households in a house go to the bank, will money be divided into three parts?
 - Compensated land, during dried period can the people go to do farming?
2. Mr Nouyengxiong: proposed dad grave (Chertongxiong) in the reservoir area to check the flooding or not?
3. Mr Boungyung: Proposed
 - a. Some are not moved but wanted to stay in the same, not to leave Pou land but the result loss, the project will compensate?
 - b. Compensation is the project and state conduct rightly supposed Mr. A has 1ha will calculate how many meters, people wants to know the calculation is understand but some people do not understand.
 - c. Would like the project compensation appropriately, balance, satisfied the affected loss would like the project takes a minute of the meeting.
4. Mr Touxiong proposed the company to intall electrical post and pull electrical cable for village households of Pou village that not have electrical use.

Comments from Hatsamkhone villagers

1. Mr Jomphet, head of Hatsamkhone village proposed after explanation document the villagers agreed on unit rate way but the village would like the project to assist:
 - a. Assist in repairmen primary school as model of ministry of education.
 - b. To build the Ou bridge to cross Namngiep.
 - c. Would like the project to make road with 2 kms within Hatsamkhone and make electrical network.
 - d. Expand village office bigger and make bus station and market.
 - e. Would like the project to make GRS water supply at Houaypakhae. GRS water supply is not enough.
 - f. Weaving house 50 m x 8 m.

- g. New job development for men and women and to be labours for construction projects.
- h. Loss compensation from the project.
- i. Propose the project to assist policies research six affected houses, at current have four houses moved before the construction project. How will it be compensated?

Comments from Piengta villagers

Agreed to calculation of the project.

After questionnaire with the villagers agrees calculating tables. At present, people have not any issues if yes, the village will propose to the NNP1.

At the end, the president stress and some points to the villagers three affected villages:

Dam construction is in need of general vision of the state-government and 8th and 9th main meeting of the party is aimed to build our nation strong and rich in the future. So the villagers are required to cooperate with the project for preparation for receiving issues. Certainly, development must be better.

After meeting of three villages, the village authorities and people cooperated very well and agreed to certify the rate unit from the NNP1.

Therefore, this is certified as evidence.

Minute of Meeting

The Consultation Meeting with Hatsamkhone Villagers

On 15 July 2014 from 13:00, at Hatsamkhone village, Thathom district, Xaysomboun province, the consultation meeting was held at Hatsamkhone villagers to discuss the following issue:

Consultation on Compensation Unit Rate for PAPs' assets

The participants in the meeting included:

- Total of participants: 66 people
- Number of females: 11 people
- GoL: 4 people (RML: Mr Khamsing Saiphouang; Mr Thongsay Euathong; Mr Phonexay Tanovanh, Thathom District Thongpheng Cunyanuk; District ESM: Mr Phouthajark)
- NNPI PC: 4 people
- Number of PAPs: 55 people

Objectives:

Consultation on Compensation Unit Rate for PAPs' Possession

Main questions/opinions by PAPs and Main answers:

I. Land type rate

- The rate of common field and clear a rice field was so much different rate 7,000 Kip/m² and 3,500 Kip/m². In fact, a new clear rice field use a machine currently. There was not much stump wood (Tree root). Condition and quality were different. So it should be considered more to be closed to each other. For the common field rate was suitable 7,000 Kip/m².
- Building either closed to the road or not closed to the road. There was so much different rate between 20,000 Kip and 10,000 Kip/m².
- Question: What was the compensation of Road land (Road) which the villagers shared and constructed? It was necessary to be considered owing to its investment.
- Fish pond land saw its compensation based on construction value, the proposed rate was 15,000 Kip/m². For the villagers made fish pond far from the road (no facility to use a machine). If the compensation rate used, it was still low and required to propose to the management team.

The garden land rate 1,500 Kip/m² was low, proposed to be more such as corn could be planted two seasons.

II. Building Unit price

The villagers still had no comments in the meeting.

Proposal from Hatzamkhone

Proposal of Hatzamkhone Authority

Subject: Compensation for the PAPs

Dear GRM of NNPT

Chief of NNPT

I, the head of Hatzamkhone village, Thathom district, Xaysomboun province, agreed with the villagers on compensation proposal as follows:

1. Annual paddy field rate 7,000 Kip/m² was not appropriate as we were not reselling, so it was requested 10,000 Kip/m².
2. New clear paddy field rate 3,500 Kip/m².
3. The building land between the land near road 1 D and outside of the road required the similar rate as it looked like so much different.
4. Moreover, it was seen the other land types request more.

Therefore, it was requested to you for high consideration

Yours faithfully,

Head of Hatzamkhone village

Chomphet Thipphavong

Main questions/opinions by PAPs and Main answers:

I. Land type rate

The villagers had not got any comments so proposed to the villagers thinking more and sending it to the team to during working in Thathom in two days.

II. Building Unit price

Noticed that everybody agreed with the unit rate proposed in the meeting, but the villagers had a question on the risky accommodation because it was flooded in the previous year. The house was out of the marking, flooding zone or the nature or due to the project affected and listed the name (the risky house) for the project for study more.

III. The rate of industrious Tree – Fruit tree

The coconut tree rate was proposed more as a result of the low rate

IV. Seasonal plant

The villagers commented that seven (7) sugarcanes per pile requesting more because of the fact. The large pile had fifteen (15) sugarcanes. The middle pile had six (6) sugarcanes.

The banana was proposed more consideration.

V. Custom and tradition

Proposed the village to list the graves that would be flooding and its performance of religious rites, then sending to the project.

VI. Addition comments

- Adding more rate of paddy field land from 7,000 Kip / m² to 10,000 Kip / m².
- Proposed to add more compensation of fish pond because of the low rate in truth. It cost two million kip if compensated as the proposed rate over one million; it seemed a low rate and considered more. (There was no information of the size of the pond in line with their request)
- Requested to separate personal grass land type and the village's one because of around forty (40) hectares grass lands. If there was policy, it would like to be considered for the village's land.
- This issue would be land type if fixed one made a fence around some points would not get compensation. For support from the project would have many types such as: Public health work, education and others based on the grass land policy which would be consulted more if possible, it would define a new area.

The meeting ended at 11:10 am; some issues were not consulted, proposed in this occasion was handed over to the village's consultation immediately and proposed more.

Therefore, this meeting minutes is created as reference for the implementation in the future.

Նոյն օրը:

Վերականգնողական կոմիտեի նախագահ

Ես, ստորագրողս, շնորհակալ եմ ընտրված լինելու և ձեր անձնակազմի անդամների հետ միասին աշխատելու օրերը:

Մեր անկախության պայքարի ժամանակահատվածում, մենք մեծ հարգանքով և սիրով հարգում ենք ձեր անձնակազմի անդամներին, որոնք մեզ հետ միասին աշխատում եք մեր հանրության օգտին: Ձեր աշխատանքը կարող է օգնել մեր ժողովրդին, որը հարգում է ձեր աշխատանքը և օգնում է ձեր աշխատանքին: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը:

2. Ես, ստորագրողս, շնորհակալ եմ ընտրված լինելու և ձեր անձնակազմի անդամների հետ միասին աշխատելու օրերը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը:

3. Ես, ստորագրողս, շնորհակալ եմ ընտրված լինելու և ձեր անձնակազմի անդամների հետ միասին աշխատելու օրերը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը: Մենք հավատում ենք, որ ձեր աշխատանքը կօգնի մեր ժողովրդին և մեր հանրությանը:

(The transcription of the DNA to the mRNA)

Transcription of DNA to mRNA in the nucleus is done by RNA polymerase II. The DNA double helix is unwound and the RNA polymerase II synthesizes a complementary mRNA strand using one of the DNA strands as a template. The mRNA strand is then processed to form a mature mRNA molecule.

Step 2: Translation of mRNA to a protein (The synthesis of the protein)
