

Annual Environmental Monitoring Report (April 2014 to March 2015)

Environmental Performance Report (Subproject Bhesada)
December 2015

IND: ReNew Power Investment Project

Prepared by ReNew Power Ventures Private Limited

The Environmental and Social Performance Report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or staff, and may be preliminary in nature. Your attention is directed to the "Terms of Use" section of this website.

Annual Monitoring Report for Subprojects

100.8 MW Bhesada Wind Power Project

A. Subprojects Name and Summary Information

- i. **Location:** project is located in the villages namely; Lakhmana Chhoria Bhiksar, Amarsar, Lalla and Karada
- ii. **Reporting period covered by this monitoring report (month/year):** 1st April 2014 to 31st March 2015
- iii. **Specification of subproject stage (design, construction, operation or closure stage):** Project was in pre-construction phase during the abovementioned reporting period. The project comprises of 48 wind turbine generators (WTGs) of Suzlon make S97_120 m having 2100 kW each.
- iv. **Key developments and any major changes in the subproject location and design:** Project was in pre-construction phase during the reporting period and there is no major change occurred in project design during the reporting period.

B. Relevant Environmental Permits or Compliance Certificate

Wind power projects are exempted from obtaining an environmental clearance (EC) from Ministry of Environmental and Forests (MoEF), as per the EIA notification, 2006 and its subsequent amendments

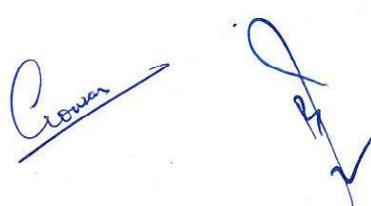

ReNew is an ISO 9001: 2008, ISO 14001: 2004, & BS OHSAS 18001: 2007 company.
Certificate cycle start date was 11.04. 2014 and revision date was 24.04.2015.
Certificate expires on 10th April 2017

C. Grievance Redressal Mechanism

Grievance redressal mechanism was implemented at site in May 2015.

D. Occupational and Community Health and Safety and Labour Standards

This is a turnkey basis project and Suzlon is the contractor for this project. Suzlon itself is an ISO certified company and has health and safety policy and system in place which applies to employees and sub-contractor engaged in this project. In normal construction period 150-200 workers are engaged per day in the project. ReNew puts contractual obligations on its contractors to comply with all applicable laws including labour laws. Suzlon ensures the compliance of labour laws and other applicable laws by their contractor. Suzlon provide HSE Induction, Material handling, Work at height, Fire safety trainings, PPE's & safety awareness trainings to their contractor labours and keep records of all trainings. August training attendance sheet is attached in Annexure 1.

E. Environmental Management Capacity

ReNew has a dedicated QHSE team and two persons in the team are handling Environmental and Social Management System implementation. ReNew team sit in corporate office in Gurgaon and regional office in Pune. In this project Suzlon HSE team based at Site and monitoring the day to day HSE performance. ReNew monitor the HSE performance of site and do the audits to ensure the HSE compliances. ReNew QHSE team members are

1. Sunil Gawade:

Sunil has over 12 years of expertise in Quality Health Safety and Environment. He has worked with Eoxis Renewable Energy India Pvt. Ltd., and Implemented all procedures & manuals related occupational Health Safety & Environmental standards like Permit to work, Risk assessment , Method statements , Near misses , Hazardous observations , Road safety, electrical safety, LOTO procedures, Emergency response plans , Safety trainings, Environmental aspects/impacts, legal register, PPE's , Contractor assessments & development, safety walks, Internal audits with recommended action, External site safety audits in line with ISO 9001: 2008: ISO 14001: 2004 & ISO 18001: 2007

From Feb 2008 to Aug 2012 Mr. Sunil was with Vestas Wind Technology India Pvt. Ltd and handling Supplier Quality and Safety Development.

He has obtained following training in his work tenure

- ISO 9001: 2008: ISO 14001: 2004 & ISO 18001: 2007 by GL
- Supervisory Development Program by Nathan & Nathan
- Training Module for:
 - TS-16949 by BVQI
 - Quality Control a Japanese Approach by AOTS Overseas
 - Quality & Environmental Management System Auditing ISO 19011: 2002 by GL
- Rescue from Height by Vestas
- Trained Trainer for Safety Awareness Training for Managers and Engineers by Vestas

2. Rajiv Bana: Rajiv has more than 9 years' experience with following credentials

IMS Audit (OHSAS/EMS/QMS): Establishment, implementation and maintenance of integrated management system in Solar, Wind and Power automation sector. Experience of laying and preparing related procedures/processes, enable Certification/Surveillance audit.

Health Safety & Environment: Responsible for managing the Health, Safety & Environmental Management system (ISO 14001 and BS OHSAS 18001). Responsible for developing the Business EHS action plans, monitoring implementation via the management review process and facilitating continuous improvement.

Pre & post inspection of work permits for compliance during the projects execution (i.e. Work at height, lifting operation, Confined Space, (LOTO) lock-out/Tag-out, Hot Work, Safe Chemical management) as per global safety standard.

Conduct incident / accident investigations, HIRA-Hazard Identification and risk analysis, mock drills and develop Action plan

Two handwritten signatures are present at the bottom of the page. The signature on the left appears to be "Rajiv" and the signature on the right appears to be "Crown".

Supplier Quality: Carry out supplier audits on project requirements as per QHSE policy/ISO standards. Monitoring of Supplier performance and bought out inspections to meet project and QHSE requirements of product.

Project/Product Quality: Ensure Quality and compliance of all project documents and customer requirements at all levels of projects by continuous monitoring, by proper review/control on output documents and regular discussions. Managing and raising NCRs (process as well as product), reviewing and enabling RCA, CAPA. Enable methodology and tools for RCA/8D with all functions. Review and analysis of project COPQ and NCRs

Continual Improvement: Certified six sigma green belt having proficient knowledge of implementation of improvement tools like Lean, Six Sigma, SPC, 8D, RCA, FMEA, 7 QC tools etc.

3. Gourav:

Gourav did Master of Technology in Renewable energy and has more than 4 years' experience in renewable energy domain. He is handling Environmental and Social Management System (ESMS) in ReNew Power Ventures Private Limited

He is familiar with the national and state regulations, legal acts applicable on wind and solar energy projects. He has handled/ organised many stakeholder meeting with communities/ government authority in many states across India.

F. Stakeholder Consultation

Consultant appointed for ESIA has done the stakeholder consultation in the period from 2nd December 2014 to 9th December 2014. ESIA Consultant has done consultation with the local community, local community representatives, NGOs and local government officials. Post ESIA, ReNew along with Suzlon has done the stakeholder consultations with the community in all project villages in March and May 2015. Minutes of meeting and photographs are available in separate folder name "Annexure-2- Stakeholder meetings MoM and photographs". ReNew is also doing CSR activities in villages, where project is located and in regular touch with community through various programme.

G. Compliance with Applicable Environmental Safeguard Requirements as defined in the ESMS

ReNew has developed project level ESMS to implement the Environmental and Social Management Plan (ESMP) at site. ESMP is developed on the basis of ESIA report findings. ReNew is monitoring the various environmental and social parameters as defined in ESMS and complied with the applicable environmental safeguard requirements as defined in the ESMS. EHS audit as per ESMS has been done recently in august 2015 and audit checklist is attached in Annexure 3.

INTERNAL AUDITING CHECKLIST FOR EHS IN BHESSADA WIND POWER PROJECT

An internal audit must be completed three times per year. For each procedure identify as compliant or Not compliant. Support with objective evidence in the comments field and indicate if a Corrective Action Plan has been completed.

Name of Proposed Asset	100.8 MW Wind Power Project at Bhesada
Asset Location	Bhesada site
Estimated Cost	--
Proposed Date of Commencement of Work	--
Name of Auditor:	Shravankumar H Rawal
Date of Audit	31.08.2015

Procedure	C	N/C	Comments	CAP Completed Y/N
Premises				
Sanitary Facilities are in good working order and stocked with hand wash and paper towels.	✓		Sock pits are properly	
Air, Noise & Water samples have been submitted to the local Pollution Control Boards	✓		Water samples tested - TC available	
Water has been tested annually for checking level of contaminants	✓		TC available	
In the event of water contamination, Emergency and Contingency plan has been activated and found to be effective.		✓	Emergency plan available for food poisoning, which is not specific about water contamination.	
Environment				
Is there any leakage of sulphur hexafluoride (SF6) that is used as a dielectric in circuit			Not applicable	

Procedure	C	N/C	Comments	CAP Completed Y/N
breakers, switch gear and other electrical equipment				
Is there any spillage of oil due to transformer oil due to substation transformers			Not applicable at this stage	
Are noise levels within the standard if 90 dB(A) for 8 hours exposure of workers	✓	< 90 dB		
What are the different types of hazardous wastes in wind power projects?	✓	Nil		
Are the hazardous wastes managed with adequate control measures?	✓	No hazardous waste generated		
Is the gearbox oil disposed or recycled as per regulatory requirements?	✓	Yes		
Is the WTG adequately maintained in terms of its parts?	✓	Parts are adequately stored at this stage		
Is the WTG causing shadow flicker effect? What is the recorded number of hours per year?	✓	Not applicable at this stage		
Are there any bird mortalities due to the WTG?	✓	Not applicable at this stage		
What are the control measures provided to avoid such impacts?	✓	Not applicable at this stage		
Equipment				
All equipment is in good working order.	✓	Inspected before use		
All the vessels, cranes, forklifts are in good working condition	✓	Inspected before use		
Vehicles are checked for Pollution Under Control Certificate	✓	PUC verified		
Personnel				
New employees have been trained in safe cargo-handling procedures.	✓	Records verified		
New employees have been trained in equipment handling, maintenance and calibration.	✓	Records verified		
All employees have successfully complete equipment handling trainings	✓	Records verified		

VERSION 1.0
INTERNAL AUDIT CHECKLIST FOR EHS
FORMULATED ON 19/03/2015

Procedure	C	N/C	Comments	CAP Completed Y/N
Personnel training records are up to date.	✓		Records verified	
Employees have been following the Hygiene and Health Requirements.	✓		Verified physically and found satisfactory	
Visitor Policy is enforced.	✓		Guidelines & Register available and maintained	
Visitor log book is completed for each visitor to the food production area.	✓		Available and maintained	
Corrective Actions				
All complaints have been logged.	✓		Yes	
All complaints have been investigated.	✓		Yes	
CAP from previous audit has been completed for all complaint investigations.	✓		Yes	
All Corrective Actions Requests have been closed and Corrective Action Plans have been assessed for effectiveness.	✓		Sock are covered properly	
All permits and licenses are up to date with current revisions	✓		Yes	
Employee List is accurate and up to date.	✓		Site Register is also available	
Internal Audits have been completed three times per year.	✓		PDCA and DEEKSHA audits have been completed	
All Corrective Actions Requests resulting from this internal audit have been closed and Corrective Action Plans have been assessed for effectiveness.	✓		Yes	
Other:
