

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

Level 2 Results Framework Indicators			
No.	(Outputs and Outcomes)	Targets	Methods / Comments
1	Households with new or improved water supply (number)	66,000	Subprojects in 20 project municipalities. Average population in each subproject coverage area is estimated 16,000. Total population benefiting is estimated at 320,000, which is equal to 66,000 households assuming an average family size of 4.8.
2	Households with new or improved sanitation (number)	8,000	All poor and vulnerable households estimated in the subprojects coverage area are expected to be served with toilets and septic tanks.
3	Wastewater treatment capacity added or improved (cubic meters per day)	3,000	Two pilot decentralized wastewater treatment schemes are envisaged. Estimated wastewater discharge figure based on 70% of water consumption (0.1 cubic meter per day) for two project municipalities with an average population of 16,000.
4	Water supply pipes installed or upgraded (length of network in kilometers)	1,600	Based on preliminary designs of water supply subprojects.
